Three Elkton - Pigeon - Bay Port "Lakers" High School students have placed in the top eight positions of the Thumb B All-Conference Academic Team, as announced jointly today by the eight member schools. Robert Bannick, Christy Licht and Kathy Clabuesch represent the Lakers High Class of 1987 in listing on the area-wide scholars' squad. They were chosen in calculations recognizing grade-point average, ACT testing figures and a scoring system patterned after the statewide one used by the Detroit Free Press in choosing Michigan's top academic scholars each year.

In all, 40 top local students were chosen for First Team, Second Team and Honorable Mention categories. The area-wide listing precedes the naming of most valedictorians, salutatorians, class leaders, scholarship winners and other recognition. This is the second year high school principals and other school officials from the eight Thumb B Association school districts have chosen top scholars, in a way of recognizing outstanding academic performance.

**Attend the Church of Your Choice This Sunday and Every Sunday**

You have seen the amazing film of the astronauts floating around in the weightless environment of their space capsules, trying to catch their food that drifted by in mid-air. This illustrates a law of God which we all take for granted until it is thus brought to our attention, when we see the only way it can be circumvented. Since most of us will never embark on a space voyage, we cannot comprehend what life would be without a disability up and down. Objects would not remain in position and we ourselves would be cast about like motionless water. Our days could not be measured on what would have long since become an iridescent planet. So with our feet planted firmly on the ground, let us thank the Lord, at our House of Worship and elsewhere, for attatching us to our terrestrial home by the law of gravity; the only one that cannot be repulsed by any legislative body.

That I am part of the earth, my feet know perfectly.
—David H. Lawrence
