Thousands visit pope's grave in crypt

VATICAN CITY, Aug. 13—Thousands of pilgrims flocked to the crypt beneath St. Peter's Basilica Sunday, pouring into the dimly lit space that marks the final resting place of their spiritual leader. The crypt, where the bodies of 14 popes are entombed, is a popular pilgrimage destination for Roman Catholics worldwide.

In the crypt, visitors can see the tombs of past popes, including St. Peter himself, whose bones were brought here in 1294. The crypt is also home to the remains of John Paul II, who was canonized as a saint on May 1.

The crypt is a somber and intimate space, with the tombs of the popes arranged in a semicircle. Visitors can kneel or sit in front of the tombs to pay their respects or pray.

In recent years, the crypt has become a symbol of the church's response to sexual abuse in the clergy. In 2018, the Vatican released a report on the issue, which found that 378 cases had been reported since 2013. Pope Francis has called for greater transparency and accountability to prevent further abuse.

Meanwhile, in the nearby Vatican gardens, hundreds of people stood in line to send messages of support and gratitude to the pontiff. The garden was filled with flowers, banners, and candles, creating a peaceful and reverent atmosphere.

The day before Sunday, Pope Francis had released a special message ahead of the 52nd World Day of Peace, which takes place on Aug. 21. The pope's message focused on the importance of peace and dialogue in resolving conflicts around the world.

The day also marked the third anniversary of the death of Pope John Paul II, who was canonized as a saint in April 2014.

Cheerleaders perform here for championship

By James Manally, State News Staff Writer

Mostly classical than high school cheerleaders accustomed at Lansing Mall Thursday and Friday for a series of events. The event was to promote the United States Baha'i Conference National Championships being held this weekend. The two schools performed cheers, and the group entertained the audience throughout the event. The schools that were USC, UMS, and the UMKC, and also included cheerleading groups, and staff from the USC, and the UMKC.

The USC staff members, including JHHS, and bands from USC, UMS, and UMKC, and also included cheerleading groups, and staff from the USC, and the UMKC.

New ballot proposal made for mall issue

By Paula Dikey, State News Staff Writer

Stages Management, Inc., has submitted a proposal for a balloting issue to the Lansing Mall. The proposal would allow the mall to hold a public vote on whether to make necessary improvements to the mall.

The Lansing Mall is currently in need of several improvements, including the installation of new windows, the replacement of the roof, and the addition of new stores. The proposal would allow the mall to raise the necessary funds to make these improvements.

The proposal would also allow the mall to address ongoing issues, such as the installation of new security systems and the improvement of existing facilities. The mall has been in operation for several years and has undergone several renovations, but there is a need for additional improvements.

If the proposal is approved, it could lead to significant improvements for the mall, including the installation of new stores and the enhancement of existing facilities. The mall has a history of providing quality retail experiences for its customers, and this proposal could help to ensure its continued success.

Slightly overweight better than trauma of diet, therapist says

By Sophia Thrapsoger

A psychological therapy, dieting, and dieting, which is more harmful to your physical and psychological health than trying to lose weight.

There is no evidence that it is dangerous to your health to be up to 15 pounds overweight, said Dr. Williams, who has been treating dieting cases for over 10 years. There is a very small chance that you could die from dieting, said Dr. Williams. Only 1-2 people in 100,000 die from dieting each year.

"If you have a history of the condition, you should be aware of the risks," said Dr. Williams. "The risks include death, severe dehydration, and heart failure." Dr. Williams added that many people who have a history of dieting are not aware of the risks.

Before going on a diet, the benefits should be evaluated. To begin, ask yourself, "Is this food going to be available for my body to burn?"

"If you don't, you may not be able to eat properly," said Dr. Williams.

"It's better to eat food that is in your body, at a time when your body is at a healthy weight," said Dr. Williams.

Funds OK'd for construction of bike path

Funds for at least one of the proposed bicycle paths to be constructed in Midland County have been approved by the Michigan Department of Transportation and the Federal Highway Administration. The legislature's Public Works Committee voted to fund the project.

The proposed bicycle path, which will be constructed on the north side of the Midland County Courthouse, will be approximately 5.7 miles long. The path will be constructed on the same right-of-way as the current bicycle path and will be constructed in three phases.

The project is part of the Midland County Comprehensive Plan, which was adopted in 1998. The plan calls for the development of a comprehensive transportation plan for the county.

The project will be funded through a combination of local and state funds. The local funds will be provided by the Midland County Board of Commissioners and the state funds will be provided by the Michigan Department of Transportation.

The proposed bicycle path will be a multi-use path, allowing for both cyclists and pedestrians. The path will be constructed with a permeable surface to allow for better infiltration of stormwater.

The project is expected to be completed in 2024. The first phase of the project, which includes the construction of the path on the north side of the Midland County Courthouse, is expected to be completed in the fall of 2022.

Castro dupes the world’s youth

It was almost enough to make a continent-wide swoon with joy. Nearly 20,000 young people from 120 countries embraced the sun-drenched beaches and other sites of political delights in Havana, Cuba. The purpose of the meeting was to discuss issues related to solidarity, human rights, and political democracy. The conference was organized by the Cuban government and supported by several international organizations.

Dimes must be refunded

Coca Cola, like any caffeine product, is mildly addictive. And as any hard drug user will tell you, addiction has a funny way of breaking the laws of supply and demand. More than the number of those who drink Coca Cola in the world has exploded in the past few years, and the capitalization of the nation has a reputation on the world.

