CITY OF ST. PAUL OFFERS ITS BONDS IN BLOCKS OF $10

Minnesota Municipality Puts Issue Within Reach of Small Investors.

SECURITIES SOLD OVER COUNTERTOP AT PAR AND ARE REDEEMABLE UPON PRESENTATION.

FUND OFFERED FOR REDemption

WHERE WE WILL GET A WAY

By J. S. HAYFORD.

Old bonds over counters will be sold for face value, bonds that have been neglected for years-

in the biggest municipal operation of the kind ever undertaken. That is the plan under which the city will offer its bonds for sale at the county courthouse.

Last Friday, when the municipal government undertook this operation, it was

with the idea of finding a way to get the bonds out of the hands of small investors.

In the early months of 1915, the city decided that it would be necessary to raise money for the benefit of the city, and after much discussion the plan was adopted of setting up a block of money that could be gotten out of the hands of small investors.

The city decided to offer a block of money to the public, and after much discussion the plan was adopted of setting up a block of money that could be gotten out of the hands of small investors.

The blocks of money offered were to be sold for $10, and each block was to consist of a small number of bonds, each bond being worth $10.

In addition to this plan, the city decided to offer a block of money to the public, and after much discussion the plan was adopted of setting up a block of money that could be gotten out of the hands of small investors.

The blocks of money offered were to be sold for $10, and each block was to consist of a small number of bonds, each bond being worth $10.
