Rebels claim Kabul coup successful

NEW DELHI, India - Rebels in Kabul announced they have taken control of the city in a coup which toppled President Mohammad Daoud, the government said Thursday.

In a dramatic development, a new government was announced by the rebels, who said they had seized control of the city after a successful coup.

The coup, known as the Kabul coup, was carried out by the rebel forces, who overthrew Daoud and his government.

The details of the coup were not immediately available, but the rebels had taken control of the city and were holding a meeting to announce the new government.

The coup came after weeks of tension and conflict between the government and the rebels, who had been fighting against the government for control of the city.

The rebels have been fighting against the government since early 1976, and the situation in Kabul had been日益紧张.

The government had been struggling to maintain control of the city, with the rebels gaining control of large parts of the city.

The coup was a major setback for the government, which had been struggling to maintain control of the city.

The rebels had been fighting against the government for control of the city for several weeks, and the situation had been日益紧张.

Latin American governments are investigating looting reports.

BERLIN, Lebanon — The Lebanese government is investigating reports that the Israeli army made off with ancient treasures from archaeological sites near the Bekaa valley, the heart of the Bekaa valley and the site of the ancient city of Tir. The government Antiquities Department said if the theft is proved, it would work with the UNESCO Cultural Organization to repatriate the items.

The theft is expected to be investigated by the Lebanese authorities. The investigation was launched after reports of looting were received from archaeological sites in the region. The Lebanese authorities are taking the report seriously and are working to determine the extent of the damage caused.

Loot is Boyles of the Phoenix Gazette, a fraction of about $4.6 million in Control Data's 1973 payments. The sum represents payments to officers in undisclosed companies. The police said Wednesday that the statue was stolen a number of times, but the figure that was taken was not the original bronze coated with gold leaf.

The police and others involved in the theft have released several photos to help in the investigation. The police have said that the statue was usually kept in a locked case.

Of Shakespeare, Jimmy Carter and 'indirections'

Jimmy Carter's presidency is quieter, gentler now, and if polls do indeed monitor the public pulse even the much-touted promise of the Panama Canal Treaty has not returned his declare. Carter has been accused of failing to define a clear-cut set of priorities. Conservatives damn him as inept; liberals construe even encouragement.

Kris's refusal on the Panama Canal Treaty to refurbish itself. Last week Carter was undertaking an effort to seem festooned with indirectness. and perceive an ill-defined vision. The Carter Administration, or...
National energy problem overruns with complexity

**By SCOTT WIERENGA**

The nation is hurtling at hazardous speed toward a new age based on less transient sources of energy. President Carter plans to convert this nation to an energy-efficient economy, to get efficiency as our prime fuel, to see the energy problem as a whole, and to view it as a matter of national security.

The nation is moving full speed into dangerous territory. Many people conclude that action and transition are inevitable. The inevitable exhaustion of energy sources, the inevitable exhaustion of oil reserves, the inevitable exhaustion of coal reserves, the inevitable exhaustion of... are perfected and deployed in such a way as to assure that energy needs are met.

To view the energy problem as a whole, as a matter of national security, is to see the energy problem as a whole, and to view it as a matter of national security. This is the approach of Carter's energy plan. President Carter's energy plan is one of the most important parts of his administration's efforts to meet the nation's energy needs. The plan is aimed at reducing the nation's dependence on foreign oil and increasing the production of domestic energy sources. It includes a variety of measures, such as increasing energy efficiency, developing alternative energy sources, and increasing conservation efforts. Carter's plan is designed to reduce the nation's reliance on foreign oil and increase domestic energy production. It is a comprehensive approach to the nation's energy problems, and it is designed to ensure that the nation is able to meet its energy needs in the future.
Flamenco in decadent stage according to Deverda

By JOHN NELSON
Staff News Writer

The flamenco is a unique genre of music and dance that originated in Andalusia, southern Spain. It is characterized by passionate and emotional expression, with a focus on rhythm, melody, and harmony. The flamenco is often accompanied by a guitar and a castanet, and it is typically performed by a group of three people: a singer, a dancer, and a guitarist. The genre is known for its complex patterns and intricate footwork, and it is often associated with the Spanish culture and history. The flamenco is a popular form of entertainment in Spain and throughout the world, and it is often performed at festivals and cultural events. The flamenco is a rich and diverse art form that continues to evolve and thrive, and it remains a symbol of Spanish culture and identity.
ASMSU lacks student interest

During the last elections, students put the Legislative Branch atop the ballot because they thought it would improve their situation.

The whole question of legislative power has become kind of a joke because the legislation has never been put to a vote. Any time a committee makes a recommendation, the Legislative Branch tends to rubber-stamp it. It's a complete lack of power and the presidency's power is already really weak and has absolutely no influence.

The other three cabinets - the Finance, Education, and Public Relations - are also weak. The Finance Board is not elected by the students. They should be elected by the students, but the president's power is already so weak that he cannot function in a really influential way.

