SHARP\_Y, BUT FAIL TO HOLD. Liquidation Carries the Price Down to 675 Cents on the Reaction-Receipts of Wheat Small at All Points-Demand for Cash New York Corn Is Less Urgent-Premium on Spot

No. 2 Yellow Is Disappearing-Provisions Are Dull and Heavy-Directors Unable to secure a Working Quorum. All the action of yesterday's wheat mar-

ket was developed in the first half hour. The opening for September was weak and at a fractional concession from the close Fri-day. There were no cables on account of

the holiday in Great Britain, and on the strength of some winter wheat announcements the Logan following whooped up prices until the market reached 69%c. The

news was not of particular importance and referred to damage done to wheat in shock by wet harvest weather. There was no outside business and free selling, in which Schwartz-Dupee were conspicuous, started a decline, which carried September wheat through put price and down to 67%. After that the range was narrow and the market not specially interesting. The close was at 67% bid, just high enough to prevent priv-lleges being good. The New York market did not give so sharply as the local market,

and at one time the difference was 5c. St. Louis, too, was quite steady. There were no British quotations, but contimental markets were unchanged to higher. Paris was up 20 centimes on flour and Berlin p 1% marks on wheat. English farmers' eliveries for the week were 30,700 quarters,

deliveries for the week were 30,700 quarters, against 28,200 the previous week, with the average price advanced 1d. Argentine shipments of wheat were said to have been less than 100,000 bu. Export clearances were 115,000 bu in wheat and flour, while re-ceipts and shipments at primary points were 365,000 bu and 181,000 bu, respectively. Baltimore reported the engagement of 50,000 bu and prespects of as much more export and prospects of as much more export

Receipts of Wheat Are Small.

Receipts of Wheat Are Small. Local receipts were 75 cars, with with-drawals from store of 15,000 bu. Receipts at Duluth and Minneapolis were 93 cars, against 168 last year and 157 the year before. Last year's local receipts, as compared with 75 cars, were 723 cars, of which 618 graded contract. The cash market was not particu-larly active, although sales of 132,000 bu were reported. By sample prices ruled ½@lc lower. No. 4 red sold at 52@60e, No. 3 red at 62@ 65½c, and No. 3 hard at 64@61½c. A finneapolis dispatch said that millers there were out of the market absolutely. Receipts of corn are beginning to tell on the premiums paid for cash corn, and ship-pers will have to be active or it will disap-

spection sheet showed receipts of 400 cars and 11,000 bu by canal, against 65,000 bu in-spected out of store. The estimate for Mon-day is for 506 cars. The cash situation hat been the strongest factor in corn for some time, and the lack of demand for spot stuff time, and the lack of demand for spot stuff tells quickly on futures. September opened at %c concession, braced up from 42c to 42%c on the spurt in wheat, reacted to 41%c, and closed at 41%c bid. Argentine shipments of corn were larger than the previous week and were 1,600,000 bu. The quality of La Plata corn is poor, but the weather is such as gives promise that it will improve. Pri-mary points had receipts of 257,000 bu and shipped 199,000 bu. Export clearances were large at 300,000 bu. They represented old business, however, while the new export en-gagements were light. Shipments of corn from Chicago last week were 1,135,000 bu, while exports at the Atlantic seaboard were 1,086,000 bu. In the local market country of-

o. 2 at 40c, and No. 2 yellow at 401/@41 Further Liquidation in September Oats.

# Arrivals of Peaches Smaller, but the Qual-ity Ordinary-Vegetables Plentiful.

Ity Ordinary-Vegetables Plentiful. Dealers are complaining of a poor market for peaches, but it is mainly due to the poor quality of the fruit. Good peaches sell well enough. Most of the Georgia fruit has to be sorted and re-packed for shipment to points outside of Chicago, because the peaches become soft and discolored in transit from Georgia. Consequently much of the fruit does not reimburge the growers for freight

are manipulating the market and ar npathy with the decline. It is pretty it the bull pool got more stock than t rning the interest on the scaled bo is said the Wabash avenue extension It is said the Wabash avenue extension will be in operation within three weeks. Those two facts are the foundation of the bull campaign, and if they can be relied on they ought to form a pretty substantial founda-tion. It is hardly to be supposed, however, that the holders of the unassented first mortgage bonds are going to retire peacea-bly and let the officers of the company de-vote earnings as they choose if those earn-ings are sufficient to pay first mortgage bond interest.

