Mike Marshall ‘inc.’ makes money off MSU

By TOM HANAHAN
State News Staff Writer
October 11, 1973

Michigan State University President Marshall released an official statement Monday which said that the faculty and administration had reached an agreement on a new contract.

The agreement was reached after a week of negotiations between the university and the faculty union. The new contract is effective immediately and runs through June 30, 1974.

The contract includes a two-year salary increase of 6.5 per cent, the same amount as the previous two years. It also includes a one-year extension of the existing contract, which expires June 30, 1975.

Black rule, economics subject of Carter, Callaghan meeting

Washington (AP) - President Jimmy Carter and British Prime Minister James Callaghan agreed Thursday that the world should speed up a proposal to save the whales. They also said that both countries would continue to campaign for a larger percentage of the world's whale quota.

The two leaders met privately in the Oval Office for about 20 minutes. They then went to the Cabinet Room and met with their aides for about an hour.

Carter said that he and Callaghan agreed on a number of issues, including the economy, the Middle East, and human rights.

Carter said that he and Callaghan agreed on the need for more economic assistance to developing countries and the need for a stronger role for the United Nations in world affairs.

Carter also said that he and Callaghan agreed on the importance of human rights and the need to continue to work on these issues.

The two leaders also discussed the situation in the Middle East, with Carter saying that he and Callaghan agreed on the need for a two-state solution to the Israeli-Palestinian conflict.

LA WAS THE Scene of a bloody confrontation, 20 dogs were killed in a fight over a piece of meat. The incident occurred when two packs of dogs, one belonging to a local farmer and the other to a neighbor, encountered each other near a field where they were grazing. As a result of the conflict, both packs were severely injured. The farmer subsequently announced a reward for any information leading to the arrest of the neighbor's dogs.

STATE UNIVERSITY: A new policy was implemented at the State University, requiring all students to complete a mandatory diversity training course. The objective of the program is to enhance cultural awareness and promote a more inclusive campus environment. Students who fail to attend the training will be subject to academic penalties.

THE CITY: A city council meeting was held to discuss the proposed budget for the upcoming fiscal year. The councilors debated various expenditures, including education, transportation, and public safety. A vote was scheduled for the following week.

THE ARTS: A sold-out performance of the renowned symphony orchestra was held at the city's performing arts center. The event attracted a record number of attendees, and reviews were overwhelmingly positive. The orchestra plans to perform an additional concert in the upcoming season.

SPECIAL REPORT: A major corporate scandal was uncovered, involving insider trading and corruption. The investigation is ongoing, and several high-profile executives are expected to be charged. The company's stock price has dropped significantly, and investors are seeking legal advice.
ASMSU Letters

Disappointed

When I was president of ASMSU during the 1975 campaign season, I wascolumnist and I engaged in a debate with the editor of The State News. I believe that I was the first student in the country to use the term "student/faculty" in a debate with a faculty member.

CRUSADER: "If the recession miraculously disappeared overnight, there would probably be a large numbers of youths without jobs walking the streets with little hope that something would turn up. — SO study

unemployed, world youth reaches all-time record

LANSING — The growing group of unemployed youth has now surpassed the all-time record, according to a recent study by the Michigan State News. The study was conducted by Pollak Research, Inc., and the results are based on a sample of over 1,000 youths across the state. The study found that the unemployment rate among youths ages 16-24 is now at 11%, up from 8% last year. The study also found that the majority of unemployed youths are from low-income families and are struggling to find work in their fields of study.

Thank you

Jim Goodwin, Editor-in-Chief
East Lansing

Thank you for your attention.

The study found that the recession has had a significant impact on the employment prospects of the nation's youth. The unemployment rate among youths ages 16-24 is now at 11%, up from 8% last year. The study also found that the majority of unemployed youths are from low-income families and are struggling to find work in their fields of study.

Farmer's testimony challenged

By JEFFREY L. BUNDA

COLUMBUS (IPS) — Dr. Luis Fernández, associate professor of veterinary medicine at Ohio State University, testified against a proposal to raise the age limit from 19 to 21 to allow young drivers to purchase beer and tobacco.

Fernández said that raising the age limit to 21 would not significantly reduce the number of teenagers who use tobacco and alcohol.

"There's no evidence that raising the age limit to 21 will reduce the number of teenagers who use tobacco and alcohol," Fernández said. "In fact, it's likely to have the opposite effect.

Raising the age limit to 21 would simply shift the age of use to a younger age group, which is already at risk for these substances.

Opponents of the proposal argue that raising the age limit to 21 would prevent under-age drinking and smoking.

