"I WAS NEVER SO Embarrassed"

—A YOUNG MATRON'S STORY
"Acid Indigestion" causes gas, upset stomach, "acid breath". Now there's a way to eat what you like and alkalize right afterward.

Unnoticed You Can Now Alkalize Acid Indigestion as it Starts — Any Time

The effects of acid indigestion are annoying to you — and unpleasant to others. Why risk offending when it's so easy to alkalize and hence be safe.

The quick way to alkalize is this: Take two teaspoons of Phillips' Milk of Magnesia 30 minutes after eating and drinking. Or, when among others — take two Phillips' Tablets that come in a small flat tin you carry in purse or vest pocket. — You do it unnoticed.

Relief is almost immediate. "Gas," nausea, acid breath and other offensive symptoms leave. — That "stuffed" feeling and pains from "acid indigestion" cease to annoy. You feel great.

This is the way, we believe, more doctors use than any other when alkalizing upset stomach. Try it — see if it doesn't work more promptly and effectively than many so-called ALKALIZERS.

Get Phillips' Milk of Magnesia either in the bottle — or in the large new tins of tablets that taste like peppermint and cost only 25¢ for 30.

When you buy, make sure you ask for Phillips' — the same in either liquid or tablet form.

TO CARRY WITH YOU
Now made in tiny tablets — each equivalent to one teaspoonful of genuine Phillips' Milk of Magnesia.
