### with the Japs.

GEN. MacARTHUR'S HEADQUAR-TERS, Australia, Aug. 25 [Tuesday] (P).—Four of a group of 13 Japanese Zero fighter planes encountered over eastern New Guinea were shot down by allied airmen and others were damaged, a communique announced today.

One allied plane was damaged, but returned to its base.

Another Japanese fighter plane was set on fire and "probably destroyed' when two Japanese craft sought to intercept an allied reconnaissance unit over Rabaul, New Britain, the communique said.

Japanese ground patrols were dispersed at Kokoda, on the Papuan peninsula, where the invaders have been attempting to strike overland toward Port Moresby.
