We're Asking YOU...

This week’s "We're Asking YOU" question, asked by Renee Rycek and Ross Whippier: Do you think the Detroit Tigers will win the pennant this year? Why or why not?

Yes, I think they'll win the pennant because they're the best team. Carol Brown, Posen

They're my favorite team. But I don't think they'll win it because they don't have what it takes. Jill Gandy, Posen

Sure, they are going to win. Herma Nagy, Posen

I don't know because I don't watch baseball. Gail Murphy, Posen

Sure, they're the best team in the American League. Joe Maust, Jr., Posen

Woods and Waters
BY DUANE GUENTHER
Uncle Ernie

The arrival of my uncle on opening morning was as predictable as the ocean tides.
My mother, who was Ernie's sister, would rise long before dawn, and the cooking aroma that punctuated the entire house could almost make a fellow forget about pleasant hunting. Almost, I said.

I felt well prepared, and as the sun rose, I washed up and headed for the office. The fields where Uncle Ernie and I were to hunt were ten miles away.

WINDSOR TOWNSHIP BOARD MEETING
August 6, 1947

The regular meeting of the Windsor Township Board was held in the Court House on Saturday, August 6, 1947. Present: Robert Knowles, Clinton Law, Burt Miller, Charlie Marchesi, Robert Mitchell, William R. Schenkel, and Charles Hrubie. The meeting was called to order at 8:00 by Mayor Knowles. The following officers were elected by acclamation: Mayor Knowles, Vice Mayor Mitchell, and Treasurer Schenkel.

Regular Meeting of the Village of Pigeon
The regular meeting of the Village of Pigeon was held on Tuesday, August 16, 1947. Present: Mayor Knowles, Vice Mayor Mitchell, and Treasurer Schenkel. The meeting was called to order at 8:00 by Mayor Knowles. The following officers were elected by acclamation: Mayor Knowles, Vice Mayor Mitchell, and Treasurer Schenkel.
Poultry Ideas

Although Michigan ranks 18th in poultry production, the poultry industry is still an important one. And it’s growing every year.

Turkey production has grown about 10% a year lately. Chicken production has grown as much as 15% a year.

That reflects changes in our eating habits. In recent years, Americans are eating more poultry and less beef. The trend will continue.

In addition to chicken and turkey, sales of duck, goose, pigeon, and Cornish game hens have increased.

Modern poultry has its origins back to thousands of years ago. Although few fossil records have been found, some early civilizations before that had poultry were first domesticated about 3,000 B.C. in India, Brazil, and the Malayan Peninsula.

Chicken appears in the literature of ancient China, Egypt, Rome, and Greece.

Some four thousand years ago, the Egyptians mastered the intricate techniques of large-scale incubation of eggs. They developed a very sophisticated poultry industry that has been traced only in the last 70 years.

The ancient Egyptians made clay brick structures which could incubate and hatch 10,000 or 15,000 eggs at a time. Constant fans were used for heat, and an attendant could tend the incubator around the required 100 degrees without any kind of thermometer, just his own skin.

Egyptians had probably the first urban, mass society in history. They developed an organized, technological society. Besides engineering water systems, they built pyramids to form that they continued to be the greatest engineering works of the world in the 20th century and 21st century into which the history of mankind was being etched in stone.

Chicken and poultry are products that could be called "income secure" into the future.

WILD DUCK OR PHEASANT CASEROLE

1 duck or pheasant
1 cup eggs, white
2 cups milk
2 cups bread crumbs
1 cup broken toasted rye
1/2 cup chopped onion
1 10 oz can mushrooms, undiluted
1/2 cup cream
1/2 cup cooked spinach
Cut duck into serving pieces. Marinate in wine for 3 hours, ... 1 hour or until done. Sauce and serve. Serve with rice and vegetables.

Duck and Kraut

4 to 6 pound duck
1/2 cup onion
1/2 cup green bell pepper
2 cups celery
1/2 cup chopped onion
Combine all ingredients and heat until the

CHERRY ROSE SAUCE:

1 (10 oz) can whole cherry preserves
1/4 cup rose' wine
1 teaspoon cinnamon
1/2 teaspoon nutmeg
Combine all ingredients and heat until the preserves melt. Serve 4.

CHERRY BAYO SAUCE:

1 (24 oz) can whole cherry preserves
1/4 cup red wine
1 teaspoon cinnamon
1/2 teaspoon nutmeg
Combine all ingredients and heat until the preserves melt. Serve 4.

In conclusion, as in the article on the Michigan Pork Producers, page 15, we urge you to see the Public School Child, I think of the classes in the county. But it is not the classes that are the vise. The class is the vise that is being taught. We are not talking about the classes that are being taught. We are talking about the classes that are not being taught. In regards to the classes that are not being taught, we must find out what they are doing wrong. We must find out how they are doing wrong. We must find out how they are teaching wrong. We must find out what is being taught and what is not being taught.

When we find out what they are doing wrong, we can start to fix it. We can start to fix it by teaching them right.

When we find out what is being taught, we can start to fix it. We can start to fix it by teaching them right.

When we find out what is not being taught, we can start to fix it. We can start to fix it by teaching them right.

