# MORE U.S. TROOPS GO TO COLORADO; MILITIA ACCUSED

Garrison Orders Force in Mine Zone Increased After Conference with Wilson.

LUDLOW TRAGEDY RECITED

Witnesses at Inquest Say They Heard Order to "Clean Out" Miners' Tent Colony.

#### DEATH OF LEADER IN QUESTION

Washington, D. C., May 1.-Orders to quadruple the force of federal cavalrymer in the Colorado coal strike regions went from the war department late tonight.

The entire Eleventh regiment, from Fort Oglethorpe, Ga., and two troops of the Twelfth regiment, from Fort Robinson, Neb. were ordered to proceed to the scene at once Col. James Lockett of the Eleventh to take

supreme command of the situation. Secretary Garrison issued the orders after a long conference with President Wilson He said the step was taken not because trouble was expected, but because it had been demonstrated that the five troops of cavalry now in the coal fields did not provide enough men to cover the large territory involved.

Favorable Report from Colorado.

Reports from Colorado tonight, Secretary Garrison added, were very favorable. The twelve troops of the Eleventh will be distributed through the Trinidad, Walsenburg, Aguilar, and Forbes districts and the two troops from the Twelfth will go to Boul-

In a report to Secretary Garrison, Mai, Holbrook, in charge of the federal troops in the Colorado strike field, said the opposing forces, strikers and operators' representa-tives, in the vicinity of Walsenburg, Colo. ad agreed to surrender their arms.

Maj. Holbrook Looks for Peace. Trinidad, Colo., May 1.-" I believe the sending of additional federal troops in the Colorado strike region will have a pacifying effect on the situation," was the only comthe second squadron of the Fifth cavalry now in military occupation of the strike zone, had to make when shown a dispatch telling that the present army force in the state was to be quadrupled.

Maj. Holbrook announced he would send a troop to Ludlow tomorrow, at which time all the state militiamen would be with drawn from Las Animas county. Twelve men were sent to Sopris tonight. Last night thirty men went to Segundo

The movement and distribution of the federal troops has been hindered by inclement weather. Rain and snow have fallen at intervals most of the week and the roads are

Maj. Holbrook said nothing further had developed in the negotiations for the disarming of the strikers.

Union Men Discuss Disarming. John W. Lawson, district executive board member of the International United Mine Workers, and Horace N. Hawkins, attorney for the organization, arrived from Denver tonight. They at once went into conference with the local union leaders on the general situation, including the proposal to disarm

Upon his arrival here Mr. Hawkins received a telegram from Congressman Edward Keating of Colorado telling him that Secretary Garrison wished to receive suggestions on the subject of disarmament. Mr. Hawkins said he would comply with the request after informing himself fully of the

The attitude taken by the union has been that the strikers ought not to be deprived of their guns unless the mine guards were

Mr. Hawkins and Mr. Lawson expected to confer with Maj. Holbrook tomorrow.

Inquest Witnesses Accuse Militia. he direct charge that an officer of the Colorado national guard gave an order

"clean out" the Ludlow tent colony of mine strikers and to burn their tents. was made before the coroner's jury today by R. J. McDonald, stenographer for the military commission. McDonald testified in the inquest over the victims of the Ludlow battle and ten burning of April 20, at which time two women and eleven children were burned to death and several combatants

The witness said the order was given by either Maj. Hamrock, commander of the state troops at Ludlow, or Capt. Carson, he was not certain which.

McDonald was questioned about the capture and death of Louis Tikas, Greek leader of the strikers. He said that while near the scene of the battle he heard a commoti hind some box cars, and was told that Tikas was a prisoner and probably would be

Death of Leader in Question. McDonald said that a little later he met Lieut. E. K. Linderfelt. He asked Linder-

felt if Tikas had been hanged. 'No," he testified Linderfelt replied, "I gave instructions that Tikas was not to be

killed, but I spotted a good rifle." The witness swore that Linderfelt was carrying his rifle over his shoulder, stock to the rear, and holding it by the barrel. The physician's autopsy showed that Tikas' skull was fractured.

G. A. Hall, a chauffeur, told the jury that he had heard a militia officer give the order to "clean out" the tent colony and burn the tents.

Woman Recites Soldiers' Threats. Mrs. Pearl Jolly was another witness. She said that on the day before the Ludlow battle a man wearing a militia uniform re-(Continued on page 4, column 3.)