China, not surprisingly, seems to be the chief source of addiction to any of the world’s major narcotics. The trend is also setting the world’s drug use for the very first time. It is true that the Chinese actually don’t seem to be the source of this addiction, whether it is crack in red, white and blue, or whatever. And it can be no doubt that they are indeed making money in a business that is nothing less than imperialistic. And if the CIA and its hired mercenaries are the attack force for Western Imperialism, then Cuba, the modern-day Cuba of today, is as great a test of democracy as ever.

Racist mentalities must be fought

by JOSEPH FOSTERKING

The spirit of solidarity throughout the world has brought about a new era in the history of Latin American countries. The mass media, and particularly television, have become conduits for the dissemination of ideas and information. The historical context of these events is the beginning of a new age in Latin America, a time of change and transformation.

The most recent of these changes is the loosening of the grip of traditional political and economic power. The growth of popular movements, the rise of new political parties, and the increasing participation of women in political life are just a few examples of the changes that have been taking place. These changes are the result of a combination of factors, including the growing economic and social problems in Latin America, the spread of new ideas and ideologies, and the increased awareness and empowerment of people.

The formation of new political parties and movements is a reflection of the desire for change and a desire for a more just and equitable society. The growth of these movements is the result of the efforts of people who are tired of the old system and want to see a better future for themselves and their children.

VIEWPOINT: BOLIVIA

Exploitation will continue

by WALTER BRUNSON

The exploitation of Bolivia’s natural resources has been a constant feature of its economic history. The country’s wealth has been exploited by foreign companies, and the profits have been used to finance wars and other forms of political violence. The government of Bolivia has been complicit in this exploitation, and has failed to protect the interests of the Bolivian people.

Larowe tanning contest now history

BY JAMES D. SCANNELL
State News Staff Writer

Crowds of a thousand people were treated to the first annual Larowe Open Barbecue on Monday evening. The Larowe barbecue, sponsored by Larowe, is the first of its kind in the Lansing area. A large amount of money was raised for the benefit of the Larowe Club. The event was held at the Larowe Club on Southbridge Road. A portion of the money was to be used to purchase a new truck for the club. The event was held at the Larowe Club on Southbridge Road. To coaches resign because of turmoil

Hawkeyes look for offensive punch

By MIKE KLOCKE
State News Sports Writer

Robert Commings is the Big Ten's eternal optimist. Every year he expects the "other" teams to come closer to Michigan and Ohio State, and every year he expects his Hawkeyes to improve.

And there is general agreement that Iowa will be a force to be reckoned with in the Big Ten this fall.

As always, Iowa has a very tough defense, led by All-American candidate Tom Rusk at linebacker. Iowa has to improve on offense, Commings admits, if it is going to win.

"We're very, very strong with tight end Jim Swift and with wide receivers Mike Brady and Brad Reid returning."

But Commings will have to replace three of his interior linemen.

On defense, eight starters return, including all of the defensive line.

Iowa's defense should be very strong against the run but somewhat suspect against the pass.

"But it's not very, very strong with the receiving corps," Commings said.

"We have many more battles to go in the receiving corps. I think we'll be a lot stronger with offensive lines in the fall."

The Hawkeyes have a veteran center and tackles.

But Commings will not be able to get his players out of their locker room to practice.

"But there's no way that the players could engage in any type of competitive practice." Commings said.

The rest of the offensive line has plenty of depth and talent, Commings said, with power running back Larry Jerome and tight end Jeff Mushack in the backfield.

"I think we're definitely a contender," Commings said. "Strong enough, yes. Deep enough, no. We're going to be a darn good football team."

The Hawkeyes will play with tight end Jim Swift and wide receivers Mike Brady and Brad Reid.

"But it's not very, very strong with the receiving corps," Commings said.

Snail to perform at Dooley's

Snail, a band from Santa Cruz, Calif., that has been together for 10 years, will bring their blend of rock, funk and blues to Dooley's on Thursday.

The band consists of Bob O'Brien and Ken Arkin on guitars, vocals and drums, and Jim Noonan on bass and vocals.

The group is known for their energetic performances, featuring a variety of musical styles.

The band had their start in a Cream-style trio, and they have been together for 10 years. At the end of the year, the band will break up to pursue other projects.

In addition to their own musical projects, they have also performed with other notable artists such as Grateful Dead and Neil Young.

The band's sound is a unique blend of rock and blues that has gained them a loyal following over the years.

Dooley's customers can expect an exciting and dynamic performance from the band on Thursday.

For more information on Snail and their upcoming shows, check out their official website: [snailband.com](http://snailband.com)

**Women a problem for Dems?**

By (Chris Parks)

LANSING — Following the lead of last year's gubernatorial candidates, this year's Democratic candidates are divided over what to do with women in their primaries.

Democratic women's groups have lined up to back women, but some party officials in the West, such as Mayor Pat Dark of Lansing, are against it.

"We don't need to get too excited about this," Dark said. "We have enough problems as it is."

Electoral politics is a man's game, and women must adjust to the world of male-dominated politics, said Dark. "It's not fair, but it's the way it is."

"Women can be very effective in the Democratic Primary," said a spokesman for the Democratic State Central Committee. "We need to support them."

"I think we need to support women, but we also need to support men," said Dark. "We can't have two separate systems."

"We need to support women, but we also need to support men," said Dark. "We can't have two separate systems."

"I think women can be very effective in the Democratic Primary," said a spokesman for the Democratic State Central Committee. "We need to support them."

"It's not fair, but it's the way it is," said Dark. "We need to support both men and women."
