Postal workers across the nation Wednesday formed informational picket lines to protest the slow pace of negotiations toward a new labor agreement. Washington, D.C. employees turned out in large numbers for the one-day event. The current contract expires in eight days.

# Postal workers picket

By JEFFREY MILLS
WASHINGTON (AP) — Barely more
than a week until a negotiating deadline
postal workers came to Postal Service
headquarters Wednesday to protest lack of

bargaining progress on a new labor pact.
The slogan "no contract, no work" was frequently voiced at a rally near the Washington Monument and on placards carried by workers on a march to the Postal Service building. While local officials frequently threat

ened to order work stoppages as soon as th contract expires, national leaders were more restrained, saying there is still time to negotiate a contract to replace the three-year pact that expires July 20. One source close to the talks said

Wednesday that the two sides were making progress on some secondary issues, such as work rule changes, but still had not tackled the two key issues of wages and union demands to retain a no-layoff clause in the

Bargainers "are getting rid of some of the

underbrush, but nothing's happening on the main issues," said the source. The Postal Service has not made a pay offer since the talks began April 20. Three of the four unions, bargaining together have asked for increases in wages and cost-of-living allowances that together would total 14 percent if the current inflation rate continues.

"If we don't get a decent contract, there is no work after the 20th," Mo Biller, head

Postal Workers Union, told the rally

In conjunction with national efforts, members of the East Lansing National Association

of Letter Carriers set up a one-day informational picket line. Approximately seven members of East Lansing union branch 2555 walked the picket line and distributed information in front of the East Lansing post office on Abbott Road. John McCauley, president of the local union, said.

With national negotiations "bogged down" and the carriers contract set to expire July

## DISSIDENT TRIALS NOT MENTIONED

# Soviets get U.S. arms plan

By BARRY SCHWEID

GENEVA, Switzerland (AP) - Secretary of State Cyrus R. Vance presented the Soviets with new American proposals to limit missile systems as the SALT II talks opened Wednesday without mention of U.S. displeasure over the trials of two

Russian dissidents.
Soviet Foreign Minister Andrei Gromyko called a recess after asking Vance a few preliminary questions about the American plan. It was believed the foreign minister

during the four-hour break.

But upon returning to the U.S. arms office here for an afternoon session, Gromyko gave no indication of what he thought of the proposals or how the

negotiations were going.
"We're not yet in the middle of our negotiations," Gromyko told reporters. "It is too early to make predictions.

Vance said: "You are right."

question whether the dissident trials were

impeding the progress of the talks.
"Trials, what trials?" he said. "I do not want to speak on the subject. You understand me correctly?"

understand me correctly.
Sometime during the two-day meeting,
Vance is expected to give Gromyko a
message from President Carter stressing
U.S. concern over the trials of the
dissidents Anatoly Shcharansky and Alexander Ginzburg.

A spokesperson for Vance said the

secretary would wait until later in the talks

to bring up the subject of the trials.

Vance has said repeatedly the human rights issue must not interfere with the negotiations on a Strategic Arms Limita-tion Treaty. A senior U.S. official said objections within the Carter administration to Vance's meeting with Gromyko were dismissed because arms limitation was an 'imperative" that could not be delayed.

Vance's spokesperson added, however, that Vance would emphasize to Gromyko "the importance of dealing fairly not only with Shcharansky but all the dissidents.

The American arms proposal is aimed at providing a breakthrough in the treaty talks, which seek to limit new missiles and

long range strategic bombers on both sides. The U.S. plan would restrict the missile modifications the Soviets could make during the life of the treaty, until 1985.

Under the plan, the United States would also reserve the right to develop the MX, a mobile missile system and also to build thousands of new silos to make the current arsenal of Minuteman missiles less vulnera-ble by shifting them periodically from silo to

The source also said the Carter administration had made no definite decision regarding production of the MX mobile missile system. The Soviet Union suggested

## **POSSIBLE 11 YEAR INCARCERATION**

# Ginzburg sentence asked

By THE ASSOCIATED PRESS

MOSCOW (AP) — The prosecution asked a Soviet court in Kaluga on Wednesday to sentence human rights activist Alexander Ginzburg to eight years at hard labor and three years in Siberian exile, court officials said.

Ginzburg, 41, who is charged with anti-Soviet agitation and propaganda, is scheduled to make his own closing summation Thursday. He is accused of disseminating literature hostile to the

Soviet Union and running a fund to aid dissident prisoners.

In a second dissident trial, in Moscow, the prosecution introduced a signed statement by Los Angeles Times correspondent Robert C. Toth as evidence that 30-year-old Anatoly Shcharansky was a spy. Shcharansky faces the death penalty or

President Carter, in an interview with European television stations, said Tuesday the Shcharansky trial "is an attack on every human being" and will arouse worldwide condemnation of the

Soviet Union." Carter repeated his claim that the allegation that Shcharansky was a spy for the United States "is patently false."
Toth said Wednesday in Washington that the statement he signed was a record of the interrogation by police about Shcharansky in June 1977. The statement verified the proceedings

of the interrogation and that his answers were correct, Toth said. "If I hadn't signed it, I would have been under a charge of perjury," he said. "But the charge against Shcharansky is espionage, and there was nothing in my statement that could be used in an espionage case."

Toth said the investigation, conducted shortly before he ended his assignment in the Soviet Union, covered such questions as and when he met Shcharansky, how the Soviet dissident elped Toth on stories and how often they met.

Experts testified at a close-door session that the information

Shcharansky gave to Westerners "is obviously secret and

## Survivors describe fire ordeal

By FENTON WHEELER

TARRAGONA, Spain (AP) - Survivors of the fiery gas truck explosion that anish seaside campsite told

Wednesday of horrifying burns and tourists scrambling madly over rocks and jumping Mediterranean to escape

Wednesday in the crowded burn centers in Barcelona, Valencia and Tarragona, bringing the unofficial death toll to 139. More than 250 were injured.

The Swiss Air Rescue Service, which visited hospitals where most of the injured are being treated, said in Zurich there were still almost 100 very seriously burned patients "who have virtually no chances of

A gas tank truck carrying 1.518 cubic feet of propylene gas veered off the highway and plunged into a campsite 50 miles south of Barcelona at midday Tuesday, starting a fire and chain of explosions that engulfed the 500 to 600 campers, who were eating lunch in their tents and trailers.

The body of the driver was not found. A Madrid propylene transportation firm. Cis-ternas Reunidas, took responsibility and said an investigation has been ordered. Minoca Kosta Korgen, 34, of West

Minoca Kosta Korgen, 34, of West Germany was in a trailer with her husband and son when the fire roared over the camp. "I ran to the sea as fast as I could," Korgen said. "Then I came back and pulled my son in the market man the market with the market man.

But somehow she was separated from him. She has not seen either her son or her

husband since. "It was something that if you were not

there you could not imagine it. Terrible eries came from all around. I saw persons burned beyond recognition."

