# Dont let soft coal smoke injure your complexion

For three minutes every night do this—

1. Smooth a coat of Daggett & Ramsdell's Perfect Cold Cream over your face and neck with your finger tips.
2. Leave on the Perfect Cold Cream for a minute to sink deep in your pores where the unseen dirt is lodged.
3. Now wipe off the cleansing cold cream and the dirt that clings to it with upward strokes of a soft cloth. Then smooth on a little more and leave it there to revive your skin through the night.

### Before Powdering

Smooth a very light coat of Daggett & Ramsdell's Perfect Vanishing Cream over your face before you powder. It disappears almost instantly leaving your skin velvety smooth and even in appearance. It is the perfect base for powder and rouge.

### Soot Protection

Daggett & Ramsdell's Perfect Vanishing Cream should be used, too, just before you go out-doors as it provides a splendid protection against dust, wind and soft coal soot.

Carelessness now, when the air is positively loaded with grimy soot, may get your skin into a really bad condition. Before you know it, you may find your pores soot-clogged to a harmful degree. Avoid this risk by frequent cleansings with Daggett & Ramsdell's Perfect Cold Cream.

Every time you come in from outdoors, take time to put a bit of this delightful cold cream on your skin. Then wipe it off and see how clean and fresh your skin looks again. This process takes only two or three minutes, and it affords real protection to your complexion.

Also, before you go out into the sooty air, guard your skin with a touch of Daggett & Ramsdell's Perfect Vanishing Cream. It is an excellent base for powder and rouge—and it keeps your skin safe from the bad effects of exposure. Get both these perfect creams today.
