**DRAW OUT THE WHOLE CORN ROOT AND ALL—THIS EASY WAY**

CUTTING or paring a corn gives temporary relief. But it's dangerous! Even a tiny nick may cause serious infection. And paring merely trims off the "head" of a corn—leaves the rest of it, the root of it, stuck in the toe. That's why the corn soon

grows back again, worse than ever. But Blue-Jay draws out the entire corn—root and all—as though it were a tack! Gently, safely. The corn is gone for good. Easy to use—gives instant relief—try it! A box of Blue-Jay is only 25¢ at all druggists.