One 28 year-old German woman was

flown to Germany for treatment, along with 30 other compatriots. "I felt a heat wave on my back and

instinctively plunged into the water."

Ma Bell lets it ring without coins 'on the go' to place calls quickly," Archie D. McQueen, Michigan Bell suburban manager, explained.

By PAULA DYKE

State News Staff Writer

You're stuck downtourn without a ride home. You spot a pay
phone, rummage through your pockets and voida! You find six lousy
cents. "A lot of good that's gonna do me," you grumble. You find
yourself cursing Ma Bell.

Someday this scene will be a distant memory. It appears Ma Bell
is attempting a reconciliation installing Michigan's first "coinless"
new phones in Lansing.

phones in Lansing.

The new "Charge A Call" telephones, however, are designed to accommodate only long distance calls. But instead of scrounging around for 20 cents, the customer simply picks up the receiver, dials "0" and then the telephone number.

Before his call is placed, an operator comes on the line to ask ow the customer wishes the call to be billed — either collect, to a third number, or to the customer's credit card.

The new phones were developed to make it easier for people

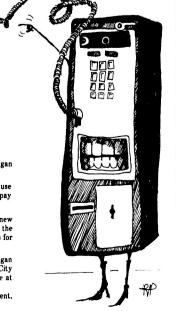

"But they are also an advantage to us," McQueen said, "because they are less costly to build and maintain than our standard pay

McQueen said customers who try to dial a local call on the new phones will get a recording. Local calls can be made through the operator, he said, but the customer would be charged 50 cents for the operator's assistance.

Four Charge A-Call telephones have been installed in Michigan so far. All four are located in Lansing: two in the Capitol City Airport terminal, one at the Hospitality Inn on 1-496 and one at Don's Auto-Truck Stop at M-78 and 1-96.

### Meeting to discuss Vietnam war dead held

HONOLULU (AP) — A six man Vietna mese delegation met with U.S. officials Wednesday to exchange information about Vietnam War dead

The meeting at the Joint Casualty Resolution Center marked the first Vietnamese visit to the U.S. outside the United Nations since Communist take over of the Southeast Asian nation

The two countries are sharing informa tion about methods of recovery and identification of the remains of war dead.

Vu Hoang head of the Vietnamese delegation said the purpose of the two-day conference is to increase the delegation flow of information on missing personnel and to be more effective in identifying remains of missing Americans

The delegation also was scheduled to visit the U.S. Central Identification Laboratory here a facility which state department official Frank Sieverts said extraordinary capabilities" for identifying remains

### Bostonian front-runner in Ecuador election

QUITO Ecuador (AP) - A native Bostonian with a degree from Columbia University appears the front-runner as Ecuadorians prepare to elect a president Sunday for the first time in 10 years.

Sixto Duran Ballen, 56, a former mayor of Quito who was born in Boston of parents from Ecuador is the leader among six candidates in the latest poll.

A three-man military junta has ruled this Colorado-sized South American nation for six years. They have pledged to step aside and aid the return to civilian

rule, allowing the new president to take office before the end of the year.

The election is being watched carefully by other military governments in South America and the move has received warm praise from the Carter administra-

A turn to democracy is also taking place in neighboring Peru, which held elections last month for a constitutional assembly which could lead to civilian rule by 1980. Bolivia, also nearby, voted for a president on July 9 for the first time in six

### 'Round the clock' clashes reported in Spain

MADRID (AP) - Nearly round-the clock clashes between Basque nationalists and riot police were reported in the Basque provinces of northwest Spain Wednesday. Sources there said the

situation was "deteriorating quickly."
Two youths have been killed since Saturday. Though the Basque country has been the focal point of political unrest for weeks, their deaths created an explosive

We appear to be living on a powder magazine that may go off any time," said a shopkeeper in San Sebastian, the Basque capital

Many of San Sebastian's streets were cut by barricades thrown up by the Basque nationalists to aid their battling against the police.

In one such confrontation Tuesday night, a youth was wounded and 26 other were reported arrested.

## IRS will audit Sen. Talmadge's returns

WASHINGTON (AP) - The Internal Revenue Service will audit Sen. Herman E. Talmadge's tax returns for 1975 and 1977 in the wake of reports of irregulari ties in his financial affairs, the Washina ton Star said Wednesday.

The newspaper, citing "informed" but unnamed sources, said the civil audit of the Georgia Democrat by the IRS could lead to an criminal investigation as well. although the agency will not take any official steps until the Senate Ethics Committee completes its own look into the Talmadge case

That panel has had Talmadge's financial affairs under review for a month, and may take several months more to finish.

The Star said the Justice Department has begun to show interest in Talmadge's situation as well, although department officials declined formal confirmation on grounds that it was inappropriate to discuss any potential case.

## Aspirin may work for more than headaches

BOSTON (AP) - Moderate daily doses of aspirin greatly reduce the risk of stroke in men who are in danger of aving the crippling, often fatal attacks, Canadian researchers say

The doctors found that when these men took the popular pain killer, the rate of strake and death was 48 percent lower than usual. However, for reasons they could not explain aspirin does not prevent strokes in women.

Fighting stroke is only the latest of

several newly discovered uses for aspirin, which has long defied scientists' ability to explain just why it eases minor aches and pains, reduces fever and calms inflammation of the joints.

Last fall, Boston doctors reported that aspirin prevents blood clots in patients who undergo hip operations. Another study suggested that aspirin may protect heart attacks and now the National Heart and Lung Institute is conducting a major project to find out whether this is true.

### Townspeople say they want police working

NEW BERN, N.C. (AP) -- Battle lines hardened Wednesday between striking police and civic leaders in this normall peaceful coastal community, after hun dreds of citizens packed a meeting of aldermen chanting "We want our police."

All 32 patrol officers in this city of 18.000 persons went on strike 11 days ago, demanding a 10 percent pay hike instead of the 6 percent offered by the governing Board of Aldermen.

Police Chief John Worsham was fired

by the board last Friday for supporting his men and that prompted the entire force to vow they would return to work only if Worsham were reinstated.

At Tuesday night's board meeting, several hundred residents turned out to support the police officers, and the meeting was interrupted with shouts of "We want Worsham, we want our police." Former police captain M.E. Windham said the people filled the room, the halls and the stairway of city hall.

# Republican tax plan criticized

the first and a program of the first first

WASHINGTON (AP) — A tax cut plan that Republicans insist will pay for itself is a pipe dream that could lead to a digastrant could lead to a disastrous round of inflation, President Carter's chief eco-nomic adviser said Wednesday.

