

Conspicuous Nose Pores -

How to reduce them

COMPLEXIONS otherwise flawless are often ruined by conspicuous nose pores.

The pores of the face are not as fine as on other parts of the body. On the nose especially, there are more fat glands than elsewhere and there is more activity of the pores.

These pores, if not properly stimulated and kept free from dirt, clog up and become enlarged.

To reduce enlarged nose pores: wring a soft cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application

several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for thirty seconds with a piece of ice.

Try this special treatment and supplement it with the steady general use of Woodbury's Facial Soap. Before long you will notice a marked improvement in your skin. But do not expect to change completely in a week a condition resulting from long continued exposure and neglect.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. Get your cake at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.
