BEAUTY IN PHILIPPINES RESISTS MELTING POT

By Joseph U. Dungan

FlEUPIO is the native name of the inhabitants of the Philippine Islands. It is native, of course, to those of the Filipinos as members of a race that has been under the Spanish and American influence for over 300 years. Spanish and American schools and institutions of higher learning have flourished and gone to the Filipinos. American schools and colleges have presented an opportunity for the Filipinos to learn the arts and sciences of a modern world. The Spanish and American influence on the Filipinos has been a slow and steady process. The Filipinos have been able to absorb the influence of the Spanish and American cultures without losing their own identity. The Filipinos have a rich and varied culture that is unique and distinct from other cultures.

In 1900, the American government sent a commission to the Philippines to study the conditions of the Filipinos and to make recommendations for their improvement. The commission recommended the establishment of schools and colleges to educate the Filipinos and to prepare them for citizenship in the United States. The Filipinos have been able to absorb the influence of the American culture without losing their own identity. The Filipinos have a rich and varied culture that is unique and distinct from other cultures.

The Filipinos are a people of great dignity and grace. They have a rich and varied culture that is unique and distinct from other cultures. The Filipinos have a rich and varied culture that is unique and distinct from other cultures. The Filipinos have a rich and varied culture that is unique and distinct from other cultures.