"No way, no way" could the tax reduction of about 10 per-

cent a year for the next three years spur the economy enough to bring in more revenue than it would cost the Treasury, Charles L. Schultze, chairper-son of the Council of Economic Advisers, told the House Bud

get Committee. His criticism of the plan,

spensored by Sen. William V. Roth, R-Del., and Rep. Jack Kemp, R.N.Y., provided the most thorough Democratic re-sponse yet to the bill that Republicans have vowed to make a national issue in this

## Highway death toll up; speeding major reason

 $WASHINGTON\ (AP) = American\ drivers\ are\ ignoring\ the\ 55$  mile per hour speed limit more and more, a major reason the death toll on U.S. highways rose for a second straight year in 1977, the

The Department of Transportation reported this week that 47.671 persons died in traffic accidents last year, an increase of 4.7 percent over the 45.523 who died in 1976.

Officials said the main reason for the rise in deaths is that more than half of America's drivers are ignoring the national 55 mph speed limit, though more cars on the road, more miles driven and more smaller vehicles also are factors.

The General Accounting Office reported earlier this year that a nationwide survey of driving habits found more than half of the cars were violating the speed limit.

DOWNTOWN — 107 S. Washington EAST LANSING — 209 E. Grand River forum to pitch for Carter's own one-year, \$15 billion tax-cut plan and to assail the Roth-Kemp bill as "sheer waste."

The Carter administration's tax plan is "of a magnitude appropriate to the needs and capacity of the economy," Blu-menthal said. "As in most things in life, moderation is a virtue; too much of a good thing will produce economic indigestion, not improved economic health." Blumenthal and Schultze also

urged Congress to reject an effort to sharply reduce taxes

on capital gains, which are profits from the sale of stocks and other assets. Republican claims that the reduction would send stock prices soaring and spur the economy "border on sheer fantasy," Schultze said.

Rep. William Steiger, R-Wis., seems to have the votes to cut the maximum capital gains tax from about 49 percent to 25 percent, if he can get the bill to a vote. The administration's all-out opposition to that bill has stymied congressional ac-

## Treatment center changes reviewed

LANSING (UPI) — David Rosen, acting director of the Plymouth Center for Human Development, said Wednesday it will take three years to complete a housecleaning at the facility that began last year with reports of patient abuse.

Rosen, an experienced administrator assigned to the troubled mentally retarded treatment center six weeks ago, detailed for a legislative committee steps he has taken and plans to take to improve the care of patients and safeguard their rights.

"No way are we anywhere near where I have hopes for us to be at Plymouth," he said.

"It's going to take three years to get this place the way we want

"You don't turn around a place that has gone down for six years

Rosen and a member of the Plymouth Association for Retarded Citizens — a group representing parents and guardians of Plymouth residents — testified before a special joint legislative committee investigating abuse in state mental health facilities.

In addition to the legislative panel, one special task force has issued detailed recommendations to curb patient abuse and another is preparing to issue a separate report.

Once a bicyc to for safety's All bikes mu said Maj. Ada

State News Staff Writer

Editor's note—This is the second of a three-part series explaining various aspects of biking. The following deals with bike safety and campus regulations.

Once a bicycle and rider are ready to roll, there are some rules and regulations to adhere

to for safety's sake, on-campus and off.
All bikes must be licensed by either MSU, Lansing, East Lansing or Meridian Township, said Maj. Adam Zutaut, Department of Public Safety police commander. Campus licenses may be obtained at the DPS Vehicle Office.

"Bicyclists have to use the bike paths," Zutaut said. "They are not

"Bicyclists have to use the bike paths," Zutaut said. "They are not legally authorized to use the streets. If there are no paths, however, they are required to use the streets."

Don Ayers, a well-seasoned cyclist and employee of the Community Bike Co-operative, had some of his own tips, acquired through years of experience.
"If your behavior is predictable you will have fewer accidents," Ayers said. "Ride in the street and do it safely."

He advised riders to stop at all intersections because accidents off the street are not legal matters.

the street are not legal matters.

Bikes are considered vehicles when ridden in the streets. DPS literature states. The operator is required to yield the right of way to pedestrians at intersections of bike paths and sidewalks and at erosswalks

Riders are legally required to obey all traffic control signs. If riding in the street is necessary, the rider must keep as far to the right as possible. Riding more than two abreast and riding against

the traffic flow is illegal, Zutaut said.
He also said there was a problem with cyclists going the wrong way on the bike paths.
"We've had some very serious accidents," he said. "We've had

very few motorist-bike accidents. Most involve a bike and fixed object or bike and bike."

object or bike and bike."

Zutaut cited on example of an MSU student who ran into a tree and sustained critical head injuries. Ayers, however, has numerous complaints about the University

"Paths are poorly designed," he lamented. "Near Beaumo Tower about four paths and three sidewalks come together on a hill and there are bushes there. The design is unsafe.
"Ninety percent of the accidents we (the Bike Co-op) get are at

sidewalks or paths where they join streets. Most accidents are from campus because of the proliferation of the paths," he said. Once the intended destination has been reached, the vehicle must be parked in the racks provided by the University. If the racks are full a bike "must be parked in the immediate vicinity of the racks,"

the DPS literature states. Bikes are restricted from being parked in automobile lots, building entrances and exits, shrubbery and on sidewalks, it

Women's abuse center

awaits election, council

By LINDA BRAY

A women's abuse center in Lansing has been considered for over a year and may become a reality pending election results and acceptance of a proposal by the Lansing City. Council.

The proposal, submitted to the Lansing City Council July 3, recommended a building on Oldsmobile-owned land be used as a shelter. However, a land swap between Oldsmobile and Lansing must be approved by Lansing residents in the August election before the proposal can be approved by the

councimemoers.

Kate Young, sponsor of the proposal, said if the land is traded and used for the shelter, the services provided will include a safe place for abused women and children, 24-hour short-term counseling and help in funding any necessary long-term counseling. Young is also coordinator of the Council Against Domestic Assault.

"It's my feeling that we're planning to offer what a lot of places around the state offer."

Councilmember James D. Blair, who submitted Young's proposal to the council, said he did not know if the proposal would be accepted.

The proposal is now in committee and "all we'll be doing in committee is discussing proposals," Blair added.

If the proposal is not accepted or voters do not approve the Oldsmobile-Lansing land wap, CADA will simply continue to look for other support for a shelter. Young said. CADA has been working for the past year as an incorporated non-profit group in an

Former CADA chairperson Denise Darow Chandler said they have received substantial support from the Lansing community.

"Pretty much every group in town has been working on this project," she said.

"Up to June 26 (when Chandler resigned as CADA chairperson), we had been given two paid staff positions from Ingham County which will provide for people who will be

responsible for getting the project going and we have a couple of grants that look pretty promising," Chandler added.

The grants Chandler discussed include an estimated \$40,000 Law Enforcement ssistance Administration grant sponsored by the Lansing Urban League.

The other, an estimated \$77,000 from the same source, is sponsored by the

CELEBRATE **BASTILLE DAY JULY 14** 

## Domestic violence, treatment program in social services

By KIM CRAWFORD

State News Staff Writer
The Michigan Department of Social

Services will reluctantly become the home of a domestic violence and treatment board reated by a bill passed by the state

The legislation was passed in June and is

expected to receive Gov. William G. Milliken's approval in August. If approved, the five-member board will

be given \$1 million for aiding and setting up programs in the Detroit area and \$1 million for the rest of the state.

