

In the Air Defenses of Paris

America's Best Known Baby
cooks vegetables specially for your baby...

It is not enough to grow vegetables specially for your baby. Gerber's also cooks these vegetables specially for your baby. Their precious vitamins and minerals are safeguarded by Gerber processes. Scientific equipment—too costly for home use—prepares baby's meals better than can be done in your own kitchen even with your painstaking care. Despite these advantages, Gerber's Baby Foods cost no more.

Further still, Shaker-Cooking—an exclusive Gerber process—cooks food evenly inside sealed cans to preserve natural color and flavor.

For baby's sake, buy the baby foods bearing the picture of America's Best-Known Baby.

ARRID

39¢ a jar At all stores selling toilet goods (also in 10¢ and 59¢ jars)

IMPORTANT IN FRENCH AIR DEFENSE, as well as English, is this 40 mm. gun made by the Bofors works of Sweden. It fires 140 shots per minute with a maximum range approaching 13,000 yards and a maximum altitude of about 5,400 yards. The 2.2 pound projectile, exploded by percussion, is said to be so sensitive that it explodes on slightest contact with a plane.

A SOUND LOCATER IN A PARIS POST—The device spot planes approaching from a distance.

CENTRAL POST of a Paris air defense station. These soldiers operate an anti-aircraft director, with the aid of which they automatically regulate the leveling of a number of guns connected with it, controlling angles and ranges. The horizontal cylinder in the background is a height finder.
