# WORSTED-TEX SUITS

## In The British Lounge\* Model

Lined with Super-Celanese Rayon

\$40

In the photograph above you see the refinement of the Worsted-tex Suit in both fabric and tailoring. If you could feel the cloth itself — even if you don't know a thing about fabrics — you would at once notice that it has a finer, softer touch — a pliant drapiness — more like the famous imported worsteds of England.

If you could run your hands over the lapels, the front of the jacket, the collar and the should-

ers, you would immediately appreciate the softness of the tailoring — the *moulded* softness that means so much in comfort, ease, better fit and greater satisfaction.

It is this superb quality of fabric that makes possible the famous British Lounge\* Model described at the right.

Every detail is refined — even the zip on the trousers is the fabric-covered invisible Kover-Zip — no metal shows.

### The British Lounge\* Model

This model is an entirely new conception in men's clothes. It is revolutionizing the men's clothing business because it makes men look more nearly as nature intended—broader at the shoulders, fuller at the chest, slimmer at the hips and taller. Yet there is nothing extreme about it. It is a gentleman's suit of clothes.
