In choosing a bathing suit

Match your skin, not your hair!

says Adrian

Creator and Director of Fashions at METRO-GOLDYN-MAYER STUDIOS
in Hollywood

NOWHERE else does the color of the skin become so much a part of the picture as in a bathing suit. Hence the color of your skin—not the color of your hair—is the cue and clue to the bathing suit you should wear.

So says Adrian—the famous Adrian who daily designs and selects costumes worn by such outstanding movie stars as Norma Shearer, Greta Garbo, Joan Crawford, Renee Adoree, Anita Page, Bessie Love and many others.

To aid you in selecting the bathing suit that "matches" your skin, Catalina Swim Suits have been designed in an unusual variety of California sun-fast colors. You’re sure to find your particular harmonizing pattern among these smart, correct, vivacious models.

And no pucker or wrinkle will mar the smooth and shapely beauty of your "Catalina Swim Suit." For these Catalina models are made by our original Ribstitch process that prevents sagging.

Made, too, of specially twisted virgin wool—the same weight yarn found in all the best suits—but made doubly strong by our own twisting process. And what a pleasant price-surprise! Remember, you can pay more but you can’t get more in a bathing suit.

Ask your dealer to show you the latest Catalina models. Then you will realize why they are called "America’s Swim Suit Sensation"—a revelation in bathing suit style and value. Look for the Flying Fish on the label.
