

# the choicest of sugar-cured Meats

Smoke house to You

Pure Lard

UNITED STATES GOVERNMENT INSPECTED

Do not confuse our lard with that usually obtainable, as it is the general custom to pack lard in gross weight pails, that is the so-called 5-lb. pail holds only about 4 lbs. 2 oz. of lard, while the other 14 oz. is the weight of the pail. Our pails hold full 5 lbs., 10 lbs. and 50 lbs. of lard, respectively. Moreover, both Royal Arms and Temptation Lard are made solely from U. S. Government inspected materials under perfect sanitary conditions. You may be sure of getting the best when you buy these brands.

## Snowdrift—The Perfect Shortening

Snowdrift is made from the best refined Cotton Seed Oil. It is an absolutely pure food shortening, and excellent results are obtained from it. You will find Snowdrift makes a much better and whiter cake than those in which other shortenings are used. Add a pail to your order.

Oleomargarine for Table or Cooking

If you learn to know Temptation or Decision Oleomargarine, you needn't be alarmed at the soaring price of creamery butter. You'll find, as many others have, that oleomargarine (when of proper grade) is not just a substitute for creamery butter—good oleomargarine will fully replace it, both for table use and fancy cooking. We are not permitted to sell over five bricks to any one order.
