

For cleansing, one cream— For protection, an entirely different cream

To give your skin the loveliness it should have, two entirely different creams are needed—an oil cream for cleansing, and a non-oily cream for protection

THE skin is constantly being toughened and coarsened by its daily exposure to wind and dirt. Unless you take care to cleanse it thoroughly of all impurities at night and to protect it properly during the day, you deliberately sacrifice the clear, fresh-looking complexion you could so easily have.

Cleanse the skin thoroughly each night

Particularly at the end of a windy, dusty day the pores of your skin are filled with fine particles of grime and dirt. To make the skin clear and fine-textured, it must be kept thoroughly cleansed.

Before going to bed, cleanse the skin liberally with Pond's Cold Cream. The soothed, *refreshed* feeling will be noticeable at once.

You will find Pond's Cold Cream a perfect oil cream for massage as well as for cleansing.

Protect your skin all winter

Every woman who cares about her appearance knows that in cold winter days the skin must be especially protected to prevent its becoming rough, red and chapped. You can protect your skin from wind and cold, can keep it soft and smooth, by applying a little Pond's Vanishing Cream just before you go out.

Rub it lightly into your skin. At once it disappears without leaving a trace of disagreeable shine. By taking this simple precaution you can keep your skin lovely all winter.

The very first application will show you how much your skin is benefited.

Pond's Vanishing Cream is wholly different from any other cream you have ever used. It contains no oil and cannot make the skin shiny. Its purpose is to

The nightly cleansing and massage with Pond's Cold Cream keep the skin clear and smooth.
