IMPROVED ROADS ENTICE CHICAGO MOTORISTS

STATE TO SPEND $47,000,000 ON ROADS IN 1931

Grade Separations for Cook County.

In the year 1931 the taxpayers of Chicago will devote $47,000,000 for the improvement of the city’s streets and highways. This is the largest appropriation ever made for street and highway construction in any one year in the history of the city.

There are proposed improvements of every kind into the outer suburban areas, including the building of new bridges across the Des Plaines River and the construction of a new road to connect the city with the western suburbs.

Good Highways Enlarge Value of Your Auto

1931 Program Is an Ambitious One.

BY HIL PERRY.

The Chicago motorist, whether user of the 90 mile or not, will benefit by the new program, as it is expected that the value of his car will increase as a result of the completion of these improvements. The value of a car is in direct proportion to its running cost and to the dependable service it receives.

Cermak Scores Chicago for Its Lack of Co-operation

BY ANTON J. CERMAK.

The mayor has consistently exerted pressure for the completion of the new bridges and highways. He has pointed out the necessity of completing them as soon as possible. The mayor’s program is in the interest of the city’s motorists.

Elevated Auto Highways Needed to Relieve Traffic

BY EUGENE S. TAYLOR.

The need for an elevated highway system in Chicago has been emphasized by the mayor. A four-lane highway is planned to relieve the traffic congestion in the city.

There Are More Autos in U. S. Than Telephones

A recent federal report shows that there are more motor vehicles in the United States than telephones. The number of motor vehicles in the U. S. is 24 million, while the number of telephones is 18 million.

CUBAN NATIONAL HIGHWAY OPENS TO AUTO TRAFFIC

The new highway connecting Cuba with the United States is now open to traffic. It is a well-paved road and will facilitate travel between the two countries.
