Drinking age hike defeat looks 'bleak'

By MIchael Winter
State News Staff Writer

EIGHTH NOTE: This is the first in a series of weekly reviews concerning Proposal D, the law that would raise the legal drinking age to 21. This week, the focus is on the opposition to the proposed hike in the legal drinking age.

"Many feel that emotionally motivated arguments, in this case, are being used to divert the public's attention from the true issues involved," said Pat Hart, director of the Committee Against Proposal D.

"The Committee Against Proposal D believes that an increase in the drinking age will not make society any safer and that the proposed legislation is not a solution to the alcohol problem," said Hart.

BRETONS, Calif. — Flawed and potentially dangerous barroom antics were the order of the day as the Symbionese Liberation Army, through a legal representative, requested a hearing to quash their challenge to a federal毙ishment order. The court had previously granted the Symbionese demand.

"We believe that the Symbionese Liberation Army's request for a hearing is a desperate attempt to avoid a fair trial," said a spokesperson for the federal government.

"The Symbionese claim that they were not properly represented in their original hearing. However, the court has ruled that they were properly represented. Therefore, we believe that the Symbionese's request for a hearing is merely a delaying tactic."
FIVE AND ONE-HALF TONS CONFISSCATIC N State police intercept marijuana

Taylor abandons swim; new plans in progress

The Michigan Post October 4, 1972

A ST Police officers arrested two men in their early 30s and one man in his late 20s and seized 5.5 pounds of marijuana on the 1500 block of Lapeer near Olympia Center.

The men were arrested on charges of possession and distribution of a controlled substance. The marijuana was found in the suspects' vehicle and a search warrant was obtained.

A senior police officer stated that the arrest was made after a lengthy investigation by the Michigan State Police.

The men were identified as John Smith, age 30, and Joseph Johnson, age 28, both residents of Detroit. The third suspect, David White, age 25, also of Detroit, was arrested for possession of a controlled substance.

Smith and Johnson were charged with possession of a controlled substance and conspiracy to distribute a controlled substance. White was charged with possession of a controlled substance.

The investigation continues, and additional charges may be filed.

Law enforcement agencies across the state have been stepping up their efforts to combat the illegal drug trade.

In recent weeks, several large-scale drug busts have been made, resulting in the arrest of numerous individuals.

The Michigan State Police and other law enforcement agencies continue to work closely together to ensure that those involved in the drug trade are brought to justice.

---

**Criminal Charges Filed Against Two Men**

The Michigan State Police have filed criminal charges against two men following the seizure of approximately 5.5 pounds of marijuana.

The men were arrested on charges of possession and distribution of a controlled substance. The marijuana was found in the suspects' vehicle and a search warrant was obtained.

The men were identified as John Smith, age 30, and Joseph Johnson, age 28, both residents of Detroit. The third suspect, David White, age 25, also of Detroit, was arrested for possession of a controlled substance.

Smith and Johnson were charged with possession of a controlled substance and conspiracy to distribute a controlled substance. White was charged with possession of a controlled substance.

Citizens call building 'firetrap'

URGE LANSING COUNCIL TO CONDEMN

State News Staff Writer

A group of Lansing citizens upset the Lansing City Council last week by abstained votes on two motions. The first motion would have continued the building permit for the proposed student union, and the second would have established a commission to study the project.

The building permit, which has been waiting for approval, was granted by the project.

The second motion, which would have established a commission to study the project, was defeated by a 6-3 vote. The vote was 4-1 on the first motion, with the abstentions coming from the committee chairmen.

The committee chairmen, acting as the council, voted against the project. The remaining members voted for the project.

Citizens who attended the meeting expressed their opposition to the project, saying it was too expensive and would not benefit the community.

RHA to review existing policies

On the face of it, the conditions that led to the current controversy over the Lansing student union were not new. The policies and procedures that govern the operation of the student union have been in place for several years.

But in the current debate, the policies and procedures are being examined more closely than ever before. The controversy has focused attention on the policies and procedures that govern the student union, and has raised questions about their effectiveness.

The policies and procedures that govern the student union are reviewed periodically by the student council. The council has the power to change the policies and procedures, and it has done so in the past.

But the current controversy has raised questions about the effectiveness of the policies and procedures. Some people have suggested that the policies and procedures are too rigid, and that they are in need of revision.

The student council has announced that it will review the policies and procedures over the next few weeks. The review will be conducted by a committee of student council members, who will be assisted by a consultant.

The committee will be charged with reviewing the policies and procedures, and with making recommendations for changes. The committee will report its findings to the student council, which will then make a decision about whether to change the policies and procedures.

The student council has also announced that it will hold public hearings on the policies and procedures. The hearings will be held at the student union, and will be open to the public.

Lookong around before deciding on curriculum best policy for some freshmen, "be aware of the mechanical, electrical, and computer science programs," advises the University's magazine, "The Wolverine.

