Freight Plane Will Open New Transport Field

It is announced that a freight plane will be used for the first time in commercial transport on the west coast. The plane, which has been built by the Boeing Airplane Company, is capable of carrying 10,000 pounds of freight at a cost of $2 per ton mile. This rate is lower than any other mode of transportation and will make it possible for many small businesses to compete with the large railroad companies.

FEATHER WEIGHT by G. W. M. Crabbe

The night, the stars, the darkness, the silence. It is a strange and eerie world, but it is the place where the night worriers live. They are creatures of the night, and they know its secrets.

BULLETIN

A first-class mail carrier was bitten by a dog while delivering mail in a rural area. The carrier was taken to the hospital where he received medical treatment for the bite.

WORRIED OVER WORMING

Jenny has his Mary a terrible waking. She's had her share don't hurt her but she worries about things as she does. Wonder if it would be all right to call her long process and ask him about it.

four Early Birds

By Bob Becker

FEBRUARY 13, 1939

The news this week is that some northern birds have started their annual migration. The purple martin, a common species in the northern states, is one of the first birds to start its migration. The purple martin is known for its purple color and it is often seen in large flocks.

The GRUB WORM

By L. S. KENNER

The grub is a pest of corn and other grains. It can cause significant damage to crops. The grub is a small, white larva that feeds on the roots of plants. The grub is a serious pest and control measures are necessary to prevent it. The grubs can be controlled by dusting the soil with a pesticide or by using a biological control agent such as a nematode.