"Raising the age limit to 21 would help curb under-age drinking and smoking," said Dr. Robert McDaniel, professor of public health at Ohio State University. "It would also help reduce the number of alcohol-related accidents and deaths among young people.

Fernández, however, said that the proposal would not have a significant impact on under-age drinking and smoking.

"There's no evidence that raising the age limit to 21 will have a significant impact on under-age drinking and smoking," Fernández said. "It's important to remember that under-age drinking and smoking are complex issues that require a multi-faceted approach.

Fernández recommended that the state continue to focus on prevention strategies, such as education and awareness campaigns, to reduce the number of under-age drinkers and smokers.

"We need to continue to focus on prevention strategies," Fernández said. "Education and awareness campaigns are critical to reducing under-age drinking and smoking.

Opponents of the proposal say that raising the age limit to 21 would infringe on the rights of young people.

"Raising the age limit to 21 would infringe on the rights of young people," said McDaniel. "Young people should be able to make their own decisions about their own bodies.

Fernández, however, said that young people are not capable of making informed decisions about their own bodies.

"Young people are not capable of making informed decisions about their own bodies," Fernández said. "They need to be educated about the risks associated with under-age drinking and smoking.

Fernández recommended that the state provide education and awareness campaigns to help young people make informed decisions about their own bodies.

"We need to provide education and awareness campaigns to help young people make informed decisions about their own bodies," Fernández said.

Lansing scouts join celebration

Said for 12 years and a leader of Troop 533 for two years.

"I had always wanted to be a leader," she said, "but just didn't have the opportunity." Then a sign in a grocery store changed everything. She bought two copies of the book and read them. "I can't recommend it highly enough," she said. "It's a great book that anyone who enjoys scouting should own." Next year, she plans to develop an interest in adult education while still in high school. "We're learning other things in app language, and this book will allow me to communicate with others," she said. "It's a great way to build friendship and teamwork."

COPYING FAD REALLY ESTABLISHED ART FORM

By MARGARET TAYLOR

What was heard on a loud by MSU students is actually an ongoing and daily occurrence in the Library.

This winter, many MSU students began “copying” themselves or cover-up machines in the Library. A MSU student at the copy machine of the famous “something something” said, “Xerography is in more and more use all the time. By doing it for a graduate degree student, it says ‘xerography is more and more use all the time. By doing it’.”

Bill Boll, head of the Graphics and Design Department in the Art School at MSU, said that he has been offering xerography as a part of his graphic design course since 1964.

“Art students are always interested in new tools,” he said. “They’re always looking for new tools but then they discover when they do use it, it is not the easiest tool.”

Boll said he began experimenting with xerography in his Art class in 1964.

Using various methods, Boll creates unusual designs through xerography. Rolling an object, such as a Dr. Pepper bottle, across the copy-paper, leaving the curve of the bottle in the print, is an example.

WEIGHT GROUP CHANGES MENU

Diet plan more flexible

By PAUL WHEELER

Whatever heard of eating photographs or even the milk and hot dogs, and now that is just what some MSU students are doing.

It sounds unbelievable, but these and other tabloid-like activities are part of a new eating program introduced in January by Weight Watchers International Incorporated.

Changes in the program include a simplified basic eating plan with fewer food categories and greater flexibility in planning menus.

More and more college students are coming to Weight Watchers at Lansing, Director, Weight Watchers Director for the Lansing area. He said that the increased youth response is because young people are more weight problems and of the power within themselves to change.

“People are being weight conscious like never before,” he said. “But I think it’s something people have been wanting for a long time.

“Art students are always interested in new tools,” he said. “They’re always looking for new tools but then they discover when they do use it, it is not the easiest tool.”

TELLS THE STORY OF HIS SEARCH FOR ROOTS

October 31, 1976: ROOTS became the number one best-seller ever with 1,000,000 hardbound copies sold within 20 weeks of publication! It is still number one.

January 28, 1977: ROOTS became the most watched television broadcast of all time (30,000,000 viewers in 8 nights).

Within 21 days, see and hear a uniquely fascinating double album package created by Alex Haley that will make recording history.

Alex Haley says: "I have tried to create an album of my true story for every reader and viewer of ROOTS. I hope it will find a permanent place in every heart and home in America to be looked at and listened to again and again.

Place your order at your favorite record outlet now!"
South African foresees freedom soon

By ROYANNE BROWN

Collins Rumusi, a former official of the South African government, says that blacks in South Africa will soon become independent of whites. Rumusi said that the African National Congress (ANC) will start working towards a independent South Africa.

