Hundreds of Millions for a Venture in Paternalism

Norris dam, near Knoxville, is to be 253 feet high and 1,800 feet long at the crest. It will impound the waters of the Clinch river and form an artificial lake.

Land to be inundated by the Norris dam project is being bought at Muscle Shoals. This includes 400 miles down river at Muscle Shoals.

TVA at Alcoa, where 30 per cent of the virgin aluminum is produced, is fundamentally changing the economic landscape of the South. So far it has spent $400 million. The dams amount to $700 million more.

As to the hardy mountaineers, mostly of Scotch-Irish stock, some 6,000 people are being moved from their ancestral acres. Some 400 miles down river at Muscle Shoals they see a new way to make a living.

Enthusiasts speak of the golden day when every Southern hamlet will be one of the show places for tourists. There will be 300 homes, electrically equipped and the model farm in the valley. or $480.12 for a farm family of four, $600.12 for a family of five.

But for the family $92 in the red. It seems quite a price to pay to be left on the one hand in the power house.

The expenditures will be coming home to roost in the consumers' bills in the valley. One TVA economist has figured that $120 will buy a television set. One survey of Grainger county shows that 75 per cent of the 2,863 workers live on farms and do not vote. The influx of city people seems to be flooding the mountains.

The local newspaper in Grainger county is reported to be saying: "The mountains have been sold."

"The people are going to write to the TVA," a mountain resident says. "This is our only chance to keep what we've got."

But TVA has hit on a method of payment that is the most hated known. It is called "pay day at Norris." It will amount to $7,780,000 for one month. The mountain people, who have been asked for their opinions, are reported to be saying, "Why don't they keep some of the money in the valley."

In the socialization program new industries are sprouting like mushrooms. They are needed to give the TVA people jobs.
