

**NORTHWEST SIDE
BUS ROW PUT UP
TO CITY COUNCIL**

**'L' Demands Test of New
Home Rule Act.**

The dispute between the elevated lines and the surface lines about which is to operate feeder buses in certain parts of Foster and Kimball avenues received an airing yesterday before the transportation committee of the city council meeting in the city hall.

The issue promises to become a test case for the new utility home rule act, enacted several months ago by the Illinois general assembly and adopted by Chicago in a referendum on April 14. The new law provides that the city prescribe its local transportation service and schedules while the Illinois commerce commission retain control over financial structures and rates of transit companies.

Arrangement Made with "L."
In November, 1934, the city council passed an ordinance empowering the Chicago Rapid Transit company [the elevated lines] to operate feeder buses in Foster and Kimball avenues as belt lines intersecting the north side, Ravenswood, and Logan Square branches of the "L."

Despite protests from the council transportation committee's experts, the state commerce commission rejected the plan to let the elevated run these buses and authorized the surface lines to operate them.

Yesterday at the committee's hearing the receivers for the Rapid Transit company demanded that the city exercise its authority under the home rule law and stick to its agreement to let the "L" have the north-west side feeder buses.

Argue Merits of Plans.
Said the receivers' attorney, Frank Gardner:

"The Rapid Transit lines will provide the best kind of transportation for the 250,000 persons affected."

D. F. Kelly, chairman of the bondholders' committee of the elevated lines, commented that Chicago should have a single all inclusive transportation company, but that until such an aim was realized, the "L" should run the Foster and Kimball buses for the good of the neighborhoods and of business in general.

E. J. McIlraith, attorney for the surface lines, offered evidence to substantiate his contention that the needs of the communities would be served best by letting the street car company operate the feeders.

Citizens' Views Vary Widely.

Opinions differed among residents of the affected areas. Business houses abutting on Kimball avenue prefer, for the most part, no public transportation at all. Housewives with surface lines service and loop workers urge elevated service, as do loop business men.

Aldermen at the hearing indicated they still preferred the elevated lines arrangement and were disposed to test their power under the new home rule act against the state commerce commission's ruling.

**6 CENT VERDICT
REVERSED; NEW
TRIAL ORDERED**

New York, June 5.—(AP)—The Appellate division today reversed a 6 cent verdict entered in favor of Mrs. Viola F. Raphael against Mrs. Lucy Cotton Thomas Magraw, former actress, in a trial for \$350,000 alleging slander. A new trial was ordered.

Mrs. Raphael contended Mrs. Magraw, musical comedy star of the past, had called her slanderous names. The latter had employed the plaintiff as a companion.

After a Supreme court jury had returned the 6 cent verdict, the foreman, Philip Capelli, announced in court he had changed his mind overnight and that the sealed verdict was not his. The court, however, denied a motion of counsel for Mrs. Raphael to set aside the verdict. Today's ruling upheld Mrs. Raphael's contention that the verdict was not unanimous.

Last year Mrs. Magraw was cleared of a grand jury charge that she operated a gambling house in Miami, Fla. She is the mother of one of America's wealthiest heiresses, 10 year old Lucy Cotton Thomas.

**ILLINOIS BIRTHS
DROP 150,000 IN
FIVE YEAR TERM**

Springfield, Ill., June 5.—(AP)—Public Health Director Frank Jirka today said that 25,000 fewer children arrive at school age annually in Illinois than a decade ago and that a greater difference existed in the number of persons surviving beyond the age of 55 years.

"During the last five years only 565,679 babies were born in Illinois, compared with 713,364 born in the five year period ending 1925," Jirka said.

"Trade, industry, agencies that promise cultural activities, and the medical profession will feel the influence of this change in the age characteristics of the population."

**MAN AND WOMAN
KILLED AS PLANE
FALLS IN MARSH**

Revere, Mass., June 5.—(Special.)—A pilot and a young woman were killed today when a light biplane, which witnesses said "went to pieces in the air," plunged into a marsh here. The plane's crumpled left wing was found more than 300 yards from the rest of the ship and the bodies.

Police identified the pilot, from information on a tag attached to his wrist, as Carlos E. Feirera, 20 years old, of Somerville, a member of the Revere Flying club.

That identification was confirmed by attachés of Mueller's flying field, from which the plane took off. They said Feirera introduced the young woman to them as Miss Myer.

MARSHALL FIELD & CO.

EVERY ONE A FASHION-FIND

-every one a value!

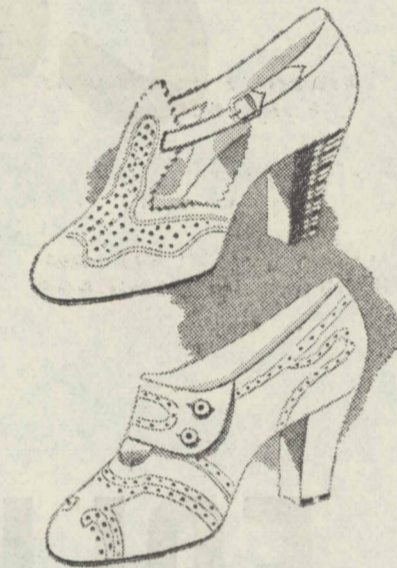

**\$3.95
SUMMER HAT
SPECIAL**

—bakers and leghorns

The two most sought-after straws of the season at one low price. Baku in chalk white, black, brown, and navy. Leghorn in natural color to wear with everything! Many more styles besides the two shown.

Millinery—Fifth Floor, Middle State

**FIELD PEACOCKS
in shining white buck
\$8.75**

Built for you with slender arch and narrow heel... for you who love faultless fit combined with nice design. And to keep you cool, they're "air-conditioned" with punch-work. Just two of twenty-five summer styles in sizes to 10... widths AAAAA to B.

Hilliard—with new high apron front and pinked edges. Off-white buck.
