- A. Employees of the School District shall not possess, use and/or distribute intoxicants or drugs on school property or at school functions and shall not report for duty or perform any work under the influence of intoxicants or drugs of any kind, in any degree whatsoever.
- B. A "drug" shall be defined as a controlled substance as found in Schedules I through V of Section 202 of the Controlled Substances Act (21 USC S 812) and as further defined by regulation at 21 CFR 1300.11, et seq. The term "drug" shall also include any controlled substance as defined in the Michigan Public Health Code, Article 7, Parts 71-75, MCLA 333. 7101, et seq., or the successor provisions of any of the above statutes or regulations.

For the purposes of the preceding sentence, a "reasonable suspicion" must be based on objective facts, including, but not limited to: (1) observation of circumstances consistent with the possession, sale, use or distribution of alcohol or a drug; (2) observation that an employee is exhibiting irregular behavior, slurred speech, uncoordinated movement or gait, stupor, excessive giddiness, unexplained periods of exhilaration and excitement, impaired judgment or (3) detection of the odor of intoxicants or drugs on an employee's breath. If an employee is physically unable to provide a urine specimen when requested by the School District, the School District may request a blood specimen for laboratory testing.
- E. Any specimen provided by an employee pursuant to this Article will be analyzed by a reputable independent laboratory using scientifically accepted tests. Urine specimens that produce a positive test result on the initial test shall be confirmed by using gas Chromatography/mass spectrometry (GC/MS) procedures. Only urine specimens that produce a positive test result on both the initial test and the GC/MS confirmation test shall be reported as a positive test result.

When reporting a positive test result derived from a urine specimen, the laboratory shall state the specific substance(s) for which the test is positive and shall report the quantitative results of both the screening and the GC/MS confirmation test in nanograms per milliliter.

- F. A confirmed positive test result from a test administered as provided in this Article shall constitute just cause for discipline (up to and including discharge) of the employee who provided the specimen. If an employee is taking a prescription medication in conformity with the lawful direction of the prescribing physician or a non-prescription medication in conformity with the manufacturer's specified dosage and the employee has notified the School District of the use of the prescription or non-prescription medication before any

ARTICLE XXIII

SAFETY & HEALTH

The conviction of an employee of any criminal offense, a legal element of which requires proof of the possession, sale, use, or distribution of a drug, shall constitute cause for discharge, regardless of whether such offense occurred during a work period.
- H. By written agreement of the School District, Association and involved employee, a first event disciplinary sanction imposed under this section shall be suspended, held in abeyance, reduced, rescinded and/or waived where the employee successfully participates in an an employee assistance and/or rehabilitation program.
