Bad Breath is often to blame!

How Colgate Dental Cream Combats Bad Breath...Makes Teeth Sparkle!

WHAT a pity so many really nice people just miss finding happiness! For bad breath is a serious social and business handicap that can so easily be avoided!

Yet scientific tests show that 7 out of every 10 people over the age of 17 do have bad breath! And often the only cause is *improperly cleaned teeth!*

As your dentist will tell you, much bad breath comes from decaying food particles and stagnant saliva around teeth that aren't cleaned properly. That's why many dentists recommend Colgate Dental Cream.

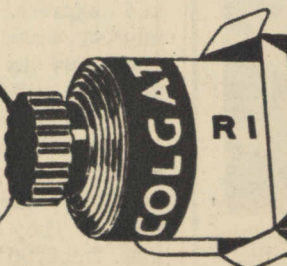

Colgate's special *penetrating* foam gets into the hidden crevices between your teeth . . . helps your toothbrush clean out decaying food particles and stop the stagnant saliva odors that cause much bad breath.

So don't take chances! Play safe! Use Colgate Dental Cream every morning and before every social engagement.

For Colgate's not only combats bad breath... its soft, safe polishing agent gently yet thoroughly cleans the enamel—makes teeth naturally bright and sparkling! No other dentifrice is exactly like it.
