ARTICLE 2

NON-DISCRIMINATION

ARTICLE 3
MANAGEMENT RIGHTS

Except as expressly and specifically limited by the provisions of this Agreement, the Authority retains and reserves all rights of management, which shall be exercised by the Authority in its sole discretion. Such rights include, by way of example but not limitation, the rights to the executive management and administrative control of the Authority, its properties and facilities, and the activities of its employees; to hire, assign, schedule, promote, and transfer employees, including the exercise of judgment as to requirements and qualifications; to determine the size and disposition of the work force, whether and by whom work will be performed, and whether required work will be performed by Bargaining Unit employees or by others; to determine the equipment and facilities to be used; to affect changes in methods, operations, facilities, systems and equipment; to discharge, suspend, demote and discipline employees for just cause; to lay off employees for lack of work or other good reason; to maintain efficiency and order, including the right to establish and enforce reasonable work rules and rules of conduct for all employees; to determine the locations of the Authority's parks, offices and other facilities.

ARTICLE 4
SICK LEAVE

Section 1: Sick Leave Accumulation

Employees shall accumulate Sick Leave with pay at the rate of four (4) hours per each completed eighty (80) hour pay period. There shall be no limit on the accumulation of sick leave.

Sick Leave, although earned, shall be allowed only after an employee has completed six (6) months of service.

Sick Leave shall not accrue during leaves of absence without pay or when an employee is on Long Term Disability.

Section 2: Sick Leave Taking

Sick Leave with pay is intended to cover incapacity due to personal illness and certain other specific absences (listed in the "Allowable Periods" Section below). It is not

intended to cover personal malingering; and any suspicion of such will require the employee to produce a medical certificate justifying the reason for such absence.

- A. To receive authorization for the use of Sick Leave, an employee must submit HCMA Form #114, "Application for Leave."
- B. Approved Sick leave hours are considered work hours. Holidays falling within a period of Sick Leave shall not be charged as sick leave hours.
- C. Sick Leave taking shall be figured in increments of two (2) hours.
- D. In cases of extended illness, use of compensatory leave may be authorized after all accumulated Sick and Annual Leave hours have been exhausted.
- E. Annual Leave will not be authorized to cover Sick Leave or absence listed in the "Allowable Periods" Section except where authorized after Sick Leave has been exhausted.

Section 3: Allowable Periods

Absence from work chargeable to Sick Leave are listed as follows:

- A. Personal illness or physical incapacity caused by factors over which the employee has no control.
- B. Exposure to contagious disease in which the health of others would be endangered. Written verification by proper medical authority is required.
- C. Physical examination, medical treatment or other medical procedures relating to disability pensions, etc., by the Veteran's Administration, Draft Board or any branch of the Armed Forces.
- D. Illness of an immediate family member who requires the employee's personal care and attention. The term "immediate family" as used in this section shall mean spouse, parent, grandparent, child, brother or sister of the employee or a member of the employee's household.

Section 4: Transfer of Sick or Annual Leave

When an employee requests to transfer sick or annual leave to an employee that is ill and has exhausted all sick, annual and compensatory leave, such transfer of leave shall be subject to the conditions listed below:

- A. Said employee receiving said sick or annual leave shall have exhausted all sick, annual, and compensatory leave.

- B. The circumstances are such that it is likely that the employee will return to duty.
- C. The employee receiving said sick or annual leave is a full-time employee.
- D. Sick or annual leave shall not be transferred to an employee known to be considering retirement or resignation or whom disciplinary action is pending.
- E. No employee who has been warned in writing of possible abuse of sick leave within the past twelve (12) months shall be eligible to receive a transfer of sick leave.
- F. Sick leave days transferred shall be treated as if they were used by the employee for purpose of bonus computation.

Section 5:

An employee injured in an accident arising out of and in the course of employment with the Authority shall receive Sick Leave as a supplement to worker's compensation, the combination thereof, not to exceed 100% of base pay.

A job-related injury must be reported to an employee's supervisor immediately after the occurrence of said injury.