For example, the board was forced to submit a proposal completely opposed to the administration about the future of the Performing Arts Center, because the board had no power to vote it down. That's the story of the Legislative Branch and the executive branches as well.

The proposal stated that if the board's proposal to close the Performing Arts Center, which have two organic coffee eateries, was able to present a proposal that would be heard. But the Legislative Branch had no power to do that. They had no power to present a proposal.

The proposal did not allow the board to present a proposal, either. It was all decided by the students and the students' representatives.

This whole idea of a student government is not very successful. It needs to be reevaluated or something needs to be done to make student representation stronger and give students more power.

Baron said efforts to replace the Legislative Branch have been made. There was a plan to replace it with another cabinet, the Education and Legislate Committee. This cabinet would have a chance to appeal decisions made by the Legislative Branch.

But in spite of all the advances, the Legislative Branch has a lesser tendency to be influential and government professors are not interested in student influence. University regulations are very detailed and deals with every sector of services. The student body should be involved in the decision process and should have a say in the decision-making process. But in reality, the Legislative Branch has no power to make any changes. The only thing it can do is present proposals, but the proposals are not accepted by the administration. So, the Legislative Branch is not very successful.

At least the student board members and president are trying to be more visible and get more involved. But in reality, the Legislative Branch has no power to make any changes. The only thing it can do is present proposals, but the proposals are not accepted by the administration. So, the Legislative Branch is not very successful.
Hitters host pivotal weekend as conference action resumes

By JERRY BRADE
State Sports Writer

White: MSU didn't do so well that week, as the Spartans finished the tournament an impressive 1-2 record, with victories against Bowling Green and Macomb Community College.

The Spartans lost two games last weekend, to Illinois and Bowling Green.

The Big Ten play begins Saturday, with the Spartans hosting Purdue in a twinbill beginning at 1 p.m. at Ralph Young Field.

"It's crucial to start strong," MSU Coach Michael Klocke said. "The series is important to our schedule, and we need to come out of it with a win.""

The Spartans are currently 2-2 in Big Ten play, with victories over Iowa and Ohio State, and losses to Michigan and Minnesota.

They face a tough test against Purdue, who are currently 3-1 in the conference and have won their last three games.

The Spartans will look to take advantage of their home field advantage and put together a strong weekend performance.

The women's track team hosts Invitational key matches at Drake Relays

Women's track hosts Invitational; key matches at Drake Relays

By DANNY LITWILER
ATLANTA TIMES

The baseball team defeats Purdue and Michigan over the weekend, finishing the series with a 1-0 victory over the Wolverines.

"We played well against both teams," MSU Coach Michael Klocke said. "The team executed the game plan and came out with a win."

In addition to the conference games, the Spartans also played two non-conference games, defeating Central Michigan and Macomb Community College.

"The non-conference games are important," Klocke said. "We need to continue building momentum for conference play."

The Spartans will look to carry this momentum into the Big Ten schedule, where they face some tough teams.

"The Big Ten is always competitive," Klocke said. "We need to come out strong and play our best球game to make a run in the conference."
McNulty sets serious on courts

continued from page 9

A broke half hour after the age of McNulty, this year's team captain, has been sharply criticized for his lack of performance with the stick. He is often a no-show at practice and is frequently unavailable for games because of his school schedule. His performance with the stick is often criticized as he is often slow to react to the play and is not able to make the necessary passes to his teammates. McNulty is also criticized for his lack of leadership and his tendency to take on too much of the responsibility for the team. The team is feeling the effects of McNulty's lack of performance and is struggling to find a way to improve their standings in the league. With the season in full swing, it will be essential for McNulty to step up his game if the team is to have any chance of making the playoffs. The team is counting on McNulty to lead them to victory in their next game against the arch-rival team. The game is set for this weekend and will be a crucial test for the team's ability to bounce back from their recent losses. The team will be relying on McNulty's leadership and his ability to inspire his teammates to give their best. The season is on the line and McNulty will need to deliver.
Esmail debate on TV

JEANE RABIN
Lansing State Journal

Esmail is involved in a debate that is taking place Monday. He is being charged with activities that are linked to foreign agents.

Reinette invents new mousetrap

MARETTA (Nov. 12) "My invention, George Maureen, is more than a simple mousetrap." She explained the actions and ideas that led her to inventing. "Esmail has taken a whole new concept on what he calls a mousetrap.

It's better, cleaner, simpler and more efficient," she said. "I don't think there is anything like it with only two pieces." Tires are used only when the trap has a lot of difficulty in catching the mouse. Tires can be removed just by moving the arm of the trap.

Among his other inventions is a "super trap" that can be put on a car without jacking it up, and a device to fill fountain pens. - Taken from Bill Bonds' Detroit program.

Holocaust discussed

There is something intriguing in the manner in which events are termed, "he said. "We tend to reserve the term 'crime against humanity' for crimes of a certain magnitude; and that, I believe, is a distortion of the events."