In conclusion, the classes that are not being taught are the ones that are being taught wrong. We must find out what they are doing wrong. We must find out how they are doing wrong. We must find out how they are teaching wrong. We must find out what is being taught and what is not being taught.

**Pigeon news briefs**

*From Greensboro, N.C.:* A change in the eagle population in the area has led to a decrease in the number of pigeon sales in Greensboro.

*From Plymouth, Mass.:* A new group has formed to support the local pigeon population. They are holding a fundraiser to help with the costs of maintaining the poultry.

**Scenic notes**

The village of Pigeon will be closing on Tuesday, August 18, from 10:00 a.m. to 1:00 p.m. due to lack of water.

**Foster Health Care Division**

**Area ag on upswing**

An economic report on the Friday morning meeting in the CBW newsroom showed that the number of eggs laying in the county has increased. The number of eggs laid per hen has increased, and the number of hens has also increased. The overall number of hens has increased by 10 percent.

**RELIEF FOR SHORELINE SEEN IN GREAT LAKES REPORT**

Elevations of the Great Lakes were still on the rise in July. The report cites an overall rise in water levels, with the highest levels occurring in Lake Superior. However, the levels are expected to decrease as the summer progresses.

**The dog's breath phonograph**

A wofer without a twpher. Just imagine a wofer without a phonograph. It's hard to fathom how an old-time phonograph works so hard to make sure you're never without it. If the shower one day, remember your phonograph. It helps to keep you clean.
Pigeon Club News

The regular meeting of the Pigeon Lions Club was called to order at 10 a.m. on July 7.

Lions members present were: Dwayne Pfeiffer, President, Joe Henry, First Vice-President, John Sheesper, Second Vice-President, John Brown, Secretary, Joe Scherer, Treasurer, and Jim Lewis, Corresponding Secretary. 

The following business was transacted: 

1. A new member was admitted to the club. 

2. A letter was received from the Lions Club in Michigan which will be given to Michigan in 1982 prohibiting the use of lead shot while hunting waterfowl. 

The Michigan Natural Resources Commission has approved a 10% increase in the number of birds per license. Permits issued for the 1982 season. 

The club plans to have a meeting in July and August to discuss the club's activities. 

The annual meeting will take place on July 7 at 10 a.m. All members are urged to attend.

A motion was made and seconded to adjourn the meeting. The motion was carried.

Sincerely, 

John Sheesper, Secretary

Pigeon Bus Tour

The Pigeon Lions Club will sponsor a bus tour to Mackinac Island on Saturday, July 7. The bus will depart from the Lions Club at 8 a.m. and return at 5 p.m. Tickets are $15 per person and can be purchased from any Lions Club member.

Thu. Aug. 27 2008

REGISTRATION NOTICE TO THE QUALIFIED ELECTORS OF HURON COUNTY

Notice is hereby given that a Special Countywide Election will be held in the County of Huron, State of Michigan, on Tuesday, October 8, 1985.

Purpose of the special election is to provide the following proposition:

TAX RATE LIMITATION PROPOSITION

Shall the limitation on the total amount of taxes which may be assessed against all property in the County of Huron, State of Michigan, be increased, as provided by Section 6, Article V of the Constitution of Michigan, by an amount set forth in Resolution No. 13 of the Huron County Board of Commissioners, dated February 22, 1984?

If you approve the proposition, the maximum amount of taxes that may be assessed against all property in the county will be increased to 1.50%. If you disapprove the proposition, the maximum amount of taxes that may be assessed against all property in the county will be the same as it is now.

The deadline for registering to vote is September 29, 1985.

The time and place of the election is 2:00 p.m. on Tuesday, October 8, 1985, at the Huron County Courthouse, in Sandusky, Michigan.

The registration office will be open from 8:00 a.m. to 2:00 p.m. on Tuesday, October 8, 1985.

If you have any questions, please call the Huron County Clerk's Office at 989-982-8224.

November 5, 1985

Sincerely,

Huron County Clerk

Registry of Pigeon Fowl

The Pigeon Fowl Registry is a club that registers pigeons and keeps records of their breeding. The club is open to all breeders of pigeons and has a membership of over 1000 members around the world. The club holds annual shows and other events to promote the breeding and showing of pigeons.

The Pigeon Fowl Registry offers various classes for pigeons, including standard and fancy classes. The classes are judged based on various criteria such as color, size, and shape. The club also offers awards and prizes for the best exhibiting birds.

The Pigeon Fowl Registry is a great resource for anyone interested in pigeons. It provides a platform for breeders to showcase their birds and connects them with other pigeon enthusiasts. The club also offers educational resources and information on pigeon care and breeding.
REPORT TO THE MICHIGAN NATURAL RESOURCES COMMISSION ON FISHERIES MANAGEMENT DIRECTOR FOR SAGINAW BAY

INTRODUCTION

In 1975, the Natural Resources Commission approved Fisheries Division’s (generalized) direction for management of sport fishery resources in Saginaw Bay. The Division requested more detailed information about plans and time table (also the Division’s management procedure). This report provides a review of the status of the fishery resources, a summary of current and proposed fisheries research, and recommendations for management of free mietics in the commercial and recreational fisheries that have come to the attention of the Natural Resources Commission.

