The Outstanding Achievement of Chevrolet History

-a Six in the price range of the four!

By every standard of comparison, The Outstanding Chevrolet of Chevrolet History is entitled to rank as one of the greatest automotive achievements of all time — for General Motors, Chevrolet and Fisher Body have here combined their resources to produce a truly remarkable automobile.

The new six-cylinder valve-in-head engine offers greater speed, faster acceleration, remarkable smoothness and fuel-economy of better than 20 miles to the gallon. The full ball bearing steering mechanism, adjustable driver’s seat in all closed models and new quiet four-wheel brakes assure remarkable ease of control; and these notable qualities of performance are matched by the surpassing beauty, luxurious comfort, smart style and the great inherent value of marvelous new bodies by Fisher!

These beautiful cars are now on display in our showrooms — and we urge you to come in and see them today. For the more carefully you examine the new Chevrolet Six, the more clearly you will realize that it introduces an order of luxury that was never before thought possible in the price range of the four!
