

Vacation's coming
wake-up, wake-up, wake-up!...

HERE'S THE WAKE-UP FOOD

*to help little men and little women
 through the last few days of school*

POST TOASTIES, the wake-up food — there's the timely breakfast for this season of the year! For there's a food that children and grown-ups, alike, really enjoy. Delicious crackling flakes of sun-ripe corn with wholesome milk or cream! An easily digested food; an energy food; a food that releases its energy quickly to the body. Shower Post Toasties into every bowl at breakfast. Serve it at lunch, often at supper, too. It's the wake-up food!