STATUS OF COMMERCIAL FISHES

Porch

The Porch or Yellow perch fishery has been intensely pursued by sport and commercial fishermen for many years. Commercial exploitation of yellow perch has varied widely since the first records were kept. Landings averaged 1.2 million pounds in the 1850 to 1878 period and 400,000 in the 1877 to 1883 period. By 1943 production of perch peaked at 1.2 million pounds, and then steadily declined to a low of 68,000 pounds in 1938.

Sport fishermen target Porch fish in the fall, when schools have moved into the bay to feed on baitfish. The Porch is taken by hand, spearing, and long lining, and by drift net fishing in the fall. The Porch is a common sport fish in the Saginaw Bay area, and is taken by anglers throughout the year. The Porch is also a popular fish for bait.

The Porch is a relatively small fish, with a maximum length of about 10 inches and a weight of about 1.5 pounds. The Porch is found in a variety of habitats, including freshwater and brackish waters. It is a schooling fish, and is commonly found in groups of hundreds or thousands.

The Porch is a popular sport fish, and is a valuable bait fish. It is an important component of the Saginaw Bay ecosystem, and is an important food source for larger fish and birds.

WALLEYS

Historically, Saginaw Bay supported the second largest walleye population in the Great Lakes. An intensive commercial fishery for the species began in the 1880s and extended until the 1930s. The walleye population in the bay began to decline in the 1930s, and by the 1950s the population had begun to collapse. This collapse was attributed to overfishing, disease, and habitat destruction. The walleye population in the bay has declined to the point where the species is considered to be endangered.

Commercial harvest of walleye in Saginaw Bay has declined significantly since the 1930s. The commercial harvest in the 1980s was less than 5% of the population estimated in the 1930s. The walleye population in the bay is currently at a low level, and the species is considered to be endangered.

Walleye are an important sport fish in Saginaw Bay. They are taken by anglers using a variety of techniques, including spinning, fly fishing, and trolling. Walleye are a popular target for a variety of species, including perch, pike, and bass.

WALLEYS

The walleye population in Saginaw Bay is currently at a low level, and the species is considered to be endangered. The walleye population in the bay has declined significantly since the 1930s. The commercial harvest in the 1980s was less than 5% of the population estimated in the 1930s. The walleye population in the bay is currently at a low level, and the species is considered to be endangered.

Commercial harvest of walleye in Saginaw Bay has declined significantly since the 1930s. The commercial harvest in the 1980s was less than 5% of the population estimated in the 1930s. The walleye population in the bay is currently at a low level, and the species is considered to be endangered.

RESOLUTION OF CONFLICTS BETWEEN SPORT AND COMMERCIAL FISHING

The Porch is a relatively small fish, with a maximum length of about 10 inches and a weight of about 1.5 pounds. The Porch is found in a variety of habitats, including freshwater and brackish waters. It is a schooling fish, and is commonly found in groups of hundreds or thousands.

The Porch is a popular sport fish, and is a valuable bait fish. It is an important component of the Saginaw Bay ecosystem, and is an important food source for larger fish and birds.

The Porch is a popular sport fish, and is a valuable bait fish. It is an important component of the Saginaw Bay ecosystem, and is an important food source for larger fish and birds.

February 23, amounting to $78.000.

Acreage of cash payments is $1.424 million, including 226,220 acres for the 1975 elevator patronage of 1,990,220, 1976 elevator patronage of 1,990,220, 1977 patronage of 1,990,220, 1978, plus a portion of the former Pigeon Coop Oil from 1977 and the former Sebewaing Farmers Coop 1979 and 1971 patronage.

The CANDIDATE: Ellen, a recent graduate of Michigan State University, was selected as President Board as President. A district Board President for 3 years, he owns Green-Fresh, a produce and meat company, sugar beet and bean farm.

Smith, 28, has been a director’s director for his father and his Denny Farm 140 acres of wheat, corn, beans, and beets.

Anderson, 30, has farmed for 10 years, his father Wayne Anderson for 30 years, he owns a 50-acre farm where they grow wheat and grain on 140 acres.

Grushe, 22, farmed in partnership with his father, Leon Grushe, and in partnership with his uncle, Leonard Grushe, on 1200 acres, in which, among other crops, beans and hay. They also raise cattle.

Voting members of the Co- Elevator, with other locations in Kloster, Sebewaing, and Akron, will decide who will fill the terms.

About 20 state legislators and other officials, county and township elected and appointed officials, members of the press, business people and other Huron County residents attended the 5th Annual Awareness Day last month in Sebewaing Village Park.

Ralph (Ren) of Bad Axe was served as chairman of the event, which started with a fishermen’s breakfast at Pope’s Place, Rose Island, followed by Porch and Walleye fishing.

A continental breakfast was served at Scenic Golf and Country Club at 9 a.m., with refreshments, and lunch at the Club. During the afternoon there were several meetings and discussions with various groups and individuals.

We are looking forward to seeing you at the next Huron County Awareness Day.