Some critics of the bill and proponents of state aid for spouse abuse victims also say

ne state appropriation will not be enough.

Members of an advisory task force on domestic violence said legislators heard testimony repeatedly against placing a shelter program in the Department of

State Rep. Connie Binsfeld, R-Maple City, whose proposed shelter legislation was returned to committee, would have set the domestic violence prevention board under the direction of the Department of

Management and Budget.

Binsfeld said she was "disappointed" in the bill that got legislative approval, but said she supported it because "it was the

only thing we could get."

The bill that passed and will place the board in the DSS was sponsored by Rep. Daisy Elliot, D-Detroit.

Binsfeld said legislative committees heard testimony that 60 percent of victims now being treated for domestic violence are not users of general assistance or ADC services provided by the DSS.

services provided by the DSS. she said, there was fear that people in need of spouse abuse treatment and protective services might be deterred from seeking help because of the stigma of using a "welfare" kind of program for the "indigent."

The bill passed by legislators also states that a compunity wanting to create a

that a community wanting to create a shelter for victims of domestic violence must cover 60 percent of the cost, with the state providing 40 percent.

The state, however, will put up no more

than \$55,000 during a fiscal year.

Binsfeld said this will work against rural areas and small towns who cannot draw on existing social service programs to provide for the shelter.

Caroline Krill, director of the Women's Crisis Center in Kalamazoo, said she was displeased with some aspects of the bill.

"I think it's grossly underfunded. One million dollars is not enough to fund programs needed around the state." Krill "There will be a mad scramble for funds and the money will end up going to the areas with the most political influence." Krill speculated that the program might find itself in trouble after the first year.

(continued on page 5)

## No way to justify triples

Tripling students in a dormitory room is wrong. Even if a state court overturns Attorney General Frank Kelley's interpretation of a 1917 Michigan housing code — as the University expects will happen it is still wrong. Even if the Michigan Legislature were to modernize the law to take into account improved ventilation systems and decide that people need only 200 feet of cubic air space — it is still wrong. Even if it makes sound economic sense to plan for tripling and even if tripling takes care of itself in a term or two anyway - it is still wrong.
We are wholeheartedly sympa-

thetic to the University's contention that Kelley's opinion was poorly timed and thus places an unfair onus on MSU. But in no way does that justify the University's continued use of tripling in its budgetary plans. The University was correct in terming some provisions of the 1917 law "archaic" and it was also right in refusing to make any changes for the 1978-79 school year based on Attorney General Kelley's opinion of the law. But again, that does not

justify tripling.
Obviously, the only place to decide whose interpretation of the law is correct — Kelley's or MSU's - is in the Michigan courts. If it should ever make it that far we would guess that a court would decide the attorney general had read it correctly. There really is no other place to catagorize a university except in a class "B" environment along with jails, hospitals, retirement homes, etc. Because universities are not enumerated in the 1917 law is beside the point. They have to be classified somewhere, under that particular law, and "B" is the only logical category.

If the courts wouldn't satisfy the University, then their next move could be to exert a little influence on legislators in an attempt to modernize the housing code. May-be improved ventilation should be taken into account. Maybe a law should address itself to the peculiarities of a university instead of ignoring them as the law presently does. Maybe humans don't need 500 cubic feet of air space (We did survive the tripling experience).

economic principles, but it also re-affirms suspicions of the University being impersonal to student needs and desires. What is frustrating is that the University seems to have made a conscious trade-off between economic realities and tripling complaints without really examining how they could be flexible and

room designed for two?

timing of Kelley's opinion — he was asked to make a decision almost two years ago — the ruling

does bring to the surface a condition the University has never

conceded as being a problem. Even

if they do term it a problem in a

semantic sense, their actions speak otherwise. The fact that

administrators plan for tripling during the fall to ensure full

dormitories in the spring tells students the University has sound

satisfy both concerns. For instance, many students find out they don't really like the freedom of off-campus living and would rather move back into a dormitory. The extremely inflexible dormitory contract makes this next to impossible. Many people students, professors, administrators - bemoan the decline of academic excellence, citing poor student/teacher ratios as one reason. It is only a start, but 1,000 students could be refused admission for the 1979-80 school year without a denial of our land-grant philosophy. And speaking of archaic, what kind of rule is it that mandates 18-year-old adults will live in a dormitory during their freshmen year? The point is: there are alternatives. But they can only be considered alternatives when the University finally concedes that, indeed, tripling is wrong.

But all the maybes and mights are totally beside the point. Tripling students in a dormitory is wrong. Should the University find itself in a court suit actually defending tripling, it will find that what little credibility administrators now enjoy would be reduced even further in the student mind. Do the economies of tripling really outweigh the potential alienation especially to those 1,000 new freshmen who will be experiencing the surprise of three bunkbeds in a Despite the tardiness and poor

YOU'RE PROBABLY WONDERING WHY I EVEN BOTHERED TO CALL YOU ALL TOGETHER...

## **Worrying about America**

Nazis make us sick.

We hate writing about them, we hate talking about them, we hate thinking about them, we hate them. What especially makes us sick at heart, however, is that in the eyes of the U.S. Constitution a document we firmly believe has the ultimate answer to all social dilemmas - we as journalists are in the same constitutional

The First Amendment, in addition to being color-blind, genderblind and age-blind, is also philosophically-blind. Nazis have as much right as the New York Times. In a historical perspective, maybe even more, since the Nazi line of logic is a definite denial of the status quo — a quality of rebellion journalists are proud to lump themselves with. It is just that the Nazis' perception of the evil inherent in the status quo is so far from our perception that it is next to impossible to draw parallels. But they do exist.

Nazis are a joke. But there is nothing funny about the 14- and 15-year-old toughs of Marquette Park wearing White Power T-shirts emblazoned with swastikas. Sure, those type of kids and the parents who produced them - have always roamed the

streets of Chicago and other big cities. Violence, for them, is a way of life — it has always been cool to beat on blacks and despise Jews. But how do they feel when one of their own verbally stands up to the imagined evil to tell the world that can't stop people from hating who they want to hate?

It is too easy for us, a couple of hundred secure miles away, to say Frank Collin is a flash in the pan that will go away when the media does. Frank Collin does not go away; he lives in Marquette Park. He is now, at this minute, going

through the motions of being mortal. But is he really? Or is he, in the eyes of socially-warped innercity youths, attaining immortal-Only time will tell. Except that

it might not just settle with telling. Time could bring shouts, demands, ultimatums — all of the worst and then some. What happens when the Ku Klux Klan realizes they have something in common with the Nazis? And then someday maybe the John Birch Society? God help us, where does

### Pot smokers are lousy role models

In your editorial of, (July 6), entitled, "Furbush settled too easily," you argue that Larrowe and Ferency should have pushed the case to the limit since ". this particular case had all the potential of being a landmark." Your basic argument rests on the premise that "... a contract should be worded so RA's could enjoy the same negligence enjoyed by the rest of us, without breaking any law." Come now, editors, if this is really the kind of landmark the State News holds in high esteem, God help us from such lofty ignorance!