"We are working towards the day when we will be free," Rumusi said. "We are working towards the day when we will be independent of the whites." Rumusi said that the ANC has been working for years towards this goal and that the time is now ripe for this development.

Rumusi said that the ANC has been working with other liberation movements in Africa to achieve this goal. He said that the ANC has been working with the African National Congress (ANC) in Namibia, the African National Congress (ANC) in Zimbabwe, and the African National Congress (ANC) in Botswana.

Rumusi said that the ANC has been working with these movements to achieve independence for all blacks in South Africa. He said that the ANC has been working with these movements to achieve independence for all blacks in South Africa.

Seafarer mail pile up

By JOANNA FRANCIS
LANDING 1979—Sen. William Proctor's (D-Michigan) office received more than 900 letters from Upper Peninsula residents protesting the U.S. Navy's proposed Project Seadiver.

The U.S.S. Learsie, a new ship, is being constructed in the Cradle of the U.S. Navy. Although the news made headlines in Upper Peninsula newspapers, many local residents were unaware of the project, according to Sen. Proctor.

Sen. Proctor, an Upper Peninsula resident himself, said he was surprised by the number of letters his office received, and that he would respond to each one.

The letters began pouring into the office Wednesday, with a majority of them written in French.

Proctor promised to continue to correspond with the people who wrote him, and that he would continue to monitor the project's progress.

The letters were handled by William Foster, an advisor to the governor on environmental issues.

Robert Berg, head of Michigan's public relations

---

Riegel, Carr send letter to Brown, urge consideration of alternatives

The two representatives pointed out the potential environmental impacts of the project and the importance of considering alternatives.

"The letter send two main problems: the vulnerability of the project's frequency transmitter or attack and interaction, and the lack of an effective system for reporting environmental deficiencies, "said the letter.

Riegel and Carr urged Brown to explore other options and share their letters with fellow senators.

Marshall bases business at MSU

"I am not aware of any other university that has had to deal with this sort of thing, " said Marshall, who is responsible for all university communications in the Lansing area.

According to Marshall, the university has not yet determined the cost of the system, but it is estimated to be around $70,000.

The system was put into place to prevent any future occurrences of this nature.

Marshall's office is working closely with the university's IT department to ensure that the system is functioning properly.

You must vote "Yes" for the FM Referendum on the ASMSU Ballot at Spring Term Registration if you want totally non-commercial student oriented FM Radio.

The MSU Board of Trustees may not accept the outcome of a vote with a tie vote, a NO VOTE WILL PUT AN END TO CURRENT PLANS FOR UNIVERSITY SERVICE BY THE MICHIGAN STATE RADIO NETWORK THROUGH AN FM STATION.

An FM station would provide state-wide free student oriented programming to the students in the community. A wide variety of programs, features and news will be provided to MSU students who is not now available would be. The student FM station would be completely free of commercial interruption.

If you want to serve the needs of the Michigan State student community, the Michigan State Radio Network feels an FM station is crucial, and that this network cannot be put off any longer. The time is now for a student FM station at MSU.

VOTE YES FOR FM.

PROPOSALS TO AMEND THE ASMSU CONSTITUTION

This is Side Three

---

ASMSU SPRING ELECTION BALLOT

This is Side Three

---

PROPOSITION A

Ball Article 1, Section 4, Subsection A, number 5 has been amended to read as follows: The President of the Student Board shall serve without a vote in all cases, except to break a tie that is a result of the Board taking only the Board Members' vote exclusive of the Board President's vote. A tie, as defined above, is the situation in which the President may cast no vote. This reversion applies any reference to President voting in Robert Morris's article, that is, the President shall not be elected from the current voting membership, but instead, the next internal appeals office.

---

This section currently reads as follows: The President shall not be served without a vote in any case of a tie vote, and should be elected from the current voting membership. The present wording is in violation of the ASMSU constitution. The ASMSU executive officers of the following recognized Corporations, Cooperative, Residence Halls, Fraternities and Sororities.

PROPOSITION C

This section currently reads as follows: The ASMSU constitution shall not include any reference to the President's voting, as a result of a tie vote. This reversion applies any reference to President voting in Robert Morris's article, that is, the President shall not be elected from the current voting membership, but instead, the next internal appeals office.

PROPOSITION D—Advisory Referendum

The Board of Trustees approved the present structure and the selection process of the State Board of Directors and the new fee structure for this group particularly in the areas of innovation and accountability to the undergraduate students of Michigan State University.

---

In the event that the Michigan State Board of Directors should adopt an FM Broadcasting Service, would you approve of receiving all undergraduates student $1.00 per term fee for it's operation? The proposal would be from all undergraduate diversity programs not to be increased.

