

# "More Corns Than Ever But They Do Not Stay"

## The Story That Millions Tell

This is not a way to prevent corns.

That would mean no dainty slippers, no close-fitting shoes. And that would be worse than corns.

Our plea is to end corns as soon as they appear. Do it in a gentle, scientific way. Do it easily, quickly, completely, by applying a Blue-jay plaster.

Modern footwear creates more corns than ever. But have you noted how few people ever evidence a corn?

The chief reason lies in Blue-jay. It is ending millions of corns each month. Instantly, for every user it puts a quietus on corns.

The procedure is this: Attach a Blue-jay at the first sign of a corn. It will never pain

again. Let it remain two days and the corn will disappear.

Occasionally, an old, tough corn needs a second application. But that's an easy matter, and the corn is sure to go.

This is the modern method. Old, harsh, mussy methods are long out-of-date. Paring, of course, is useless.

Here a gently-acting wax is centered on the corn alone. The corn is protected in the meantime, and the wrapping fits like a glove.

It's the expert way of dealing with a corn, and every one should employ it.

Try it tonight. Note the results on a single corn. In a few hours you will know that corns are needless. Never again will you pare or pad them, or treat them in old-time ways. And never again will you let a corn spoil an hour of joy.

### How Blue-Jay Acts

A is a thin, soft pad which stops the pain by relieving the pressure.

B is the B&B wax, which gently undermines the corn. Usually it takes only 48 hours to end the corn completely.

C is rubber adhesive which sticks without wetting. It wraps around the toe and makes the plaster snug and comfortable.

Blue-jay is applied in a jiffy. After that, one doesn't feel the corn. The action is gentle, and applied to the corn alone. So the corn disappears without soreness.

## It's a Berry Finished Room from Floor to Ceiling

As home-builders are realizing more and more, the cost of application is the big item in the bill for finishing, and it costs no more to apply good varnish or enamel than the ordinary kind. The difference in the price per gallon is slight.

And the wisdom of specifying quality materials, such as "Berry" products, is more and more apparent as time goes on. Your

rooms retain the beautiful appearance they had when newly finished, a constant source of pride and satisfaction.

Liquid Granite Floor Varnish, Luxeberry Enamels, Luxeberry Wood Finishes and Luxeberry Wall Finishes are but a few of Berry Brothers' reliable products that have merited the confidence of dealers and home-builders for sixty years.