A collegiate institution is expected by its public to be in a position to lead the society, to give it positive direction, to create and transmit knowledge which will help the society rise above its mediocrity, to transmit the best of the society's culture, to instill and to help develop within its students the higher order values that distinguish the educated and the educated leaders from those who are ready and willing to settle for the least acceptable. What your editorial argues for is hardly in

consort with these expectations. What your editorial argues for and what Furbush and his supporters imply by their actions and their specious arguments is a level of behavior and performance on the part of an employee of this institution that is hardly worthy of emulation. More importantly, the more subtle but abundant ly clear message to resident students and to others is that if the majority of us do it, it

is perfectly OK.

The posturing of the State News. Furbush, Ferency, and Larrowe on this issue during the past month has certainly resulted in a loss of staff moral among the ntire staff of the Residence Halls Program Office. And, with due respect to a great President Dr. Edwar Harden, although vell-intentioned, his \$200 grant may ha assuaged Furbush but it was nothing but salt in the open wounds of the residence

halls staff members who are vainly attempt ing to achieve some of the nobel educational goals of this collegiate institution.

In the midst of a national renewal of interest in values development and values education in higher education, and where appropriate peer and adult role models are desperately needed, the State News strive

## Oliphant garbled **Turkish society**

The cartoon on Monday's (July 10) "Opinion" page, depicting Turkey as a human rights violator and greedy arms purchaser not only reflected State News' usual editorial ignorance but also was Anyone who has a minimal understand

ing about the regimes of different countries and their current governmental policies would recognize that Turkey as a democratic country with no known human rights violations can not be presented in the same light as a non-democratic country where such violations might be common practice.

Besides, Turkey's legitimate and modest expectations for military cooperation as a full-fledged NATO ally do not bear any relationship to unreasonable and wasteful arms purchases of certain countries.

Furthermore misrepresentation of Turkey in terms of such tasteless and archaic looking figure is both offensive and illconceived. For the State News' information, contemporary republican Turkey does not have much in common even with the Ottoman Empire of more than half a century ago.

## **VIEWPOINT: FEMINISM**

## Equality is women defining woman

By ANNE FERYOK

I have never felt that I set my standards too high for a college publication such as the State News; if anything, my standards have been lowered to take into account the possibility that these would be journalists are "learning by doing." But sometimes I wonder how much learning has been done

by both writers and editors. by both writers and editors.

The article entitled 'Rights Should Be Earned', attributed to Holly Ryder, is a case in point. It is poorly written, poorly unctuated, poorly reasoned, and virtually ignorant of the issues in the women's movement that Ryder considers. It is one thing to express a knowledgable opinion; quite another to bandy about terms like "polarity," "equality," "a balance of opposites," "the premise of the individuality of contrasting factors," "qualities of social distinction," et cetera, in the guise of a knowledgable opinion.

To refute Ryder's opinions and miscon ceptions in depth and point by point would take several pages. Some, such as "Independence exists on the premise of the individuality of contrasting factors," are

**Letter Policy** 

The Opinion Page welcomes all letters and viewpoints. Readers should follow a few rules to insure that as many letters as possible appear in print.

All letters and viewpoints should be typed on 65-space lines and triple-spaced. Letters and viewpoints must be signed and include lo-cal address, student, faculty or staff standing —if eny—and phone number. No letter or viewpoint without these items will be consid-

Letters should be 25 lines or less and may be edited for State News style and concise-ness to fit as many letters as possible on a pags. Viewpoints may be no longer than 75 lines and may also be edited.

virtually incomprehensible. Others, such as the assertion that "many women in the movement for the most part, ((sic)) insisted on denouncing those qualities of social distinction that make equality possible . . ." reek of ignorance. What is social distinction? Does Ryder mean plucked eyebrows, painted faces, shaved legs, and bodies distorted into bras, girdles, and pantyhose? These less disfiguring but similarly created, enacted, and perpetuated rituals are related to the more barbarous rituals of foot-binding, genital mutilation, and gynecological and medical practices that have not only maintained the legal inequality of women, but the physical, psychical, economic and social inequality as well. Or does on denouncing those qualities of social mic and social inequality as well. Or does social distinction mean the back breaking labor women have had the "legal right" to do for no wages, low wages, and less-thanequal wages's

Exactly what does Ryder mean by asserting that these movement women have "replaced them (qualities of social distinction) with those of men?" Even a cursory awareness of the literature (arti-

poetry, art, conversations, classroom dis-cussions) generated by this most recent\_ feminist movement(not to mention those of the past) shows this to be patently false. Women in the feminist movement do not need or desire the "social distinction" of men. (Which is to say, those qualities that allow men to mutilate, terrorize, and oppress women and other "inferiors" such is blacks, third and fourth world nations.)
Feminism is a celebration of differences, of individuality; it is the reclaiming of women defining what women are. Feminism asserts that women have never had the chance to be individual, independent, and different in recorded history — because women have always been defined by men.

Women who denounce their male-created sexuality become independent — for sexuality, like feminity and women, has been defined by men. This is the connection between feminism and lesbianism; it is a positive experience. It is women who continue to be defined by male sexuality who are joined - quite literally - to their

oppressors. Furthermore, equality exists not only on

an intellectual level, but on economic, social, physical and psychical levels as well. (To state otherwise is to remove the basis for theories such as Marxism.) As far as inherent differences go, we do not even know what is inherent — and everything (as far as I can make out) in Ryder's article is not inherent. "Women who wear the armour of masculinity" are women who are feminine in every sense of that word as it is defined by man. If, however, Ryder means defined by man. If, however, Ryder means by that phrase, women who do not look and act in accordance with those feminine natural or one would not be able to do it.

Self-actualization (for women and for men) can not begin in earnest until women are equal in the sense that men are equal: free to define ourselves as we wish, as we are. Only then will women earn their rights Anything less than self-definition and selfdetermination is a grant from the oppressor, an attempt to buy us out, anot token victory. And let us not forget that what is earned can indeed be taken away. Feryok is a Senior in the College of Arts and. Letters honors program.

## That uncertain urge

By RENALDO MIGALDI

Ningh Frank wake up

"Ningh, min."
"Ningh, min."
She rolled over, "Frank, what time is it?"
"Min. I dunno. God, my head's booming,"
"Frank. I hope you don't take this the wrong way, but I'm feeling a little strange."
"Huh?"

." Denise got out of bed and ran out into her kitchen. I stretched, opened my eyes in the streaming in of morning window sunlight. I heard her yell: "Omigod, it's almost 10:30! I'm gonna get fired for sure!" She rushed back into the

"I didn't know you worked on Sunday." I said

Well, if you hadn't gotten so drunk last might you would veremembered my telling you." she said acidly.
"Hey, Dense, don't get so heated up, hey." I reached for her to hug her. —She twisted away. "Come on, Frank, it's late."
She pulled back the covers. "I gotta get to work."
"Hey."