DOMINICAN REBELS GAIN: GOVERNMENT MAY BE UPSET.

Commander of U. S. Gunboat Petrel Says Several American Plantations Have Been Shelled.

Washington, D. C., May 2, 2a. m.-Reports that the revolutionists in the Dominican republic were vigorously attacking Puerta Plata and claimed that they were on the verge of overthrowing the Bordas government came to the navy department early this morning.

This information was in a relayed wireless dispatch from Commander Gray Graham of the United States gunboat Petrel.

It is reported that several American plan-

# DIES A PAUPER

Carl Schroeter, Inventive Genius, Succumbs After Laboring Daily 20 Hours.

HAD GARBAGE SOLUTION.

Mrs. Anna Schroeter sat silently in her small flat at 3006 West Madison street last night. Gathered about her were a few neighbors and friends who had come to console ner. The lights were dimmed and the door to a small room off the parlor was shut. The room contained a desk and a draftsman's table. A large glass case contained row after row of bottles filled with chemicals, neatly labeled. A bookcase of scientific works stood in the corner,

This was the workshop of Carl Schroeter, 68 years old, chemist, civil engineer, and an inventive genius who gave several fortunes, and, lastly, his life in the interest of science He died yesterday at the county hospital, penniless, just when he believed a new invention would bring him a new fortune and fame. He had perfected his invention of a dry distillation process of disposing of mixed refuse and had planned to give a practical demonstration of it to Col. Henry Allen, er gineer in charge of the city's garbage problem, within the next few days. The invention, it is believed, has been lost with his death.

Decorated with Iron Cross. Dr. Schroeder was born in Germany and received degrees in civil and mining engineerng, chemistry, and philosophy in Berlin. He served through the Franco-Prussian war as an officer of engineers and was decorated with the Iron Cross for exceptional bravery and for engineering feats.

He came to the United States with his wife wenty-eight years ago. His knowledge of engineering soon gained him a place of prominence in the building field as superintendent of construction on large undertakings. Some of his most notable achievements are said to have been superintending construction of the Flatiron building in New York and the Hartford building in Chicago.

Worked 20 Hours a Day. Friends say he devoted nearly twenty

hours a day to work in his little laboratory. some of Dr. Schroeter's inventions brought him money. Among the things he patented were a coke oven and a starch which makes lace curtains fireproof. He evolved formulas for waterproofing in extensive use today.

When the bridges over the drainage canal were built it was found that car tracks in variably were uneven on the structures, and here seemed no way of remedying the difficulty until Dr. Schroeder came along with a compound of sulphur and asphalt that answered the purpose. Mrs. Schroeter cannot speak a word of

English, and all the assets she has are the chemicals and tools in his little "den." No ne knows the "process. Mrs. Schroeter is an invalid, and scarcely can walk. She hopes to realize enough from the sale of his effects to conduct a rooming use. The funeral will be held in an undertaker's chapel this noon. Friends will

pay the expenses.

# NATIONAL LEADERS DESERT CHICAGO SUFFRAGE PARADE

Jane Addams, Mrs. Bowen, and Mrs. Fairbank Not to March Today.

### SPLIT OVER RESOLUTIONS

Illinois Board Refuses to Indorse Message to Be Sent to Congress.

#### MRS. TROUT EXPLAINS SITUATION

If Prof. H. J. Cox's forecast of "fair and warmer" holds good, Grand Marshal Grace Wilbur Trout and her state organization of fair voters will deploy into Michigan avenue and march through lines of admiring thousands at 5 o'clock this afternoon.

But, unless some A. B. C. pacificators get on the job in a hurry, that parade will be minus some of Chicago's foremost laborers in the cause. They include:

Jane Addams, acting president of the National American Woman's Suffrage Mrs. Joseph T. Bowen, one of the audi-

Split Over Resolutions. Mrs. Medill McCormick, who is chairman of the congressional committee of the national body, will parade-unless she reconsiders before 5 o'clock-at the head of the women of the Progressive party. But she does not conceal her marked support of the contentions of the national organization.

This briefly is the contention: The national association requested every state in the union, through its state suffrage organizations, to approve certain resolutions to be presented to congress on May 9 in support of a national woman's suffrage. The Illinois women failed to adopt these resolutions. The national organization blames Grand Marshal Trout

Mrs. Trout predicts the parade will be the day-Chicago time). women ever held in this country, despite the threatened defections.

