

MELLOWED A HUNDRED MILLION YEARS

While ferns grew high as trees in PENNSYLVANIA

GLANCE into any petroleum trade journal and you will see that Bradford-Allegany crude oil commands the highest price of all Pennsylvania grade crudes. For Bradford-Allegany crude was formed a hundred million years ago during the Devonian Age—that wonderful age which produced so little of the world's oil compared to other geological ages—yet produced it of such superior quality!

The Sinclair Refining Company uses nothing

but Bradford-Allegany crude in the manufacture of Sinclair Moline Motor Oil. In the big, new Sinclair refinery at Wellsville, N. Y., expert refining skill does what Nature left undone. Here Moline is triple-filtered, de-waxed at as low as 60° F. below zero and its carbon-forming content reduced to the minimum.

Have the nearest Sinclair dealer change your oil to Sinclair Moline according to the Sinclair Law of Lubrication. After long, hard driving

note how this Moline stands up—how it comes out of the crankcase almost as good as it went in. Note, especially, how very little Moline has been used up—positive, visible proof that this rich Devonian oil protects the last mile as well as the first! SINCLAIR REFINING COMPANY, (INC.)

ON THE RADIO. Hear Phil Baker, Shaw & Lee, Internationally Famous Comedians, in the new Sinclair Laugh Hit "GOING PLACES". Tune in on the Sinclair Radio Program, Monday and Friday Evenings, 7:45 Eastern Standard Time—6:45 Central Standard Time, Columbia Chain.

SINCLAIR MOBILE

Pennsylvania MOTOR OIL

35¢ per quart

Made in the newest, largest single refinery using PENNSYLVANIA grade crude exclusively.

guaranteed by