Chicago lost a portion of its sudden a Chicago lost a portion of its sudden nee of the previous two days. It ted two points yesterday from the high-rice quoted Friday. The stock sold to 131% and closed at the bottom, were no sales of North Chicago. board continued heavy and made er declines. The announcement of the titon of a new strawboard company in h the packers are interested was a sh factor in the market. The stock down to 47 and closed at the bottom, compares with 52 earlier in the week, ther securitles were dull. A few shares lamond Match were sold and the stock hed from 181% to 130%, which is the st price for the week, and marked a de-from 132. 132. inesota Iron company has sold

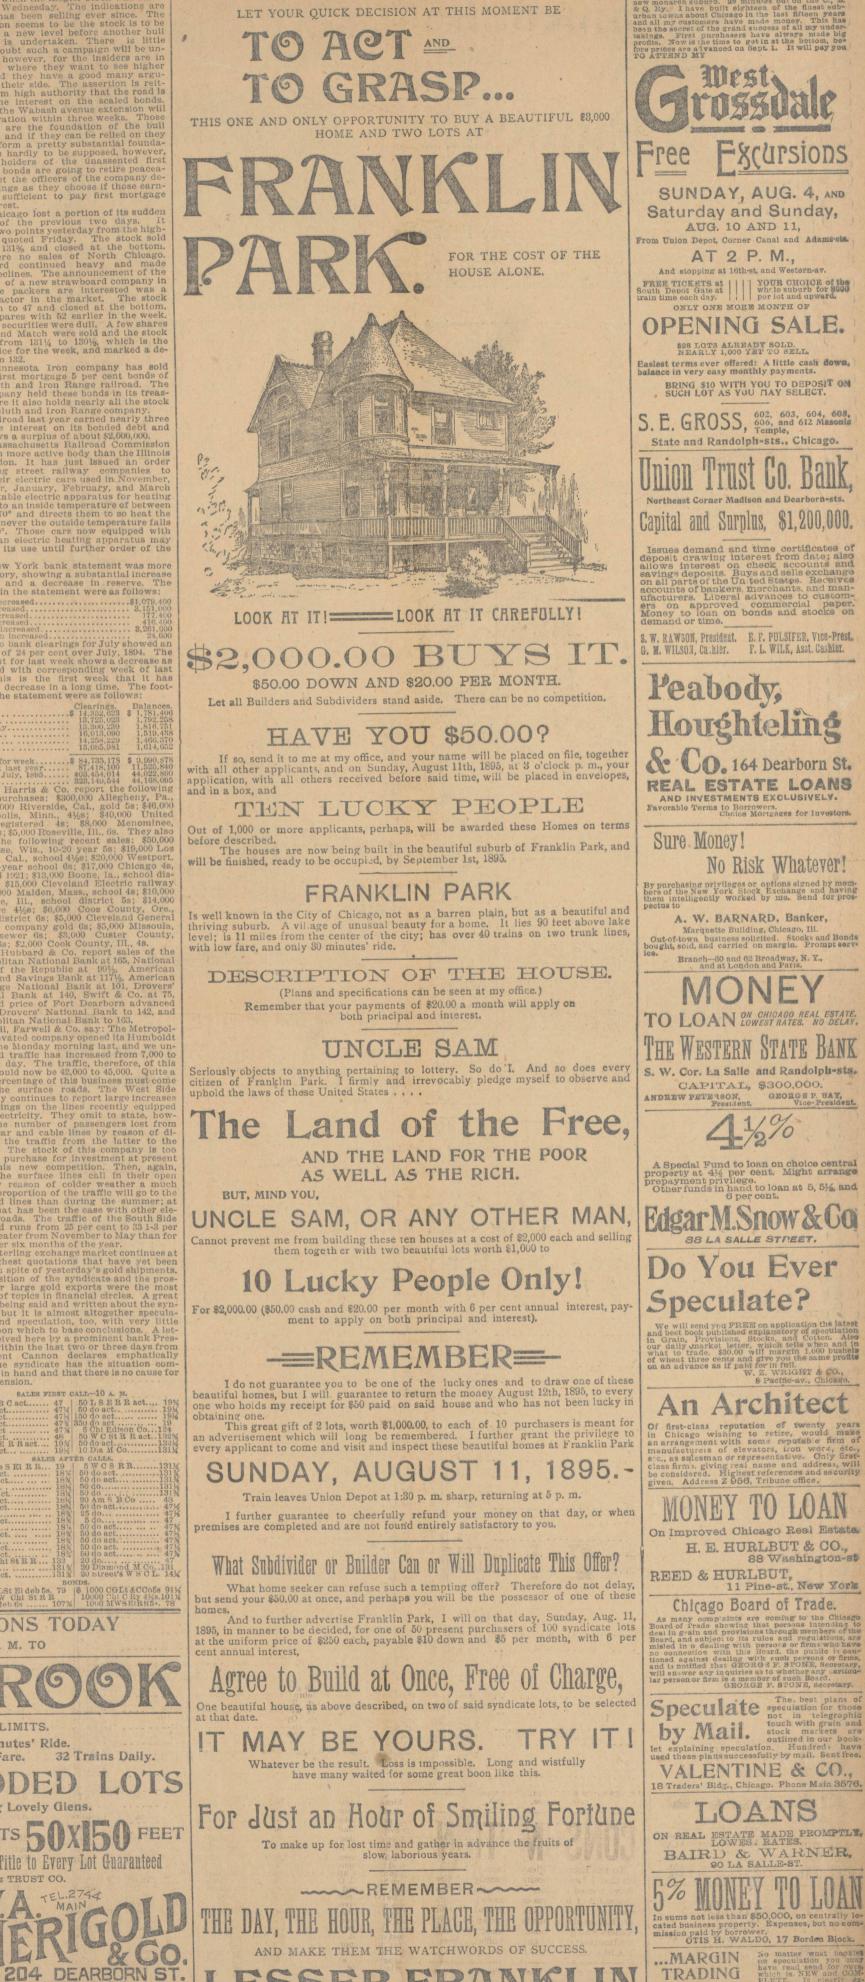

me from 132. The Minnesota Iron company has sold 00,000 first mortgage 5 per cent bonds of the Duluth and Iron Range railroad. The on company held these bonds in its treas-ry, where it also holds nearly all the stock the Duluth and Iron Range company. The railroad last year earned nearly three mes the interest on its bonded debt and bw shows a surplus of about \$2,000,000. The Massachusetts Railroad Commission a much more active body than the Illinois ommission. It has just issued an order uppelling street railway companies to pup their electric cars used in November, ecember, January, February, and March ith suitable electric apparatus for heating te cars to an inside temperature of between  $8^{\circ}$  and 70° and directs them to so heat the irs whenever the outside temperature fails alow 50°. Those cars now equipped with ther than electric heating apparatus may poinue its use until further order of the pard. New York bank statement was more

for standard; the ass, the closed at 45c bid, as oh Friday. October was caster, selling at 46% cand closing at 46c bid. Barley ruled dull and steady. For September No. 2 was 48% bid. No. 3 sold f. o. b. at 38c. Arrivals were only 3 cars. The tendency in cash flaxseed was toward firmness, owing to receipts being a triffe smaller. The inspection sheet showed 35 cars in .26 of which were No. 1 Southwestern sold at \$1.07 will on the selling at \$1.2, an advance of ½c. Old Northwester sold at \$1.07 will on \$1.08% and closed at \$1.07 will and \$1.08% and closed at \$1.07 will will be and \$1.08% and closed at \$1.08% and closed at \$1.07 will and \$1.08% and closed at \$1.07 will and \$1.08% and closed at \$1.07 will and \$1.08% and closed at \$1.08% a

