

A JOLLY LOT—British soldiers, fighting in the Balkans, ran their trenches through the site of ancient Amphipolis. Many graves were cut into and the bones of warriors who stalked over the fields of battle many centuries ago were unearthed. These Tommies are having some shuddery fun with these grim remains.

Don't cut the cuticle; cutting leaves a rough, ragged edge—makes hangnails.

To keep your cuticle smooth and firm use Cutex—makes shapely, attractive nails.

## What specialists say about cutting

Shoemaker, the famous skin specialist, says: "Some persons are so obtuse to the beauty of the delicate edge of skin at the base of the nail that they actually trim it away, leaving an ugly, red rim like the edge of an inflamed eyelid."

Over and over other specialists repeat the advice: "do not trim the cuticle." "Under no circumstances should scissors or knife touch the cuticle." Cutting is ruinous.

To meet the need for a harmless cuticle remover, the Cutex formula has been especially worked out. Cutex does away with cutting, makes it possible for you to keep a perfect cuticle and shapely nails.

### Surplus cuticle vanishes at once!

Use Cutex just once on your nails. Open the Cutex package and you will find orange stick and absorbent cotton. Wrap cotton around the end of the stick and dip it into the Cutex bottle. Then gently work the stick around the base of the nail, pushing back the Cuticle. Wipe off the dead surplus skin and rinse the hands in clear water.

Until you try it, you cannot know how successful a Cutex manicure is; you cannot realize what a great improvement even one application makes.

After using it a few times, Cutex makes even abused nails shapely and symmetrical. Even where the cuticle

has been mutilated and broken by cutting, Cutex restores the firm, smooth outline at the base of the nail; gives your nails the lovely finish that every one admires.
