

CANNED FRUITS

—Legionnaires—
scarcity—

Short crops, army requisitions, restriction of the manufacture of tin plate, have all contributed to the unprecedented shortage of Canned Fruits for civilian consumption. The supply of Peaches and Apricots, the two most popular of California fruits, has been most seriously affected—there will not be enough of either of these fruits this year to supply the usual demand. We are fortunate in having secured a sufficient quantity of both articles to supply the wants of our customers, at least during this catalog. You will find them to be of the same high quality that you have learned to expect of Wilson Brands.
