The Knit-tex Coat \$ 27⁵⁰

ABOVE is an actual photograph showing how a Knit-tex Coat looks on an average man, and that is the way it will look on you.

The reasons why Knit-tex Coats are worn by so many thousands of men are many. The fabric is a special exclusive cloth of unusual wearing quality, yet it is soft and very fine in appearance. The coat provides snug warmth on all but the very coldest days of Winter yet always feels light in weight in mild weather. It is drizzle-proof, never wrinkles, never gets out of shape and seldom needs pressing. You will wear it to business, for evening-wear, for traveling, for motor-

ing, and for every other purpose that a topcoat is used. Angora Knit-tex — running mate to Knit-tex — is a coat of very great luxury. It derives its unusual softness of texture and its luxurious appearance from the long hairs of the Angora goat — an animal which lives in mountainous regions where the days are hot and the nights very cold. Because of these two extremes in climate, Nature has given Angora hair ample warmth and little weight.

That is the reason the Angora Knit-tex Coat is adaptable to all types of weather. It would appeal to men who seek something especially fine.

Go to the Knit-tex store in your city and try on one of the many new Fall Knit-tex styles. You will find that store listed in the columns at the left.

The Angora Knit-tex Coat \$ 32⁵⁰

Tailored by Cohen, Goldman & Co., 45 West 18th Street, New York, N. Y.
