I think sometimes that women who are at home all of the time do not realize what a wonderful thing advertising is. Some one has called advertising the wonder of the larly is a real situation now that women have modern world, and it is a powerful factor in the success of any business. Have you ever thought about how many of the every day

Kind That Pulls Best.

"They usually say they have seen my ads so frequently they think I must know whether or not it pays to advertise, and they come to ask me before they put in the first one. Recently a woman came to ask me if I got any answers from the advertisement I put in about infants' wear. She said she had had an ad in about that very thing and had received only one answer. I invited her into the parlor, and then I began to talk to her. I asked her if she had put her name and address into the ad or if she had had the ad appear over a blind number. She said she hadn't had her name and address. Then I told her if she wanted the work she oughtn't to be ashamed to put the ad in over her own name. I told her how it had been with methat I had had more than I could do, and that if I had known at the time when I was refusing work that she wanted the same kind of work I could have sent her the people whom I had to turn away.

" She said she was so well pleased to find a successful home worker and to see that I was willing to help her that she was really cheerful again.

pecially at Christmas time, making neckpieces. She crochets two small wheels of medium fine thread, about three inches in diameter, with holes in the center large enough to insert velvet ribbon one-half to All her friends for whom she has made three-fourths of an inch wide. She laps one wheel a little over the other, sewing together, and draws the ribbon through the holes one-eighth of a yard long of different colors, as

red, blue, green, and black. She charges 25 cents for these and can make a set in an hour. They make dainty presents, cheap for the MINNIE M. ANDA, one who gives it.