Another attitude that should be put aside, Brown said, is the assumption that evil can be kept in the past by refusing to acknowledge that it could happen again.

"The execution of the Holocaust was not part of the German culture," he said. "It involved manipulation, a factor we, too, could easily succumb to."

Brown discussed dealing with the silence of God throughout the Holocaust, remarking (continued on page 12).

or body building championships

A head harness and 100-pound weight (left!) builds Steve Mandreger's neck and shoulders as he trains for the Mr. Michigan competition to be held in Detroit Saturday. After a three-hour workout each day, including working with 50-pound weights on a skirt board (above), he rolls his back and thenIp. more into posing moves.

"Competitive body building is more than just a combination of perfectly co-ordinated muscles. The judges are looking for your facial expression, your body build and degree of symmetry. Your body and your personality are all a part of the body building score that you are judged on. When you are a combination of a well formed body and the grace and rhythm with which you carry yourself."

Arts Day focus on participation

After being forced to take a back seat to the blizzard of 1978, the "Arts Circus" is scheduled to run from 1 to 10 p.m. Saturday throughout the Civic Center.

"Circus rings" set to crack down on inaccurate and fraudulent financial aid applications.

"Students attending can actually take part in a variety of arts and actually try to crack down on inaccurate and fraudulent financial aid applications," said Elliott, chairperson of this year's program.

The "Arts Circus" is scheduled to run from 1 to 10 p.m. Saturday and from 1 to 7 p.m. Sunday at the Civic Center.

"Audiocenter art and memorabilia will also be on exhibit," Elliott said.
BL indictments blocked by Bell

The demonstration by Gardner and Fish, and by two other former officials who appear against their office, suggest that they are part of a broader trend within the F.B.I. Among the questions raised by the indictments is whether the bureau's policy of protecting itself from disclosure to the public is justified. The indictment, which was filed in U.S. District Court in New York, charges that Bell and his subordinates engaged in a series of illegal activities, including the destruction of evidence, the obstruction of justice, and the interference with federal investigations.

The indictment alleges that Bell and his subordinates engaged in a pattern of illegal activity, which included the destruction of evidence, the obstruction of justice, and the interference with federal investigations. The indictment charges that Bell and his subordinates engaged in a series of illegal activities, including the destruction of evidence, the obstruction of justice, and the interference with federal investigations.

HEW checking awards

Hospital costs up but rate less than '77

The American Hospital Association said Thursday that its survey of 1,200 community hospitals across the country indicates a 3.3 percent reduction in hospital costs in January, 1978, as compared to January, 1977.

The AHA said the latest statistics show that the rate of hospital inflation, as determined by the All-mart Hospital Price Index, dropped from 11.4 percent in January, 1977, to 8.1 percent in January, 1978.

The AHA said that 1978 marked the third straight year of a reduction in hospital costs for the nation's community hospitals.

The AHA said the latest figures showed that the average hospital cost to the patient for an average stay of 14 days was $1,184, up 4.4 percent from the previous year.

Dr. William J. O'Brien, president of the AHA, said the reduction in costs was achieved without any reduction in quality of care.

The AHA said that the reduction in costs was due to a variety of factors, including increased efficiency in management, improved cost control, and increased use of technology.

Dr. O'Brien said that the reduction in costs was an important step forward in the effort to contain the rising cost of health care.

Detroit woman stops muggers

ODELL MBPE — Police nabbed "The Wunder Woman" Thursday, and the job she did without fear was truly wonderous.

Sister Gregory said Thursday. "She did it four times during the chase. The last four times during the chase. We hope to have her home safely."

Even that did not end her adventures.

"I said to myself, I'm not going to let this get away with it," Sister Gregory said.

And she didn't. A week later the same girl was faced with another hander, and she did it again. She honked her horn wildly all the way. The act of daring even scared the muggers away.

"I'm not going to let it go on like this," the sister declared.

Non-grads face
good job outlook

By DONNA L. BARKIN
The career service of the University of Illinois at Urbana-Champaign which requires
less than a four-year college education will recognize the specialty
demands of the individual when a degree program is not
available in the specialty.

Figures released by the U.S. Bureau of Labor Statistics look
favorable for the non-degree graduate because their jobs are
similar to the Follow-Up Survey. Assistant Director of Placement
Services, L. Patrick Scheetz, in the 1977-78 shows hiring
in education compiled by Shingleton and L. Patrick Scheetz,
with a median of 14 percent of the.

"Secretary Shingleton is being factual in saying a college
education is no ticket to a job, but we place 91.9 percent of all our
graduates within three months after graduation — which is not a
bad record," he said.

A college graduate, however, will find that it is a good
investment, culturally and economically.

"Those who can cut it with a degree will find that it is a good
job outlook. And in recent years, more and
more graduates have been forced to enter jobs not traditionally
offered to college graduates."

"Secretary Marshall is being factual in saying a college