---

Through Saturday you can enter to win a roundtrip "Journey" to Daytona Beach March 16th thru the 26th. The trip includes transportation, accommodations in the beach, a beach and an trip to L.P. "Next." The drawing for the Daytona Beach trip will be Monday, March 13th, 3 p.m. at Marshall Music. No purchase necessary.

To the unknown reviews... the Academy Awards! One major film has been getting rave reviews this year, and has been named the favorite to win the Best Picture Oscar. The movie, "Network," is a critical and commercial success, and has been praised for its acting, directing, and writing. The cast, led by an ensemble cast including Faye Dunaway, James Caan, and Jon Voight, delivers powerful performances that have left audiences in awe. The movie tells the story of a television news anchor who becomes disillusioned with the industry and decides to take matters into his own hands. With a tense and suspenseful atmosphere, "Network" has been praised for its gripping plot and thought-provoking themes. It is a must-see for anyone who loves a good Oscar contender.
LCC experiences surge in enrollment

Michigan State University (MSU) in East Lansing, Michigan, is facing a significant increase in its student enrollment. LCC (Lansing City College) is reporting a surge in the number of students seeking its services.

**U-M workers to negotiate settlement**

DETROIT (UPI) — Representatives of the University of Michigan and striking state workers were scheduled to meet in Detroit today with a goal of reaching an agreement in an effort to settle a two-week-old strike at the university. The workers are called by the University of Michigan State Employees Union (AFSCME). Local 589 represents 2,800 striking custodians and service workers, including hospital employees, in the Ann Arbor area.

The strike became the first general strike in a decade when it was announced by Michigan State University President Nicos Hadjicostis last week. Local 589 President John Knapp's remarks were echoed by Union members here, who argued that the state's budget restraint demands are being met by the university's management.

"High costs..." said the university's statement. The university is confident that its proposals are fair and reasonable and that the gains will be negotiated.

**Assessing the Oscars**

The University of Michigan Ann Arbor Campus Labor Council issued a statement Thursday morning expressing its concern about the recent strike by Michigan State University employees. The council said that it supports the strike and believes that the university is not acting in the best interests of the state's employees.

Charity telethon slated

By JOHN NICH

The Easter Seal Telethon, carried on M-112 TV, Channel 12 Monday, will be the 20th anniversary telethon with a goal of raising $50,000 for the Michigan Easter Seal Society in the Lansing area.

The local events will be handled by student groups in association with the Lansing and Mid-Michigan Chapters of the MESS. Kicking off the telethon will be the opening of the Lansing Civic Center March 29 through 31.

The telethon will be officially kicked off by the Second Annual Ball today, and the broadcast will end March 31.

During the telethon, most of the activities will take place on the Civic Center. Leading the telethon is a number of activities, including: look-ins, musical and dance performances and an event where people will have the opportunity to make money for the Society by just sitting in the Lansing Civic Center.

The telethon will be carried on M-112 TV, Channel 12. In addition, the telethon will be shown on the Lansing Civic Center television system.

The telethon is an important event in the annunber's traditional fundraising efforts.

Special guests who will appear on the telethon include: Lyndall Holmes, local radio personality; and the Lansing Civic Center's March 29 through 31.

Immunization program near success in Detroit

DETROIT (UPI) — The city's vaccination program to get all school children immunized against mumps is showing positive signs of success.

Officials here said that 95 percent of Detroit's 1.1 million students have yet to receive their certificates of immunization, down dramatically from before when the figure topped 90 percent. Last week school officials announced that any student who had not received the required dose for each disease would be denied admission to classes on March 1. Classes were set up around the city to give parents who had not had their children immunized before the deadline.

Linda Flaherty, county health director for the Detroit schools, said he had never witnessed such a concerted effort to get as many children immunized in such short time and credited the Detroit Health Department, school staff, parents and Detroit media news with getting the message.

Cocaine penalty studied by state

WASHINGTON — New千亿 of state laws being enacted in recent years to fight the spread of illegal drugs suggests those laws are needed, officials say.

Federal Reserve Bank of Minnesota reports that the state of Minnesota is leading the way in the legal battles towards deterring the illegal drug users to some degree.

State Rep. Michael Fitzgibbon, a Democrat introduced a bill into the Minnesota Legislature that would aim to monitor and combat drug abuse.

People's fear says that of late, police have seen cocaine use being stimulated, in part, by a recent major decision in Delaware which did not legalize it.

And in Britain, where the drug is probably less home, these factors either tend or otherwise.

First leading drug researcher ever has testified during the Delaware hearings that cocaine is not addictive and is not a medicine.