schers and \$1.07 bid, a decline of 14%(1)%c. November sold at \$1.08½ and closed at \$1.08 bid and \$1.08½ asked. Timothy seed futures showed no special change. The feeling was firm, August sold at \$4.55, and closed with that bid. For Sep-tember \$4.40 was bid. October sold at \$4.20.

Prime country seed sold, to arrive, prompt hipment, at \$5.00.

Cloversed was inactive and unchanged on the basis of \$9.60 for contract price. The splendid corn outlook is a factor in provisions as well as in the market for corn futures. With an absence of cash demand for products, lack of speculative interest and heavy stocks everywhere, there is littl and heavy stocks everywhere, there is little to say in favor of provisions except their cheapness, and that is a matter of opinion yet. Hog receipts are falling off, the total for the week being but 59,660, against 182,-775 the same week last year. For Monday 16,000 hogs are expected, and for the week 75,000, Lard holds fairly steady, but rules dull. Pork for September delivery sold down to \$9,50, the lowest price reached this season, but closed at \$9,622/2, little change being shown from the day before.

## Trade Gossip on 'Change.

There are still plenty of chances for a row over the elevator question, which has lain domant for some little time. The anti-elevator people are bitter regarding the refused of certain

rompany continues to report large increases in earnings on the lines recently equipped with electricity. They omit to state, how-ever, the number of passengers lost from horse car and cable lines by reason of di-verting the traffic from the latter to the former. The stock of this company is too high to purchase for investment at present with this new competition. Then, again, when the surface lines call in their open cars by reason of colder weather a much larger proportion of the traffic will go to the elevated lines than during the summer; at least that has been the case with other ele-vated roads. The traffic of the South Side ent greater from November to May than for the other six months of the year. The sterling exchange market continues at the highest quotations that have yet been made in spite of yesterday's gold shipments. The position of the syndicate and the pros-pect for large gold exports were the most taked of topics in financial direles. A great deal is being said and written about the syn-tion, and speculation, too, with very little data upon which to base conclusions. A les-tion and speculation, too, with very little data upon which to base conclusions. A les-tion the sing the still at the situation com-pletely in hand and that there is no cause for apprenension.

apprehension.