She went into the bathroom and started running water. I got out of bed and put on my pants, shuffled into the front room. Denise's housemate, Donna, was sitting in a big easy chair with her head tilted back and a glass of orange juice in her hand. The room looked like a disaster, littered with empty beer bottles, and organette butts on the furniture. She looked at me, smiling.

Hi. What time did everybody finally leave

Hi. What time did everybody finally leave."
She chuckled, laid her head back. "Hell, I have no idea in the world. I went to bed early and told everyone to just turn off the lights when the last person left. I think that was about 3:30."
Denise is bummed. I guess she's late for work."
Oh, that's not it."

Come on, you know her at least well enough to know she'd

never get that upset about being a half hour late, don't you?"

Him. I guess you're right."

You know what it is? It's you. It's not you, it's herself. She keeps putting herself in situations she can't deal with. To her ire a friend, but when she gets a little drunk, she forgets

course a irrema, vs., hose distinctions."

Now look, Donna, maybe those distinctions aren't all that important.

Of course they are" she said, seemingly incredulous that I

on course they are sire said, seamingly increations that result believe any different.

"What!" I've been trying for years to understand all these hangups women seem to have about who they sleep with ... but

the hell with you anyway, it's between me and Denise."
Yeah. Donna grinned and threw a newspaper in my face. I laughed. The water in the bathroom was still running. Donna leaned forward and lowered her voice: "Frank, it might be good." for you to leave before she's out of there."

I thought for a moment. "You think so, really." She nodded.
I sighed. "Yeah, all right."
I went back into the bedroom, put on my shoes and threw my

shirt over my shoulders, and headed back into the front room. "Donna, make sure and tell her I'll call her tonight, all right?"
"Sure, don't worry," Donna said, I liked her, she was OK, I went to the door, opened it, "G'bye," I said.

"Bye Frank

I stepped out, squinting in the morning sun

By JOHN NEILSON

State News Reviewer Mention "political" music to most rock fans and they think almost immediately of the '60s

- Dylan, Jefferson Airplane, CSNY, peace, civil rights Black Power, alternative culture, and o on. Old songs for old causes. they'll tell you; another music for another time.

But what about the [708? The

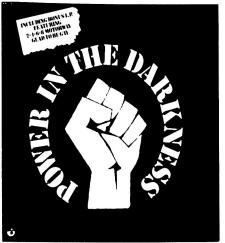

fact that we are no longer at war has not eliminated hatred and distrust. The fact that exil rights are guaranteed under the law has not eliminated the law has not eliminated racism and prejudice. Our society is frustrated, alienated, and afraid, and it has become conservative to the point that even fascism seems chic. Yet our most popular songwriters are trying to anaesthetize us with discourt convince us that we are disco or convince us that we are nothing but "Dust in the Wind."

nothing but 'Dust in the Wind.
Enter Tom Robinson. In the
past year and a half, the Tom
Robinson. Band has made a
name for itself in its native
England as an overtly positical
band. Their first impact was
felt in gay circles when Robin
on annuared he was hemo tett in gay circles when Robin son announced he was homo-sexual and proceeded to back it up with anthems such as "Glad to be Gay." A top of the chart hit with "2.468 Motorway" at the same time helped them to claim a national following.

With the American release the TRR's first album. Power in the Darkness (Harvest, STB 11778), audiences in this country finally have a chance to judge Tom Robinson & Co. for themselves. And judge they must, because the TRB is not a band one can listen to without committing oneself for or against Robinson's political

A few points should be made clear from the start, though. First off, Tom Robinson is not a Punk. His background is mid dle-class, his music is 70s hard rock, and he definitely wants to be a star if he can do it by singing about what he feels is important. Also, Robinson is not a speaker for any formal political faction, nor is he just some radical rhetorician.

CELEBRATE BASTILLE DAY **JULY 14** 

"Politics isn't party broad casts and general elections", he points out in the liner notes, "it's yer kid sister who can't get an abortion, yer best mate getting Paki bashed isimilar to queer-bashing but aimed at England's Pakistani minority),

or sent down for possessing on oint of marijuana . . . it everyday life for rock fans . . . The TRB has encapsulated this vision of the way things are in almost every song that they've put out, most of which are included in their new al-bum. (A second disc containing both sides of the "Motorway" single, the four songs from their Rising Free LP, and one other song has been included

with the American release of the album, neatly showcasing the TRB's output so far.) Any serious review of this album must eventually deal with two cupytions where are

with two questions whose an swers will ultimately make or break the band in this country. The first of these is whether the pointed and controversial lyries detract from the rock 'n roll, or, to put it differently, whether the music on Power in the Darkness is merely a vehi cle for Robinson's political har

angues.

For the most part, the answer is No, but I do have some reservations, mostly concerning the early material on the second disc. "Martin," for example, is hopelessly cloying, and "Right on Sister" is a bit hard to stomach. Also, "Glad to be Gay" is marred by its sing songy chorus, which may work in concert but sounds simple minded on vinyl.

Robinson's songs are most

Robinson's songs are most effective when they follow the effective when they follow the example set be Elvis Costello, who always married his sexual politics to classic rock 'n roll tunes. Tunes like "Don't Take No for an Answer," "I'm Allright, Jack," "Up Against the Wall" and the title track prove that the TIRB is a great rock. that the TRB is a great rock band that just happens to play

political songs.

Even more important to this album's success is the question of whether Robinson's lyrics will mean much to listeners on this side of the Atlantic. Concepts like Whitehall, the Front. Notting Hill Gate, and even the feeling of desperation that pervades many of the songs will probably be totally foreign to

the average, middle-class, American Joe who follows 'Happy Days' religiously and is more than happy with his Styx collection. He'll write off the band as a bunch of paranoids, despite the fact that Nazis are marching across the front page

of his local paper.

Perhaps Tom Robinson could improve his chances here by dealing with universals rather than specifics, a la Dylan. On the other hand, this might compromise his vision, which is the last thing he seems likely to

do.
"We want rebel music, street "We want rebel music, street music," the album cover pro-claims. "Music that breaks down people's fear of one another. Crisis music. Now music. Music that knows who the real enemy is . . . to stand aside is to take sides. If music can ease even a tiny fraction of the prejudice and intolerance in this world, then it's worth

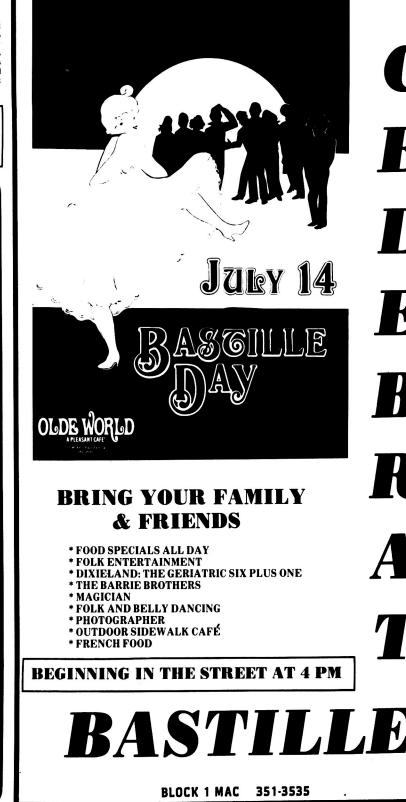

## Morris the cat dies

CHICAGO (AP) -- Morris, the orange-colored alley cat who

CHICAGO (AP) — Morris, the orange-colored alley cat who became known in the trade as the Clark Gable of cat food television commercials, is dead at the age of 17.

