Defending God's creation

When God commanded Adam to "have dominion over the fish of the sea" (Gen 1:26) He did not mean one species of fish but all the various species, along with all the other creatures that inhabit the earth. This is the meaning of dominion. It means total control. God never intended any species of fish, nor any other creature for that matter, to be under the dominion of a species of fish. We are in control. We are the dominant species. We have dominion over the fish. We have dominion over all the animals of the earth. We have dominion over all the fish of the sea. We have dominion over all the birds of the air. We have dominion over all the beasts of the field.

And so, when the issue of creationism versus evolution comes up, we must remember that God has given us the dominion over the fish of the sea and all the other creatures of the earth. We have the right and the responsibility to protect and take care of the earth and all its inhabitants. We have the right to use the resources of the earth for our benefit, but we must do so in a responsible manner. We must be stewards of the earth and all its resources.

The issue of creationism versus evolution is a matter of faith and science. It is a matter of personal belief and it is a matter of what we choose to believe. But it is not a matter of right and wrong. It is not a matter of dominance. It is not a matter of who is right and who is wrong. It is a matter of what we choose to believe. We can believe what we want to believe, but we must remember that we are the dominant species and we have dominion over the fish of the sea and all the other creatures of the earth. We must be responsible stewards of the earth and all its resources.

The painting was done by a local artist and was displayed in the town square. The painting shows a burning building with flames licking up into the sky. The artist said he wanted to capture the feeling of urgency and hopelessness that people feel when they are in a crisis.

GOD'S LOVE HAS IGNITED THE FLAMING BRILLIANCE OF AUTUMN

The Picnics adorns the night when chintz winds wistful, and soon bring frost descending from the height, beneath the golden harvest. The leaves will turn from green to gold, with some arrayed in blowing gold. A sign the year is growing old. For soon the trees begin to shed. They strip the branches dark and bare, and lay a carpet on the ground; then pungent smoke will fill the air from barbecues burning all around. Our House of Worship teaches you God's wondrous love it always there; it paints the scene a brilliant hue. This flaming autumn time of year.

Record funds raised at BYC Auction

By Rich Svanhoover

In the seven years of its existence, the BYC (Buchanan Youth for Christ) booster club has raised money in support of the local Buddy Group event, which is held during the month of October. The event involves funding the program at the Benny Group's annual event, the Buddy Run. The Buddy Run is a 5K race that helps raise money for the Buddy Group's programs, which support children and families in the Buchanan area.

Despite the economic climate, especially among farmers, people considered what the event was worth paying for and really did bid generously.

The auction promised something for the whole family, and volunteers worked to make sure it was something to remember. A great many items were donated, and especially those who volunteered close to the event. A large portion of the proceeds went toward the Buddy Group's cause, and people were happy to be able to give.

The auction was held at the Buchanan Intermediate School, and it was a great success. The proceeds went toward the Buddy Group's cause, and people were happy to be able to give.

POTTING ON A PRETTY FACE: A new activity for the BYC whistle stop is the potter's wheel open house. New clay bowls donated to community gun show.

How Chiropractic Heals...

How your body works:

We all know that "communication" is the main key in a good relationship and family life, in good employer-employee relations, and virtually in all situations where cooperation is essential. With over 40 billion working parts in the human body we cannot overemphasize the need for good communication between all the cells, tissues, and organs.

Your body is designed with its own Master Communication System called the Nervous System. This system comprises complete with the brain, spinal cord and all the nerves that travel throughout the body. To function effectively, the brain and spinal cord and all the nerves that travel throughout the body must be able to communicate with each other.

Green Machine grinds out victory over USA

By RICH SWARTZENBERGER
The Lycoming Lykens, a formidable foe in a region that featured a number of talented teams, found itself the victim of a surprise upset as the new-look Green Machine squad defeated the Lykens on the road, 9-3, the team's first victory of the season.

The Green Machine squad took advantage of a solid outing from pitcher John Smith, who tossed a complete game to lead the team to the win. Smith held the Lykens to three runs, all unearned, while striking out seven batters.

The Green Machine scored four runs in the first inning to take an early lead, and the Lykens were unable to recover from that point. The team's offense was quiet throughout the game, mustering only seven hits against the strong Green Machine pitching.

The victory was a welcome boost for the struggling Green Machine squad, which had struggled to find success early in the season. The team will look to build on this win as it continues its schedule against the region's top teams.

Eagle misses stab victory

By RICH SWARTZENBERGER
The Eagles dropped a heartbreaker to the South Shady Hawks, 9-8, in a game that went down to the wire. The Eagles led 8-7 with two outs in the bottom of the ninth inning, but a bases loaded walk and a single put the Hawks in front for good.

The Eagles' offensive efforts were overshadowed by their defense, which turned two double plays and held the Hawks to one run in the last three innings.

The Eagles' loss was the first of the season, and they will look to bounce back as they face off against the region's top teams in the coming weeks.

SANDWICHED: Lakeview Junior Arnold Hefko throws down a rebound versus USA's Jason Beals (17) and Corey Hines (45).

Sturm adds scoring punch in twin Laker wins

By RICH SWARTZENBERGER
The Laker offense was on full blast as the Lakers defeated the Knights, 14-8, in a high-scoring game. Sturm, who led the Laker scoring with 10 runs, added another four runs to lead the team to victory.

The Lakers hit four home runs in the game, including one by Sturm, who hit a three-run homer in the first inning. The Laker bats were clicking on all cylinders, with nine players recording at least one hit.

The Laker defense was solid, with pitcher Mark Smith holding the Knights to three runs, all unearned, while striking out six batters.

The Laker win was their fourth in a row, and they will look to continue their winning ways as they face off against the region's top teams in the coming weeks.
