FLYING TACKLE! In one of the most remarkable action pictures of the football year, an unidentified Carnegie Tech player reaches hard for Kaplan of Notre Dame, even though he gets only a fraction of an instant earlier by an opponent in the interference. The story of the camera is rightly interpreted: Kaplan, however, shook loose and gained ground. It was Notre Dame's day, in this thriller at Pittsburgh, by a score of 7 to 0.

HAWKEYES BUMP THE BADGERS OUT OF BIG TEN RACE—You see Darrow of Iowa going over for the first touchdown in the 14 to 6 defeat of Wisconsin at Madison. Free-for-all fighting followed the game when Hawkeye rooters attempted to pull up goal posts in delirious celebration of victory.

WHEN VALE ROUTED THE ARMY in the spectacular 21 to 12 affair in the Bowl at New Haven, it was 144-pound Alba Smith of Old Eli who did all the scoring. Thanks to magnificent blocking, plus a dazzling style all his own, Alba chalked up all three of Yale's touchdowns and kicked all three goals. Here he goes, ripping through the husky cadet line for a gain of twenty yards.

AMERICA HONORS MME. CURIE—The co-discoverer of radium, newly arrived in the states from France, visited St. Lawrence university at Canton, N. Y., and dedicated a chemistry hall in her first public address. With her is Owen D. Young.

HONORING THE MEMORY OF T. R.—Boy Scouts took part in the annual pilgrimage to Oyster Bay on the day before the seventy-first anniversary of Roosevelt's birth. Because it fell on Sunday, Navy Day, normally celebrated on the former President's natal day, was given official recognition last Monday.

GIRL STARS of achievement paid homage to distinguished women of the past and the present last Sunday at the Roydenbaker theater. Four girl athletes participating, left to right, were Betty Buckett, Jane Noonan, Betty Robinson, and Elizabeth Dubois, champions, respectively, of archery, the baton, the track, and skating.

OUT FOR A REFUELING RECORD—Bobbie Trout, 22, and Eleanor Smith, 19, past and present holders, respectively, of the women's solo endurance flight record, combine forces in an effort to smash the man-made record. Miss Trout, as she demonstrates, will handle the fuel line, and Miss Smith will operate the controls.