The tomcat was found by pet handler Bob Martwick in 1966 in a Chicago humane shelter. Martwick was looking for a cat to be trained to star in 9-Lives cat food commercials.

"Morris had been picked up by humane officers in a Chicago alley. He had been in a fight and was disturbing the peace," said Pamela Talbot, spokesperson for Star-Kist Foods Inc. "No one claimed him, and no one seemed to want him because he was scarred up. One ear had been bitten and was a little ragged and there was a cut on the inside of one eye. But all this gave him his there was a cut on the inside of one eye. But all this gave him his interesting expression, a certain jauntiness. It made him the Clark Gable of cats."

# British Open and St. Andrews: they always fit together perfectly

One day a number of years ago, in 1946 to be more precise, Sam Snead was riding a train from London to St. Andrews, a rustic little Scottish town bordered by the unpredictable expanse of the North Sea. Snead was enjoying the trip, noting names, until inexplicably he found himself passing some acreage that was so ragged and beat-up that no self-respecting Virginian would ever consider planting even cow beets on it. He was even more surprised to note Scottish town bordered by the unpredictable expanse of the North

music

planting even cow beets on it. He was even more surprised to note that there was what appeared to be a fairway amongst the weeds. "Say," said Snead (who was on his way to play in the British Open) to a gentleman sitting across the aisle. "That looks like an old, abandoned golf course. What did they call it?"

The gentleman, who as it later turned out was the Duke of Something-Or-Other, was indignant. "My good sir!" he replied. "That is the Royal and Ancient Club of St. Andrews, founded in 1754 April the set sew. processor will be abandoned!"

"I hat is the Royal and Ancient Club of S. Andrews, bounded in 154. And it is not now, nor ever will be, abandoned!"

Aye, that would seem to be the case. In an area of the world that has withstood foreign invasions, plagues, famine, drought and three Parlimentary bans on golf (during the 15th century), the links of St. Andrews survive. Bobby Jones once said that of all the

Weiskopf loses his

early lead to Aoki

By MORLEY MYERS
UPI Sports Writer
ST. ANDREWS, Scotland (UPI) — Tom Weiskopf, heading

for a tournament record, lost his concentration over the last

four holes Thursday and surrendered the early first round lead of the \$225,000 British Open Golf Championship to unheralded

The 35-year-old Weiskopf, who won the event in 1973, covered the 6,933-yard St. Andrews Old Course in a three-under-par 69 after threatening to break the championship

round record of 65, set by fellow American Mark Hayes last

year.

With 54 of the 155 player field back in the Victorian club house, Aoki held the early lead with a 68, one stroke ahead of Weiskopf, Ray Floyd, Australian Jack Newton and Seve Ballesteros of Spain.

Weiskopf was left to reflect on his possible shot at the record after posting five birdies in an outward 31 and picking up

another stroke at the 10th to go six duced. The 6-60th 3-inch American from Columbus, Ohio, covered the next four holes at par before collecting his first bogey with a 5 at the 413-yard 14th hole when he landed on a divot with his eight-iron and then chipped 25 feet past the flag.

But it was at the 461-yard 17th where Weiskopf really suffered with a double-bogey six — all because of a lapse in concentration.

another stroke at the 10th to go six under.

courses he had ever played, he respected St. Andrews the most. The British Open, undoubtedly the most prestigious golf tournament outside the United States, is being held there this week There's something about St. Andrews and the British Open that

seems to perfectly fit together, and I suspect that it has a lot to do with the Scottish attitude toward golf. Compare it on a championship level with golf in the United States. All of the great and famous courses in this country, Augusta, Merian, Pebble Beech, Oakmont, Winged Foot and so on, require either membership or sponsorship by a member before you can play on them. Augusta, where the Masters is played, is particularly known for this attitude - hell hath no wrath as that directed toward the

for this attitude — hell hath no wrath as that directed toward the uninvited who dares to take a divot from its consecrated fairways. With due regard to Snead's distinguished acquaintance on the train, St. Andrews is different. The links are open to anyone who wants to play, with the stipulation that ladylike and gentlemanly behavior be observed at all times. It is not surprising, during a walk across the four courses that make up St. Andrews, to come across a retired captain of the Cunard Line, school children, elderly matrons out "for a bit of sport" and a young lord or two who matriculate at the local university. Entire families can be seen on many of the tees. the local university. Efficiency the faith in such Scottish traditions as close-tied communities and parent-children relationships.

close-tied communities and parent-cinioren relationsings.

The British Open itself started off conspicuously as a family affair. The first tournament, held in 1860 on Scotland's Prestwick Course, was won by Willie Park Sr., who played three 12-hole rounds in 174, defeating Tom Morris Sr, by two shots. Morris went on to win it four out of the next seven years and then his son. Tom Morris Jr., won it four years in a row. During the same span, Morris Sr., just to make sure that the heir to the line kept his respect for his elders, came in a close second twice.

During the 20th century, the British Open has been less linea with its results, but can boast, subtly of course, as grand a list of champions as any golf tournament in the world.

St. Andrews is typical of many Scottish courses - it is 6.933 yards of narrow fairways and thick, moorish roughs. It also has some of the largest greens in the world. Each serves two holes, and the one for the 4th and the 14th covers almost an entire acre. Porky Oliver once found himself faced with a 160-foot putt. So the story once from himsen face with a too-not putt, so the sorry goes, he lagged up to about 40 feet and then got down from there in four. It was most discouraging.

The wind coming off the North Sea is also a factor to be contended

with at St. Andrews. It is not unusual to see a pro choose a seven-iron for a 200 yard approach shot or a three-wood for a 150 yard carry to the pin, depending on which direction he is facing. And the direction of the gale has been known to change while a ball

And the direction of the gale has been known to change while a ball is in mid-flight, a most disturbing circumstance for one who ends up under or over-clubhed by about forty yards.