Section 6: Prolonged Illness

An employee with an extended illness shall first use all accumulated Sick Leave after which the employee may continue on the payroll through the use of accumulated Annual Leave and Compensatory Leave. Once all leave has been exhausted, the employee shall be placed on "Leave Without Pay."

Should an employee be placed on "Absent on Leave Without Pay" after exhausting all accumulated Sick, Annual and Compensatory Leave due to extended illness or disability, the employee will be credited with four (4) hours of Sick Leave for his final pay period if the employee has been on the payroll for at least sixty-four (64) hours of that pay period.

Section 7:

Accumulated Sick Leave will be frozen during an approved Leave of Absence.

ARTICLE 5
SICK LEAVE BONUSES

Section 1: Sick Leave Bonus

To encourage employees to accumulate rather than expend Sick Leave at the slightest excuse and to reward injury-free performance, the Authority will authorize a bonus payment for unused Sick Leave. The eligible employee must not have utilized more than forty-eight (48) hours and must have banked at least fifty-six (56) hours of Sick Leave during the payroll year.

Sick Leave Bonus shall be calculated as of the last pay period of each payroll year. Payment shall be made the second (2nd) pay day of January based on the employee's previous year's base rate.

For Sick Leave hours in excess of 520 up to 1,040 aggregate accumulation (Sick Leave Bank), the Bonus shall be twenty-five percent (25%) of the payroll year's unused Sick Leave accumulation. The Sick Leave Bonus payment does not reduce or otherwise affect the employee's Sick Leave Bank.

For Sick Leave hours in excess of 1,040 up to 1,600 aggregate accumulation (Sick Leave Bank), the Bonus shall be fifty percent (50%) of the payroll year's unused Sick Leave accumulation. The Sick Leave Bonus payment does not reduce or otherwise affect the employee's Sick Leave Bank.

The 520 hour and 1,040 hour thresholds in the above two paragraphs shall not apply to employees hired prior to March 14, 1991 until the last pay period of 2002 (for 01/2003 payment). Thenceforth, all employees shall be subject to the thresholds.

For Sick Leave hours in excess of 1,600 aggregate accumulation (Sick Leave Bank), the fifty percent (50%) bonus above shall be paid without affecting the employee's Sick Leave Bank. The employee shall also have the option of being paid an additional twenty-five percent (25%) of the payroll year's unused Sick Leave accumulation. However, if the twenty-five percent (25%) option is selected, seventy-five percent (75%) of the payroll year's unused Sick Leave accumulation shall be eliminated from the employee's Sick Leave Bank.

In the case of an approved leave of absence, retirement or death, an employee shall receive a pro-rated Sick Leave Bonus. No bonus shall otherwise be paid in the year an employee terminates employment.

Section 2: Termination Sick Leave Bonus

As a reward for faithful service, the Authority has authorized a cash payment of fifty percent (50%) of a maximum of sixteen hundred (1,600) Sick Leave hours at an employee's current rate of pay upon retirement or death.

Upon termination of employment, after ten (10) years of service, an employee in good standing will be paid fifty percent (50%) of their accumulated Sick Leave at their current rate of pay, subject to the 1,600 hour limit.

Employees have the option of receiving fifty percent (50%) of their Termination Sick Leave Bonus in the first year of retirement, and fifty percent (50%) in the second year of their retirement.

There shall be no Cost of Living Bonus payments for the term of this Agreement. It is agreed that COLA (in accordance with Section 3 below) shall become effective January 1, 2004 for May payment if no working agreement has been reached by that date. However, if a May COLA payment is made, there shall be no retroactive wage adjustments. It is understood this provision can be altered by mutual agreement.

Section 2: Eligibility

To be eligible for the full amount of the bonus, the employee must be on the active payroll at the end of the period that forms the work base.

New employees must work one thousand forty (1,040) straight time hours before becoming eligible to receive a pro-rated Cost of Living Bonus in accordance with the provisions of Section 4.

Should an employee leave employment in advance of the end of the work base period, the Cost of Living Bonus shall be based on the index used in the previous work base period and pro-rated on the number of straight time hours actually worked in the period they terminate employment.

