

CIVILIAN LEADERS MAP CAMPAIGN TO REVIVE BUSINESS

Plan Drive to Stimulate
Public Confidence.

Creation of a new Chicago organization to stimulate business and promote social progress was announced yesterday by John T. Pirie Sr. It is the Citizens' Committee on Public Information. Pirie is the first chairman.

The committee, Pirie said, will consist of 100 men and women representative of Chicago enterprise.

"It will seek to assure Chicago's leadership in the nation-wide movement toward better times," he said. "This will be done through marshaling every possible source of private and public energy and action."

Coordinate all Facions.
"The committee hopes to promote better business, labor, industry and government in the belief that heightened cooperation will provide the basis for sustained local economic recovery."

The first public effort of the organization, he said, will be a series of weekly round table radio discussions of problems and plans affecting the welfare of the community. The first of these will be broadcast over WENR Tuesday evening from 9:30 to 10 o'clock.

Speakers will include Fred W. Sargent, president of the Chicago and North Western railway; Joseph D. Keenan, secretary of the Chicago Federation of Labor; and Mayor Edward J. Kelly. The subject will be "Jobs for Thousands" and the speakers will deal with the possibilities of reemployment in private industry and in connection with projected public improvements.

Committee Is Nonpartisan.
"The committee," said Chairman Pirie, "is nonpartisan. Its purpose is to enlist a wider public interest in current affairs in Chicago. It will welcome the constructive counsel of every citizen."

The radio broadcasts, he said, will be given each Tuesday if present plans are carried out. The tentative schedule calls for discussion of transportation, relief, schools, taxation, and other subjects.

Mayor Kelly gave the new organization his approval in a statement emphasizing the importance of community confidence in economic revival.

"I am satisfied," said the mayor, "from numerous talks with business, industrial, labor, and political leaders that the city needs only a springboard of confidence to achieve substantial gains in pay rolls and purchasing power."

"Defeatism and doubt have mo-

opolized public thinking, smothering what tendency there has been to look at the bright side. There is a definite opportunity for such a body as this to rally the spirit of enterprise that is so important to economic and social progress.

"To read the signposts, to translate the barometers of business and government activity into simple terms, will be worthy of the best efforts of the Citizens' Committee on Public Information."

Those who already have accepted

membership on the committee include the following:
John A. Holabird
T. L. Gollightly