In a recent article, the magazine noted that the University's curriculum is changing, and that new courses are being added to the program. The magazine recommended that freshmen consider the new courses, and that they talk to their advisors about them.

He's a 'Ladies' Man'

LADIES MAN
by Sidney Blackman

David Harrington

The third novel by 28-year-old Sidney Blackman, 'Ladies Man' is the story of a young New York theater director, written by a woman's point of view who becomes the man's lover and confidante. The novel is considered Blackman's major work, and is a vivid portrayal of a woman's perspective on a man's life.

State

Cash paints a vivid picture of the man's life, both within and outside of the theater. The novel is a masterful blend of realism and imagination, and is considered a major work of fiction.

The picture of desperation that Price paints with Laval's character is highly memorable and disturbingly real. Price has masterfully constructed a dead-end for a character who is himself a dead-end...

might have been King Al...

I am doing a hundred and one things at once, and I am doing nothing... Laval is not a happy man. The reason that I am doing all of these things is that I am not working.

The picture of desperation that Price paints with Laval's character is highly memorable and disturbingly real. Price has masterfully constructed a dead-end for a character who is himself a dead-end...

RFK assassination probed

THE ASSASSINATION OF ROBERT F. KENNEDY
By William A. Torello and Jack S. Rocker

The book is a collection of interviews with the people who were present at the assassination of Robert F. Kennedy. It includes eyewitness accounts, as well as interviews with family members and fellow politicians.

MSU EMPLOYEES CREDIT UNION

If you're employed by MSU... welcome to your credit union!

Faculty, staff, and students employed by MSU are all welcome to join and use the full range of services offered by the MSU Employees Credit Union.

Your credit union is a non-profit, full-service financial institution serving more than 27,000 members worldwide.

Once you join, you can keep your membership for life! And that's an important "fringe benefit" of working for MSU. Services you'll especially appreciate include:

• Draft Accounts (like free checking, but better)
• Instant Cash Refunding Credit Loans
• CUUSA, Your 35-year Automated Credit Union
• TV Drive-up Tellers

MSU EMPLOYEES CREDIT UNION
600 E. Crescent — on campus • Phone 353-2280 9 to 5:30 Monday thru Friday

For the first time in years, we are adding new chapters to this list. If the opportunity to establish one of these new chapters at Michigan State University interests you, contact either Randy Doell or Nicholas Benson at 351-5500 (ext. 164) or Dave Westol, Assistant Director Student Activities - Adviser to Fraternities at 355-5280.
Muppets and stars pay tribute to Bergen at funeral services

BEVERLY HILLS, Calif. (AP) — Edgar Bergen's six nephews by adoption gathered in front of the City of West Hollywood City Hall on Tuesday, as the actor's body lay in state. Bergen, who died last week, was laid to rest Tuesday as a mark of respect.

In his most recent role, Bergen, 72, played the part of a character known as "The Wizard." He was the only member of the original cast to survive the show's nine episodes.

The funeral service was held at the Masonic Temple in Los Angeles with Rabbi Richard Heston officiating. "I've always thought of him as a proud Jew and I'm honored to be able to perform this service," Heston said.

Bergen's nephews included Bob Williams, John Williams, and Richard Williams, who were Bergen's only children. They were accompanied by his wife, Dorothy, and his mother, Lucille.

"Edgar was a kind and gentle man," Bob Williams said. "He loved his family dearly and will be missed by all who knew him."

Bergen was known for his role as the Wizard in "The Wizard of Oz," a role that he played for more than 15 years. He was also known for his role as the character "Grouch," a gruff, cantankerous man who frequently appeared on "The Tonight Show." 

Bergen was born in Los Angeles and grew up in the city, where he attended Los Angeles High School. He began his career in show business as a vaudeville performer and later became a radio and television personality.

Bergen's nephews said that he had always been a devoted family man and that he loved his wife and family deeply.

Bergen's body was taken to the funeral home in Los Angeles, where he will remain until the funeral service on Saturday.
‘Interiors’ is serious Woody Allen

By BILL HOLLENDORF

State News Bureau

The director, Woody Allen, has used his past comedic efforts as a springboard of sorts for his latest film, “Interiors,” which opens in theaters nationwide this weekend. By concentrating on a selection of scenes from the life of a family, Allen has created a portrait of a family in crisis that is a direct result of the family’s own behavior.

The film’s central character is a middle-aged woman, played by Diane Keaton, who is trapped in a loveless marriage with her husband, played by Mallory Lewis. The couple’s marriage is strained due to their different expectations of the family’s role in society. Keaton’s character, however, is more concerned with her own personal growth and development, while her husband is more focused on maintaining the status quo.

Allen’s approach to the film is one of realism, with the characters’ actions and reactions being driven by their own desires and motivations. The film’s themes of love, marriage, and family are explored in a way that is both poignant and laughable, making for a unique viewing experience.

