Where else could you find a more effective medium than in Tribune rotogravure! The blend of soft tones, the charm of perfect reproduction, the pictorial appeal will create a desire for possession. Achieve them with

TRIBUNE ROTOGRAVURE

No Watching, No Turning, No More Burnt Toast

If you ever see this automatic toaster work, you'll never again be happy with the toaster you're now using.

It's really a wonderful thing. In some 175,000 homes, people have shelved their old-type toasters for it. More than a mere "toaster." An efficient toastmaking machine that works itself-automatically.

Without watching or turning, it gives you the EXACT kind of toast that you want-EVERY TIME.

If your choice is medium toast, you set a little indicator that way, slip in a slice of bread—and go on thinking about other things.

In a few seconds you hear a "pop"—your toast is done and discharged automatically; the electric current automatically turned off.

That's all. It can't burn toast. If you want light brown toast, it gives it to you just that way. If dark brown—just that way. No watching; no bother; no grief.

No Other Like It in the World

It is called the Toastmaster. Protected under U.S. Patents, there is no other like it.

Electric Light Companies, Department Stores, and Electric Shops everywhere you go have the Toastmaster on display.

bread in oven-set in-dicator for EXACT kind of toast you want.

Press the levers down —then forget you are making loast.

3 "Pop"! and it's there on top. Just the kind of toast you ordered.

It toasts both sides at once. Thus the toast is supremely better. It never goes "wrong" even once. You can leave the room while it's operating.

See TODAY

Buy no toaster, for yourself or as a gift, before seeing the Toastmaster. See it work, just once. Then you'll know why it has supplanted old-time toasters in over 175,000 homes. Why thousands are flocking to it.