Section 3: Computation

The Cost of Living Bonus will be computed as follows for January 1, 2004 to December 31, 2004:

- A. Based on the U.S. Bureau of Labor Statistics, Consumer Price Index for all Urban Consumers - Detroit, MI "All Items less Medical Care" (1967 = 100) at the rate of \$.01 per hour (regular hours only) for each 0.4 index change to the nearest \$.01. The base factor for this computation will be the index figure for August, 2003. The index figure for the last month of each work base period will be compared with August, 2003 figure to establish the adjustment for the next succeeding period, up or down, except no adjustment will be made should the index fall below the August 2003 index figure.
- B. In no event shall the total January 1, 2004 to December 31, 2004 incremental change in the Cost of Living Bonus be greater than the total growth experienced in 2003. The 2003 growth will be computed by comparing the August, 2003 index figure with the August, 2002 index figure.

Unless otherwise agreed, effective January 1, 2005 the entire Cost of Living Bonus computed under Section 3-A will be folded into the base rate of each employee.

The cap shall be computed on the same basis as the bonus except that in no event shall the cap be less than zero.

- C. It is agreed that the continuance of the Cost of Living Bonus is dependent upon the availability of the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers in its present form.

Section 4: Payment

Payment is based on the regular hours of the current period and the previous ending period C.P.I. reading. Payment schedules are as follows:

<u>Work Base Period</u>	<u>Payments In</u>	<u>Index</u>
January through April	May	December
May through August	September	April
September through December	January	August

Payments shall be made with the first full payroll following the work base period unless unusual circumstances arise.

Due to the timing difference between "payroll" ending dates and "calendar" ending dates, it shall be assumed employees work six hundred ninety three (693) straight time hours each work base period even though some periods they may work more or less.

Employees who work less than the full number of straight time hours in a "payroll work base period" will have the COLA Bonus based on six hundred ninety three (693) hours less the number of straight time hours short of the normal hours worked in the "payroll work base period."

New employees must work one thousand forty (1,040) hours before becoming eligible to receive fifty percent (50%) of the COLA Bonus and will receive a pro-rated amount of the bonus, based on the actual straight time hours worked in the work base period, after serving the required qualification period.

Said employees must work a total of two thousand eighty (2,080) hours before becoming eligible to receive one hundred percent (100%) of the earned bonus and will receive a pro-rated amount of the bonus, based on the actual hours worked in the work base period, after serving the required qualification period.

The payment for the work base period September through December will take into account the actual number of straight time hours worked in the calendar year. (This may be two thousand eighty-eight (2,088) or two thousand ninety-six (2,096) hours).

HEALTHSTYLE - A SELF-TEST

All of us want good health. But many of us do not know how to be as healthy as possible. Health experts now describe lifestyle as one of the most important factors affecting health. In fact, it is estimated that as many as seven of the ten leading causes of death could be reduced through common-sense changes in lifestyle. That's what this brief test, developed by the Public Health Service, is all about. Its purpose is simply to tell you how well you are doing to stay healthy. The behaviors covered in the test are recommended for most Americans. Some of them may not apply to persons with certain diseases or handicaps, or to pregnant women. Such persons may require special instructions from their physicians.

WHAT YOUR SCORES MEAN TO YOU

Scores of 9 and 10

Excellent! Your answers show that you are aware of the importance of this area to your health. More important, you are putting your knowledge to work for you by practicing good health habits. As long as you continue to do so, this area should not pose a serious health risk. It's likely that you are setting an example for your family and friends to follow. Since you got a very high test score on this part of the test, you may want to consider other areas where your scores indicate room for improvement.

Scores of 6 to 8

Your health practices in this area are good, but there is room for improvement. Look again at the items you answered with a "Sometimes" or "Almost Never". What changes can you make to improve your score? Even a small change can often help you achieve better health.

Scores of 3 to 5

Your health risks are showing! Would you like more information about the risks you are facing and about why it is important for you to change these behaviors? Perhaps you need help in deciding how to successfully make the changes you desire. In either case, help is available.

Scores of 0 to 2

Obviously, you were concerned enough about your health to take the test, but your answers show that you may be taking serious and unnecessary risks with your health. Perhaps you are not aware of the risks and what to do about them. You can easily get the information and help you need to improve, if you wish. The next step is up to you.