Mrs. Bowen Gives Reasons. Miss Addams has gone to Cedarville. She will not return in time to march in the

parade. Mrs. Bowen, however, is in the city, and not physically indisposed. "I shall not march in the parade tomorrow," she said, "for purely official reasons. The board of the national suffrage organization some time ago asked all state associa tions to arrange for demonstrations on May in every city, town, and hamlet at which resolutions should be passed indorsing fed-

eral suffrage legislation. "The resolutions do not refer to either the Shafroth or the Bristow bills. If the Illinois association had feared it would set its stamp of approval on the Shafroth reso utions only by passing the parade resolutions, it could have indorsed the resolutions sent out by the Congressional union as well. Some state associations have done this.

'Meaningless Without Resolutions." "The Chicago parade seems rather meaningless if no resolutions are passed. It was for the purpose of having all state associations pass resolutions to be presented to congress that the national suffrage organization lanned the parades.

' Miss Addams and I went to see Mrs. Trou on several occasions to urge that the Audiorium or some other place be obtained so a massmeeting might be held for passing resolutions. She did not seem to care about it "The failure of the Illinois board to indorse

the resolutions simply means Miss Addams. who is acting president of the national suffrage organization while Dr. Shaw is in Eu rope, is affronted by Illinois, her own state." Mrs. Trout Explains.

Mrs. Trout issued the following state ment-the first that she has made since the dissension between the national and the state associations arose; "The members of the state board did not

object to the Shafroth amendment or the Susan B. Anthony amendment or the rather indefinite and harmless resolution which the National American Women's Suffrage association asked the suffragists to indorse. "Before even receiving the last resolu

tion Illinois voted not to indorse any resolution. The reason for this action by the board lay deeper than this. There has been grave disapproval felt by many suffragists throughout the country of the policy of annihilation which the national president has andeavored to carry out toward all organ izations or individuals who have failed to defer to her opinions. This policy undoubt edly has been carried out with all honesty of intention, but it is not conducive to prog-

The suffrage situation in Illinois is not being watched by the whole civilized world. There would not be the keen anxiety manifested to have Illinois pass this simple an perfectly good resolution did it not mean taking sides in a serious and unpleasant

Co-operate on Parade.

"Illinois, however, desiring to show every courtesy to its own women who are on the national board and to the three Illinois women on the congressional committee in Wash ington, voted to take part, and make May 2 one of the greatest possible suffrage demon-

The chairman of the congressional committee, however, was not satisfied with the action of the Illinois board and asked to have a special board meeting called. It was called, and held in the busiest of all weeksthe week of the procession. The board, after listening to an explanation from the two members of the congressional committee,

## SIBERIA ARRIVES SAFELY IN PORT

Captain at Manila Thinks Reported Sinking Due to Error in Receipt of Wireless Call.

HAD NO TROUBLE AT ALL.

News Puts End to World-Wide Fears That Over 500 Passengers and 300 of Crew Perished.

MANILA, May 2.-The Pacific Mail steam er Siberia, reported to have been wrecked off the coast of Formosa, arrived here at 11 clock today.

The captain reported that the Siberia had had an uneventful voyage from Nagasaki to Manila.

Capt. Zeeder of the Siberia expressed the belief that the reports in circulation yesterday and last night that his vessel was in distress off the coast of Formosa and had sent out calls for assistance, arose over confusion in the call letters of the steamer Persia, "M. B. S." being mistaken for "S. O. S.." the marine wireless request for aid.

The wireless operator on board the Siberia said the atmospheric conditions yesterday had been bad, making the sending of wireess messages difficult.

WORLD-WIDE ANXIETY ENDS. San Francisco, Cal., May 1.-Eighteen nours of anxiety in marine circles through out the world ended tonight with the laconireport from Manila of the arrival there of the Pacific Mail Steamship company's liner Si-

The Manila dispatch made unnecessary the aid of British and Japanese cruisers and of the transpacific liner Minnesota, all of which started to the Siberia's assistance.

The passenger list of the Siberia, including the name of Mrs. Francis Burton Harrison. wife of the governor general of the Philippin islands, contained an unusual number of names widely known throughout the United

EARLIER REPORTS ALARMING.

