**THE HOUSE OF WORSTED-TEX**

EXCLUSIVE MAKERS OF

*The British Lounge Model*

\$30 • \$35 • \$40

This new and modern type of clothing design, the British Lounge\* Model, effects remarkable improvements in your figure. It seems to add inches to your height, depth to your chest and slenderness at the hips.

The longer jacket, lower button placement, lower waistline and tapered sleeves and trousers create the taller look. Extra fullness of fabric at the chest, plus the wider sweep of the lapels heighten the illusion of more athletic chest. The slimmer-hipped look is achieved by the modeling at the waist and by the contrast to the wider-seeming shoulders.

The British Lounge\* Model is available in all suits made by the House of Worsted-tex in the fabrics described below.

**WORSTED-TEX SUITS**

LINED WITH SUPER CELANESE RAYON

\$40

Many textile experts have described Worsted-tex cloth as the finest example of worsted suiting woven in America and comparable to many imported fabrics. It is made from the best pure worsted yarns, has a wonderful softness of texture and a resilient pliancy of drape. The patterns are of correct English design and woven exclusively for Worsted-tex Suits. The tailoring is as fine as the fabric.

Every detail of these clothes is refined. Even the trousers' closure is the fabric-covered Kover-zip—no metal shows.

**SAXON-WEAVE SUITS**

\$35

There are pure worsted and pure worsted-cheviot fabrics featured in Saxon-weave Suits. They are of fine texture and much higher in quality than you would ever expect at the modest price of \$35, both in fabric and in excellence of tailoring. Saxon-weave Suits possess a quiet but definite distinction for the well-dressed man who appreciates richness of styling handled with restraint.

**"BRASHY"\*\*\*TWEED SUITS**

\$30

University men and younger men generally will be attracted to these colorful "Brashy" Tweeds — which are exact counterparts of the finest Scottish Tweeds in which the rare color effects were obtained from the juices of herbs, berries and other native vegetation. Unlike most tweeds, "Brashy" Tweeds will wear very well, hold their shape and never look or feel bulky.
