

A GREAT SON OF ILLINOIS, Gen. John A. Logan, is to be honored by this memorial which will be unveiled next fall at Logan's birthplace, Murphysboro. It is the work of Leon Hermant of Chicago.

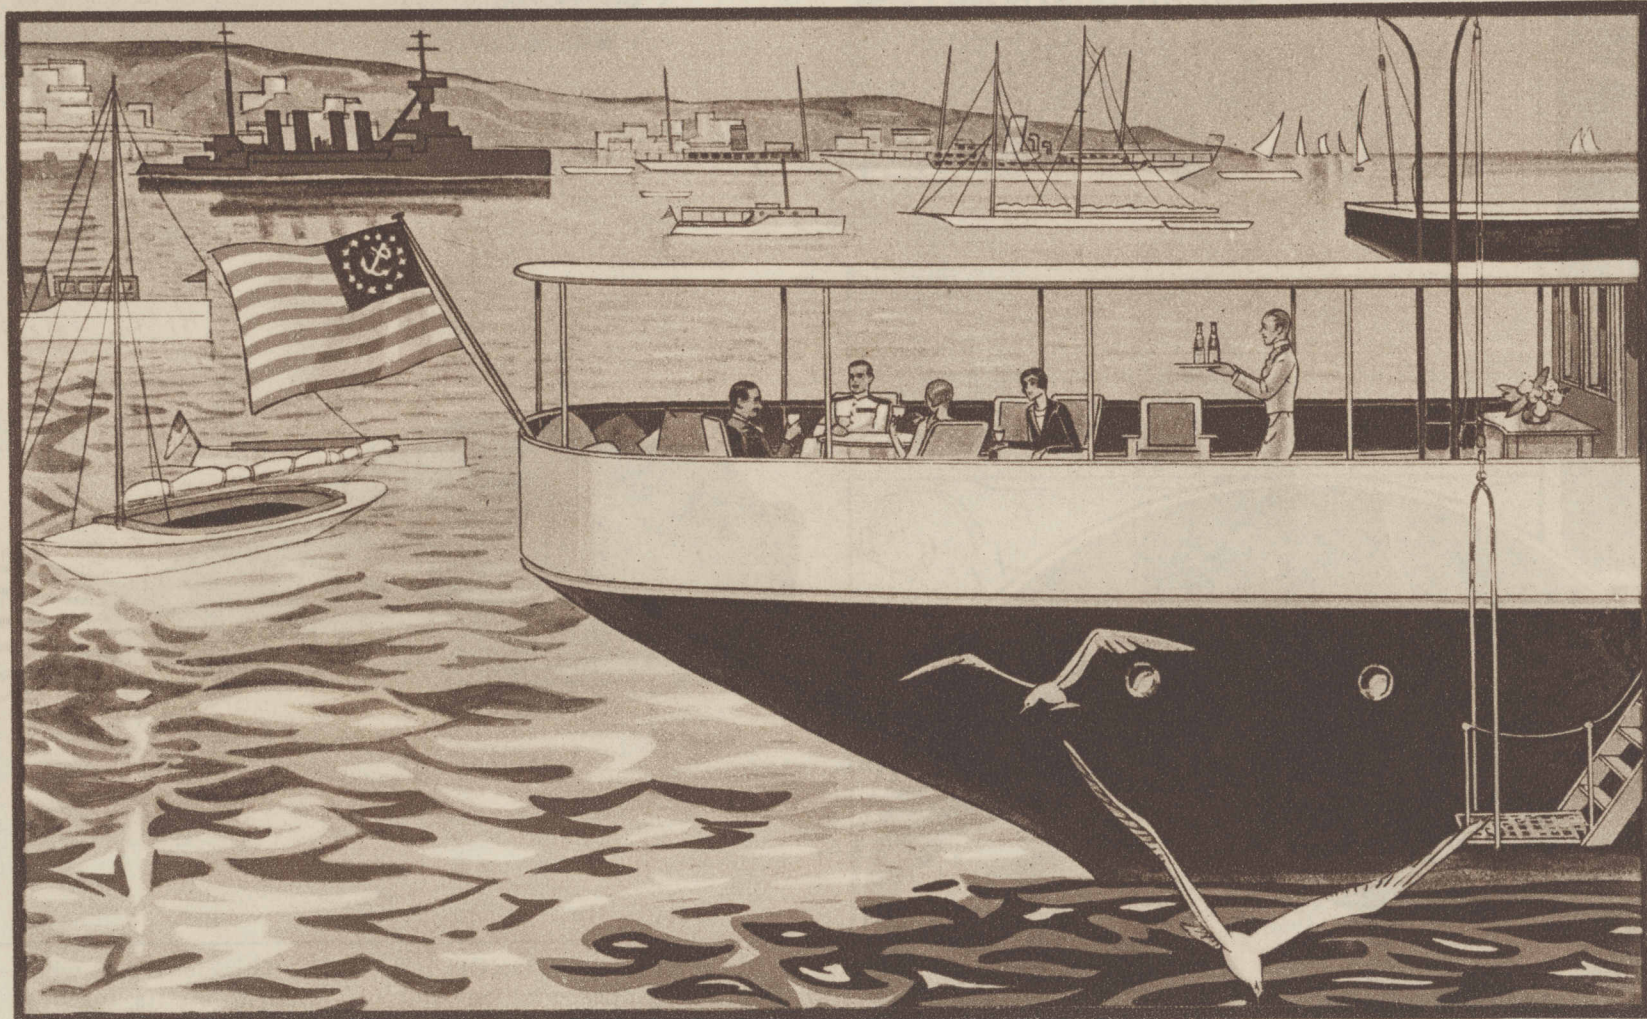

THE RACE OF THE TOY AUTOS—Madrid was treated to an unusual spectacle when these Spanish youngsters sped through one of the capital's parks in novel competition. The cars were powered with electric motors. (Photograph from Underwood & Underwood.)

Outer Harbor at Newport

TEA-TIME ABOARD

IN A light summer breeze which blows under the deck awning, the talk runs from who was at Bailey's Beach this morning to the latest convert to airplane commuting—and the kind of plane he owns. The Flower Show and the Dog Show are topics of pleasant gossip. Yachts... motor-cars... horses... personalities... make up their engaging conversation.

There's "Canada Dry" to grace the occasion—like the aristocrat it is

And associated with such charm and grace of manner, such assurance and stability, is "Canada Dry" Ginger Ale. For

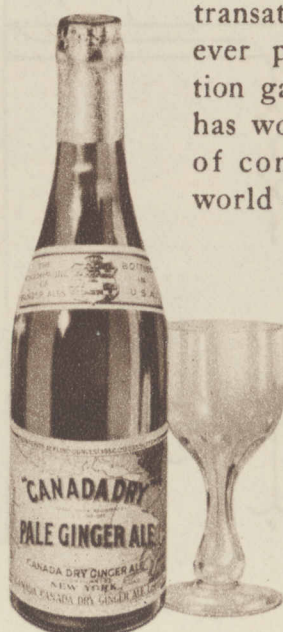

real people like real things—good things—unchanging things.

The quality and flavor of "Canada Dry" always refresh and delight

Absolutely pure ingredients give "Canada Dry" basic excellence. Jamaica ginger of the highest quality makes it a real ginger ale. Its process of blending and balancing is done in exact, carefully determined proportions. Hourly check-ups prevent variation from these proportions. Daily tests under laboratory methods assure the purity of this fine old ginger ale. And because it is carbonated by a secret method, "Canada Dry"

retains its delightful, delicious sparkle long after the bottle is opened.

When you drink ginger ale you drink a delightful and refreshing beverage. When you drink "Canada Dry" you drink a finer, keener, "drier" ginger ale. It is the favorite in countless homes throughout this country and Canada. You'll find it in New York hotels... in London... in Paris... on the best transatlantic boats... wherever people of discrimination gather. "Canada Dry" has won the approving nod of connoisseurs the wide world over.