YOU CAN START RIGHT NOW

In the test you just completed were numerous suggestions to help you reduce your risk of disease and premature death. Here are some of the most significant:

AVOID CIGARETTES.

Cigarette smoking is the single most important preventable cause of illness and early death. It is especially risky for pregnant women and their unborn babies. Persons who stop smoking reduce their risk of getting heart disease and cancer. So if you're a cigarette smoker, think twice about lighting that next cigarette.

If you choose to continue smoking, try decreasing the number of cigarettes you smoke and switching to a low tar and nicotine brand.

FOLLOW SENSIBLE DRINKING HABITS.

Alcohol produces changes in mood and behavior. Most people who drink are able to control their intake of alcohol and to avoid undesired, and often harmful, effects. Heavy, regular use of alcohol can lead to cirrhosis of the liver, a leading cause of death. Also, statistics clearly show that mixing drinking and driving is often the cause of fatal or crippling accidents. So if you drink, do it wisely and in moderation. Use care in taking drugs. Today's greater use of drugs - both legal and illegal - is one of our most serious health risks. Even some drugs prescribed by your doctor can be dangerous if taken when drinking alcohol or before driving. Excessive or continued use of tranquilizers (or "pep pills") can cause physical and mental problems. Using or experimenting with illicit drugs such as marijuana, heroin, cocaine, and PCP may lead to a number of damaging effects or even death.

EAT SENSIBLY.

Overweight individuals are at greater risk for diabetes, gall bladder disease, and high blood pressure. So it makes good sense to maintain proper weight. But good eating habits also mean holding down the amount of fat (especially saturated fat), cholesterol, sugar and salt in your diet. If you must snack, try nibbling on fresh fruits and vegetables. You'll feel better - and look better, too.

EXERCISE REGULARLY.

Almost everyone can benefit from exercise - and there's some form of exercise almost everyone can do. (If you have any doubt, check first with your doctor). Usually, as little as 15-30 minutes of vigorous exercise three times a week will help you have a healthier heart, eliminate excess weight, tone up sagging muscles, and sleep better. Think how much difference all these improvements could make in the way you feel.

LEARN TO HANDLE STRESS.

Stress is a normal part of living; everyone faces it to some degree. The causes of stress can be good or bad, desirable or undesirable (such as a promotion on the job or the loss of a spouse). Properly handled, stress need not be a problem. But unhealthy responses to stress - such as driving too fast or erratically, drinking too much, or prolonged anger or grief - can cause a variety of physical and mental problems. Even on a very busy day, find a few minutes to slow down and relax. Talking over a problem with someone you trust can often help you find a satisfactory solution. Learn to distinguish between things that are "worth fighting about" and things that are less important.

BE SAFETY CONSCIOUS.

Think "safety first" at home, at work, at school, at play, and on the highway. Buckle seat belts and obey traffic rules. Keep poisons and weapons out of the reach of children, and keep emergency numbers by your telephone. When the unexpected happens, you'll be prepared.

WHERE DO YOU GO FROM HERE?

Start by asking yourself a few frank questions: Am I really doing all I can to be as healthy as possible? What steps can I take to feel better? Am I willing to begin now? If you scored low in one or more sections of the test, decide what changes you want to make for improvement. You might pick that aspect of your lifestyle where you feel you have the best chance for success and tackle that one first. Once you have improved your score there, go on to other areas.

If you already have tried to change your health habits (to stop smoking or exercise regularly, for example), don't be discouraged if you haven't yet succeeded. The difficulty you have encountered may be due to influences you've never really thought about - such as advertising - or to a lack of support and encouragement. Understanding these influences is an important step towards changing the way they affect you.

There's Help Available. In addition to personal actions you can take on your own, there are community programs and groups (such as the YMCA or the local chapter of the American Heart Association) that can assist you and your family to make the changes you want to make. If you want to know more about these groups or about health risks, contact your local health department. There's a lot you can do to stay healthy or to improve your health - and there are organizations that can help you. Start a new HEALTH STYLE today!
