

**THE CHINESE EVACUATION OF MUKDEN**—With the approach of the Japanese army, the Chinese entrained and abandoned the Manchurian city to the Nipponese invaders. This picture shows a group of Chinese soldiers on a train of flat cars about to move out of the Mukden station. (Tribune photo.)

**THE JAPANESE IN MUKDEN**—A section of the Japanese army rests at a Mukden street corner after their entry into the Manchurian city. The tin hats, fixed bayonets, and entrenching tools give a businesslike appearance to the proceedings.

**A PRINCESS IN A COOKING SCHOOL**—Princess Ingrid of Sweden is pictured washing dishes at a Swedish culinary school. The dishwashing world is divided into two classes: those who prefer washing dishes to wiping them and those who prefer wielding the towel to dipping the digits in suds. Her royal highness is apparently an exponent of the suds party. (Acme photo.)

### Forty-six Foot Specialists were asked to judge

They examined twelve different trade-marked shoes: brand names were concealed. Each doctor's vote was based on appearance, construction, efficiency and comfort. Results:

*The Old-Time Beer*  
**can't be Made at home**

**THE** very foundation of home brew is based on a myth. For, after all, even an expert can't make beer at home. Millions no longer try because they realize they were seeking a result that is not there.

Don't upset your stomach and tax your digestive organs with a drink so green, so crude that it defeats the very ends you seek. Don't allow the idea of one forbidden factor excuse a drink so vile that ordinarily you would treat it with disdain.

Atlas Special Brew is made by the same masters who made Atlas Beer. They use the same process, the same skill and materials. The same selected barley malt, the finest domestic and imported Bohemian hops.

In the brewing they develop the old alcoholic content. After the brew has been aged

for months to ripen, they extract the alcohol to meet the law. All else is there.

Atlas Special Brew meets every legal and health requirement. It comes to you pasteurized in the bottle, so pure that doctors endorse it and a famous laboratory certifies every bottle.

Once you taste it, once you note its foam and flavor, its aroma and zest, you will never be satisfied with harmful substitutes. It costs only 15 cents a bottle, much less by the case of 24 bottles delivered to your door. Over 30,000 neighborhood stores supply it. Look for the green Atlas Special label on each bottle. Just ask your dealer or phone us. Atlas Brewing Company, 2107 Blue Island Ave., Chicago. Twenty phones: Canal 6200, Roosevelt 4500.
