

ITALY'S PREMIER AGREES TO ACT; WAR PARTY WINS

Rioting Ceases Suddenly When Salandra Submits to the King's Plea to Stay.

BULLETIN. ROME, via Paris, May 16, 5:37 a. m. — The Austro-Hungarian embassy has ordered all subjects of the dual monarchy residing in Italy to hold themselves in readiness to leave this country immediately upon the receipt of instructions to that effect.

ROME, May 16, 1 a. m. — Premier Antonio Salandra has consented to the urgent appeal of King Victor Emmanuel to retain his office.

The action of Salandra in retaining his office probably means that Italy will continue its warlike attitude toward Austria. Pre-war leaders, who conferred with the king, urged that he definitely declare himself for war.

Riots Are Stopped Suddenly. The prediction of a restored quiet in the country proved true, for as the news spread that King Victor Emmanuel had assumed power, a sudden change came over the people.

Danger of Civil War. It is admitted that King Victor Emmanuel last night faced the gravest crisis of his reign, and there was a possibility that Italy might be torn by a civil war.

Huge Protest in Milan. When the people in Milan heard that the Salandra cabinet insisted on resigning, a gathering of 50,000 men and women protested with great violence.

"If it will aid in the slightest the following is respectfully submitted: The United States, through its president, should adopt at once a positive, well defined policy in its relation to the present European war.

Reprisals to Be Limited. "Second—Except defense against invasion the United States will by no act of its own or that of any other nation permit itself to become a participant in this war.

Special care is being exercised by the government agents since the publication of President Wilson's note to Germany.

Flag Displayer Insulted. In another incident a man complained he had been insulted because he placed an American flag in the window of his room in a north side boarding house.

War Limited to Defense. "Seventh—Adopt what shall be determined as the furthest point of agreement to which the nations can go, acting jointly, toward preventing future wars, by withholding aid, severing political and commercial relations and other expedients within their lawful rights of self-government.

CHANCE SEEN TO REPENT. AMSTERDAM, via London, May 15.—All the blame for the sinking of the Lusitania is placed upon the United States government by the Berlin Vossische Zeitung of Thursday, which argues that the liner took no care to avoid danger, but considered its protection rested in "living American ramparts."