But it must be argued that the British Open, in general, and St. Andrews, in particular, always seem to bring out the best in golfers. Whether it's the tradition of playing in a land which has roots in the very beginnings of golf or whether it's just an odd fascination with the tournament itself, the British Open attracts the best players and sports journalists every year. Don't make the mistake that it's just the money, either. This year's winner will receive \$22,500 — considerably less than the winners of the Masters, U.S. Open and P.G.A. receive. As a matter of fact, there were no less than 34 tournaments in the United States last year that paid more to the winner than the British Open. paid more to the winner than the British Open.

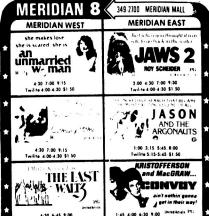

Snead, who won the tournament in 1946, the same year he insulted the Duke, only got paid \$600 for the victory. He had accumulated travel expenses of over \$1,000. Upon holing out his final put, amidst cheers and whistles from the appreciative Scottish

gallery, he was greeted warmly by his caddy.
"Please let me ave th' ball, mann?" said the wrinkled fellow in his brogue. "Mann, 'll treasure it forever."

Snead gave him the ball, only to learn that he sold it an hour or two afterwards for 50 quid. "So," said Sam 16 years later, "he made more off the Open than I did."

## Ross looks toward NHL

By JERRY BRAUDE

State News Sports Writer Ever since All-American Tom Ross left the MSU hockey scene after the 1975-76 season. Spartan fans haven't had much cheer about in Munn Ice

The only thing that keeps the fans in good spirits is recalling the memories of the glorious years when Ross, Steve Colp, John Sturges and Daryl Rice were rewriting the Spartan record book with their potent offensive abilities. Ross led the nation in scoring

in 1974-75 and 1975-76 and took All-American and Western Col-legiate Hockey Association (WCHA) first team honors dur ing both seasons.

While the hockey team has

been displaying its own version of the "Ice Follies" the past couple of years, Ross has been

leagues in hope of making it to the National Hockey League.

After taking most valuable player honors last year for the Detroit

Kalamazoo Wings, Detroi Redwing's affiliate in the Inter national Hockey League, Red Wing General Manager Ted Lindsay is giving Ross a tryout this fall.

Ross hopes to get a contract to move up to Kansas City, part of the Red Wing's farm system. A contract from Kansas City will bring him more security. With an IHL contract, a player only gets paid when he is on the team. But with a Kansas City contract, if the team disposes of him, they are still obligated to pay him for the remainder of the contract.

"Right now, it's like a wait and see type deal," Ross said. "If I don't play well at training camp, then I won't get a

When I came out of MSU, I decided to give it a two-year attempt to make it there (the NHL)," Ross said. "I missed the last half of my first year when I hurt my knee, and I didn't start playing last year until Christ-mas. So, I've played a year so far when you combine the two."

When Ross left the Spartans, he was drafted by the St. Louis Blues and was sent to their Port Huron affiliate where he tore ligaments in his knee. His contract was then traded to the Detroit Red Wings at the close of the season, who then sent him to Kalamazoo.

Ross finds himself playing more in the IHL than in college, and he feels the players are

"There are only three lines

and five defensemen, and so you're always out there con-stantly skating," Ross said.

"The players are bigger and

"I have been on a weight make me stronger," Ross said. "I go up to Minnesota once in

a while to visit Tim McDonald and Mark DeCenzo," Ross said. "I get along really well with Amo (Bessone, MSU's hockey coach). It certainly didn't hurt playing under him."

If Ross doesn't make it to the

NHL, he would like to get into coaching. This summer, he is completing his bachelors degree in Health Education with a

minor in coaching.

"I enjoyed the schooling at MSU," Ross said. "It gave me something else to do besides hockey. At Kalamazoo, we would skate in the morning. and then I would have the rest of the afternoon with nothing to

"I know a lot of people in Kalamazoo, including my sister-in-law, which fortunately gave me something to do."

me something to do."
Ross walked into the
Jenison weight room to get in
shape for training camp this
fall continuing his endeavor to impress upon someone in the NHL that he has enough talent

Civil rights commission against voucher plan

Rights Commission has taken a stand against the so-called "voucher" proposal for school finance reform that would permit state funding of private and religious schools.

"After studying the pros and cons for the voucher system, I feel we must oppose it if we are to remain constant in our commitment, indeed our mandate, to eliminate discrimination in education," Commission chairperson Gilberto G. Ibarra said Wednes-

day.

The commission accepted a position paper drafted by its own staff that criticized the voucher proposal on several points.

"The commission supports tax reform but

we do not believe that it should be combined on the ballot with the voucher system for financing education," Ibarra said. "These are separate issues, and the public should have the opportunity to respond to each.

the opportunity to respond to each.

Voucher education proponents filed petitions Monday to place the proposed amendment to the state constitution on the November ballot. It must be certified by the Board of State Canvassers before it can go on

the ballot.

It would drop local property taxes for school support and raise educational funds

through an increase in the statewide income Parents would receive a voucher from the state, which would be redeemable at the

school of their choice - public, private or parochial.

Backers said the freedom to select schools

and funding reform are the major points of the voucher proposal, but opponents — including most school officials — equate it with parochiaid. The civil rights commission study said it is

likely the voucher proposal would be de-clared unconstitutional if voters approved it and if it were subjected to a court test.

"The religiously-oriented and private schools would clearly derive the quickest and clearest benefit from the adoption of the proposition," the report said.

It also said that the voucher system could have an adverse effect on the rights of minorities and on enforcement of antidiscrim-

programs in this tax reform issue," Ibarra said.

"We must be careful to preserve the rights of the protected groups the commission mandated to serve.

Couple gives up jobs for cabin

LUTSEN, Minn. (AP) Jo Bronk Both had worked more than and Loretta Williamson had 20 years, and they found them-quite respectable jobs with selves getting restless, wondermajor firms in Rochester, N.Y., but they gave it all up for a little gas station grocery store.

Nature Center.

senior, said, "It was really exciting to have all those people in one place working for the same thing — anywhere you walked in the city people wore ERA buttons.

Nine area members rented a van while several members now living in Detroit traveled to Washington separately, Marron explained. An ASMSU allocation to the group, along with A NOW member living in Maryland provided weekend lodging for the students. Saturday, some of the students attended a

money from a fund-raising dinner covered all

Washington NOW chapter meeting, at which the embers discussed plans for the march, Marron The march started at noon Sunday at 14th and

Independence streets, turning on to Pennsylvania Avenue and heading toward the nation's Capitol Building.

The first marchers to complete the 1.7 mile

route began with a rally at the west side of the Capitol at approximately 2 p.m.

'The Politics of Women's Liberation," and actresses Jean Stapleton and Marlowe Thomas.

Marron said about 200 anti-ERA supporters

also held a prayer-chant against ERA near the march site.

Monday was spent lobbying, Marron said. The students talked mainly to legislative aids, she said, since some legislators were still on vacation while others were in a House of Representa-

"We want to keep working on people until they are willing to say where they stand or if they're leaning negatively. We talked to everyone from Michigan several times," said Marron.
