MACHINE AGE MODELS

(Photo from Tribune London Bureau.)

1 At right: Machine age methods are creeping into the field of art. For centuries artists have required long hours of posing by living models such as this girl.

3 Television engineers, testing their machines for color reproduction, eliminate this strain on living models by using one that is beautiful, dumb, and efficient—a life-size dummy that doesn't droop, doesn't change expression or color during the long, hot hours of experimenting.

TWO THIN LAYERS

WOOL in outer layer—PROTECTION
COTTON in inner layer—COMFORT

ALL POPULAR STYLES AND LENGTHS—SPORTS WEAR FOR MEN AND WOMEN

Duofold is made of an utterly different, scientifically correct fabric. Two ultra-thin, knitted fabrics interlocked with an insulating air space between. The inner layer, worn next the skin, is soft absorbent cotton. The outer layer contains virgin wool. . . . You get the warmth and needed protection of wool and the comfort of cotton.