Overall, “Interiors” is a successful film that offers a thought-provoking look at the complexities of family life. Allen’s direction is masterful, and the performances of the cast are outstanding. It is a film that is sure to leave a lasting impact on its viewers.
HE ALSO LIKES THE INTERCEPTION
Stanton contains end sweeps

In the course of the game, the Spartans' interception meant the difference between a 7-0 lead and a tie game. Stanton, who was playing defense for the first time in his career, intercepted a pass that was intended for Wilson. The interception set up a Spartan touchdown.

Spartan golfers please Fossom

Fossom, a small town in Michigan, hosted the Spartan Invitational on Friday and Saturday. The event was attended by 10 teams from across the region. The Spartan golfers performed well, with several players finishing in the top 10. The event was sponsored by Fossom Golf Club.

Disco-skating new craze

The disco-skating craze has taken over the city, with even the older generation joining in. The skate rinks are packed with people of all ages, enjoying the music and the fun. This new phenomenon has brought joy to many and is expected to continue growing in popularity.

Dr. JOE SCOTT

Stately Joe Scott, head of the library sciences department, is known for his love of books. He has been a member of the library staff for over 30 years and has written several articles on the history of libraries.

FRESHERMAN DAVE BELEN IMPRESSIVE

Dave Belen, a freshman at Michigan State University, has been impressive in his first year. He was named to the Academic All-Big Ten team and has been a valuable member of the basketball team.

U's College of Urban Development offers learning option in Washington

Re: CATHY R. RATTES

 Mayo

Dear Cathy

Having received your letter, I'm not sure what I should do or say, but I appreciate the effort you've made to come to the point. It seems that your concern is with the quality of the work being done in the area of urban development. I understand your desire to ensure that the students who come to your institution receive a solid education.

The College of Urban Development at the University of Michigan is an integral part of the university's commitment to providing students with the skills and knowledge necessary to address the complex challenges facing cities today. Our students are exposed to a wide range of disciplines, including economics, sociology, and environmental science, which prepares them for careers in urban planning, community development, and related fields.

It's important to note that the College of Urban Development offers both undergraduate and graduate programs. Our undergraduate program, which includes a major in urban studies, is designed to provide students with a strong foundation in the social, economic, and environmental issues that shape urban environments.

On the graduate level, we offer concentrations in urban policy and planning, urban housing, and urban economic development. These programs are designed to prepare students for careers in public service, private sector, and non-profit organizations.

We take pride in our faculty, who are leaders in their fields and bring a wealth of experience to the classroom. Our students benefit from this expertise and the opportunity to work closely with faculty on research projects.

I hope this information helps to address your concerns. If you have any further questions or if you'd like to discuss this matter further, please don't hesitate to contact me.

Sincerely,

[Your Name]

Being dry and transparent only its alp skin behind like A gamer's thematic stand in the ground jipper. If only I could say the first word with breath. A man should send his story. But. Christ. And no time, no word. For then there is nothing for a word to be about, a word

Being Spring Time only, I have died deep Where light faded from to god and blue, and darker below. And my cheer was with a story the innocence, But rise. Rose, up and plunged into thick blackness of shadow, find the story which like firewoods. Perhaps I could then have begun it—

If only the first word can come and unstop my tongue! Then the story might grow like Truth, or a tree, and your face would bear one. If only the story could begin when Time truly began. While just in a wheel of sunlight, you were deaf and I smile back. How for what would it mean?

Perhaps I can say the first word (I know what it all means. Perhaps I can't know till I finally the doctor comes in and learns.

Robert Penn Warren

Higher drinking age

Chris Magnam, head of the Three Oaks Lab, has announced his plans to study the effects of increased drinking age and implementation of the Michigan State Highway Traffic Safety Program. Magnam and the lab have been researching the effects of increased drinking age on society, with a focus on the impact on Michigan's traffic safety. Magnam and the lab have been working on this project for a year and have gathered a significant amount of data. The research is expected to take several years to complete.

The Michigan State Highway Traffic Safety Program is a comprehensive program designed to address traffic safety issues in Michigan. The program focuses on reducing traffic-related deaths and injuries by implementing evidence-based strategies and interventions. The program is funded by the Michigan Department of Transportation and is administered by the Michigan State University Traffic Safety Research Center.
Mental health care positions are open

Anyone interested in providing mental health care as a counselor in a supportive program should apply to the University of Michigan's Behavioral Health Program. The program offers an interdisciplinary approach to training counselors, promoting mental wellness, and developing social services for people with mental health challenges. For more information, contact the Behavioral Health Program at 734-764-2334.

Ingham Board of Health

scheduled input session

The Ingham County Board of Health will hold a public input session on the proposed changes to the county's health codes. The meeting will take place at the Ingham County Government Center, 300 East Main Street, Lansing, Michigan, on the 10th floor, Room 1001. The meeting will begin at 6:00 PM and conclude at 8:00 PM. The public is encouraged to attend and provide input on the proposed changes.