[BY CABLE TO THE CHICAGO TRIBUNE.] TOKIO, May 1.—Repeated wireless calls supposed to have been pleas for assistance from the Siberia were received along the coast of Japan from early this morning until 10 o'clock tonight (about 9 a. m. Fri-

The calls were thought to give the vessel's position at a point off the coast of Formosa. The calls were picked up by a number of vessels, including the liner Minnesota of the Great Northern Steamship company, which was on its way to Nagasaki. It started at once for the point from which the calls had been sent out.

The Japanese government sent two steamers to the scene, and the British warship Minotaur, which had picked up the calls, rushed there at top speed.

Hear Vessel Is Sinking. The fact that nothing was said in the calls for help as to what the trouble was, led to the most alarming reports. The first rumor was that the vessel was sinking, while it was said later that it was on the rocks and

in grave peril off the coast of Formosa. A later rumor was even more alarming. It suggested that Chinese pirates might have had something to do with the supposed dis-

The Siberia sailed from San Francisco on April 7 for Manila. It carried 521 passengers seventy-one in the first cabin, fifty in the second, and 400 in the steerage. The crew

## UP TO U.S. AND HUERTA

Mediators Find Situation in Its Original State; Peace May Fail.

BULLETIN. New York, May 1 .- The Sun has received a message from President Huerta, of which a translation fol-

"National Palace, Mexico, D. F. April 30 .- In reply to your esteemed message of today, the armistice has been accepted with reference to the American troops on condition that the rebels do not attack the troops of the republic during the armistice.

"(Signed) V. HUERTA,"

BULLETIN. Mexico City, May 1.—It is reported here that a tripartite agreement to an armistice was signed this morning by representatives of the United States, the Federals, and the rebels. Jose Manuel Cardoso de Oliveira, the Brazilian minister, confirmed the report except as to the actual signing of the agreement.

BY JOHN CALLAN O'LAUGHLIN Washington, D. C., May 1.-[Special.]-The administration tonight is facing the fact that mediation in the Mexican situation, as originally accepted by Secretary Bryan, has

The failure is attributed to Gens. Carranza and Villa, leaders of the Constitutionalists. who have not replied to the proposal for a suspension of hostilities, but who have indicated by their plans for further military operations that they will not agree to the creation of any such condition.

The situation therefore is in its original

Hope Carranza Will Bend. All hope has not been given up, however, with reference to Carranza's attitude. The administration has been in communication with the Constitutionalists and has been impressing upon them that if they are to have any consideration they must agree to the

suspension of hostilities. The mediators are hopeful that this pressure will be effective, but if not they will regard Carranza's course as not finally terminating their efforts.

In this event the situation will be resolved back into its original state. That is to say, such mediation as will be attempted—and the administration is seeking it—will be between the United States and Gen. Huerta.

Relieves U. S. of Responsibility. There will be this little difference, however. Instead of the United States dealing directly with Huerta, its interests in a measure will be directed by the representatives of the A-B-C combination of South America. It will not be possible to create the proposed commission, consisting of agents of

Yet the administration hopes some profit will be gained from the developments that have taken place. It will fall back upon its long held hope

this government, Gen. Huerta, and Gen. Car-

that the Constitutionalists will drive Huerta from power. By continuing the mediation with Huerta it believes the latter will be weakened finan-

cially through his inability to obtain the

customs revenue now being collected at Vera

Cruz by American army officers. Keep Up War Preparations. The war department, under the direction of Secretary Garrison, indicated tonight that it was preparing for the worst in the mediation situation. It announced that the transports Meade, Sumner, and McClellan, which conveyed Gen. Funston's 4,000 men to Vera

Cruz, had left that port at noon today for Galveston. The fact of the return of these vessels establishes that the president does not propose immediately to evacuate Vera Cruz. It means further that these ships will be available at Galveston to take on board another brigade and hasten to reënforce Gen. Functon if the army plan for the capture of Mexico City should be adopted as a result

of the total collapse of the peace negotiations.

Light on Oil Situation. Some light was thrown tonight on Gen. Carranza's attitude with reference to the cessation of hostilities by a dispatch received from him at the state department in regard to the British proposal for the neutralization of the oil fields at Tampico. Secretary Bryan made the following statement in this connection:

"Gen. Carranza has notified the state dapartment that he is not willing to make an agreement in regard to the neutralization of the oil well zone at Tampico, but so far as his forces are concerned, the operators may
