How one of America's
MOST BEAUTIFUL ART MODELS
reveals the sparkling loveliness of her hair

Illustrates New Way... no dull film; hair shining

Miss Margaret McConnell
—so breath-takingly lovely, she commands extra fees for posing, says:

"I never know whether I'll be posing as a society leader, or a busy housewife and mother—but I do know photographers will want my hair sparkling and lustrous. So I was really thrilled when I discovered Drene Shampoo! It revealed natural highlights and brilliance I never knew my hair possessed! And it leaves my hair soft and manageable, too!"

It works a seeming miracle before your very eyes! No matter if your hair is discouragingly dingy and dull-looking—now see its hidden beauty suddenly revealed! See it sparkling with entrancing natural highlights beyond your dreams... after only a single washing with

the amazing new Drene Shampoo! In most cases dull-looking, lusterless hair is caused by the greyish, sticky film (bathub ring) that all soap deposits on hair! But with this new shampoo discovery you get thrillingly different results!

First, Drene sweeps away that ugly, dulling film soap shampooing leaves—because it contains an amazing, new, patented cleansing ingredient never before used in a shampoo! Second—because Drene is not a soap—not an oil, it leaves no dulling film of its own on hair! Nor greasy film to catch dust! What's more, Drene cleans away dirt, grease—even loose dandruff flakes. Leaves hair so sparkling clean—lemon, vinegar or other special after-rinses are unnecessary!

No soap shampoo can give Drene's amazing results! Women bought over 24 million bottles of

Drene last year alone! Approved by Good Housekeeping. Guaranteed by Procter & Gamble.

There are now two kinds of Drene. Use Regular Drene if your hair is oily. Otherwise, use the new Special Drene for Dry Hair (leaves even fine hair soft and manageable). At drug, department or 10¢ stores. Or ask your professional beauty operator for a Drene Shampoo. Thrill to the new glory it reveals in your hair.
