The White House

Whose Very Walls Whisper of Lincoln . Grant . Roosevelt Wilson

To visit Washington, to take his sons and daughters, is the patriotic duty of every father.

For how can your children become citizens and patriots worthy of the name, until they have felt the thrill that only the historic sights and scenes of Washington can give.

Here in the White House our Presidents have dwelt; through these stately halls has resounded the clamor of war; and the gay music of peace; here have been planned the ways to our Country's prosperity; here have gathered the greatest in the history of our Nation; immortal with memories indelibly written in the pages of our history.

Plan to go to Washington this Spring; to go when the Cherry Trees are abloom around the basin; when the mighty dome of the Capitol; the towering shaft of the Washington Monument, rise above the soft green of the encircling trees; when Congress is in Session and the mighty machinery of our Government is in motion.

Visit Washington. And, when your trip is done, you, too, will hold a greater, a finer appreciation of the might and power of these United States—a new pride in your citizenship.

That you may make the most of your pilgrimage, the Baltimore & Ohio has prepared, and will send you free, an Album of Washington Views; a handsome book picturing and describing the many places of interest that await you.
