

MELLOWED A HUNDRED MILLION YEARS

While the Stegosaurus drank from PENNSYLVANIA'S springs

NATURE guards her dearest treasures jealously! Millions of years ago in the Devonian Age she covered earth with tossing seas and stored away beneath it her finest crude oil. Other oil-bearing ages came with far greater quantities of oil—but today this rich Devonian crude, pumped from the Bradford-Allegheny District in the Pennsylvania field, commands the highest price of all Pennsylvania grade crude oils!

In the big, new Sinclair refinery at Wellsville,

N. Y., expert refiners put the crowning touch to a hundred million years of Nature's filtering and mellowing. They de-wax Bradford-Allegheny crude at as low as 60° F. below zero. They minimize its carbon-forming compounds. *They have developed a Pennsylvania grade oil that flows at zero*—Sinclair Moline, the long-lasting, year-round Pennsylvania grade motor oil!

Have the nearest Sinclair dealer change your oil to Sinclair Moline according to the Sinclair

Law of Lubrication. After a period of long, hard driving note how this Moline stands up—how it comes out of the crankcase almost as good as it went in. Note, particularly, how little Moline has been used up — positive, visible proof that this rich, Devonian oil protects the last mile as well as the first!

SEND YOUR NAME and address to our nearest office with a list of the states where you intend touring and we will send you road maps and the Sinclair Law of Lubrication booklet, free. Sinclair Refining Company, (Inc.) New York, Atlanta, Chicago, Houston, Fort Worth, Kansas City.

SINCLAIR MOBILINE
