Hunt's Dance the NEW STEPS

The Correct Position

The Right One

At an old dance, you'll find many people who have never danced before. They may be shy or just not interested in dancing. However, there are several basic steps that everyone can learn. The most common are the waltz, foxtrot, tango, and swing. Each of these dances has its own set of moves and rhythms. With practice, anyone can learn to dance and enjoy the social aspect of it.

Janagrams on Dancing

Janagrams are a fun way to remember the steps in a dance. For example, to remember the waltz, you can use the following:

- Foxtrot: For, Trot, Trot, For.
- Tango: Tan, Go, Go, Tan.
- Swing: Swing, Swing, Swing.

This can help you remember the steps and make dancing more enjoyable.

Now, it's time to get up and dance!
