Trips 'round the world start in Caseville!

By SALLY MURRAY

Most people who travel for a distance to work complete a commute of a few miles. But some Casevilleans travel just as far for work.

For Roberta Lisetski of Caseville, her 15-minute commute to the hospital is a daily challenge. As a flight attendant for Continental Airlines, Mrs. Lisetski flies over 20 hours a week for her job.

"During the winter, the only thing that keeps me going is the thought of seeing my family. It's a long way to come and back each day," said Mrs. Lisetski.

She said she enjoys the change of scenery each day, but it can be tough on family members who also travel for work.

"My kids have a hard time understanding that I'm not just away for the weekend," she said.

In the summer, she said she tries to make the most of her time off by spending it with her family.

"When the weather is nice, we try to get out and do some activities," she said. "But it's definitely a challenge to keep the kids busy and happy when I'm gone so much."
As we see it editorially

Taking our own medicine...

Author Tom Peters hit the nail on the head, regarding automobile manufacturing. He said if you put the car into gear and step on the gas, you better have a lot of money in the bank. His writing was domestically made car manufacturers, not to mention the Japanese.

If I could give a single piece of advice to GM and Ford, it would be the same advice to Detroit," Peters said. "The Detroit Free Press is a reasonable newspaper. I think Detroit needs more trouble in its life. I don't get Peters wrong. He's not saying automakers should continue changing more hardship on our state's largest city.

...which doesn't need any more pain.

He continues, "I was in Detroit recently. As I drove from the airport, I noticed the acres of Japanese cars in 4-gears." Peters says, "I live in California, where there are not as many Japanese cars. But in Detroit, I saw a lot of them. I was impressed by how many Japanese cars were on the streets."

Peters' point is that auto executives who live in different areas are more likely to be aware of what's happening in the business. They can see for themselves the and consequences of production and finance, which are different from what they might read in the newspapers.

The problem with staying in business is that if you don't want to make a decision about the business, you can't stay in business. If you don't want to decide about the business, you can't stay in business. If you don't want to decide about the business, you can't stay in business.

Peters' point is that auto executives who live in different areas are more likely to be aware of what's happening in the business. They can see for themselves the and consequences of production and finance, which are different from what they might read in the newspapers.

...which doesn't need any more pain.

But in Detroit, I saw a lot of them. I was impressed by how many Japanese cars were on the streets."
**Green Machine rolls over hapless Hawks**

By Rich Swartzlander

The top-seeded defense felled No. 8-ranked Paul Brown's group of Cinderella teams — in five straight sets.

The Lakers defense seemed set up for an upset Monday night at the City Gym. But when the dust settled, it was the Lakers who were erased from the tournament picture.

All week long in practice, Head Coach Paul Brown had his team in a no-nonsense mode.

"We are playing a lot better this month," Brown said after the match, "and I think this is the best team we've ever had." 

And the Lakers proved it Monday night.

**Superb defense**

Brown's defense in the semifinals only improved on its work against the Champs.

Brown said, "We were moving well and playing together. We had a lot of good teams, but tonight was just too good for us." 

**Hawkeye defense**

Wade Johnson, who had a career-high 11 blocks, said, "We were all playing well, and we were hitting the ball well. We just played better."

Scheuerer Hospital’s Breast Cancer Detection Center

- Because breast cancer strikes one in eleven women.
- Because breast cancer is the most common form of cancer among American women.
- The best chance of beating breast cancer is early detection.

Scheuerer Hospital’s Breast Cancer Detection Center offers a comprehensive center where women can:
- Have a breast exam by a trained registered technician.
- Learn about breast self-exam.
- Have a mammogram by a registered X-ray technician to detect any abnormality.

All in 30 minutes or less, schedule 4 around the busy woman’s day. In a private, intimate, secure area of the hospital where your privacy and confidentiality are assured.

For more information, ask your doctor, or call the Scheuerer Radiology Dept. at 452-3223.

Eye glasses closer? Let Us Give You a Younger, More in Focus Outlook

NO NEED FOR INFERIOR VISION IN THE "OLDEN YEARS" WHEN ALL YOU NEED IS A GOOD PAIR OF GLASSES

If you’ve past 45 and beginning to notice blurred or uncorrected vision as your normal reading distance, you probably have presbyopia. This is a condition resulting from normal aging of the lens of the eye.

Your optometrist can correct the condition by simply prescribing appropriate glasses or contact lenses. See him soon for fast, accurate correction.

- To be a "nighttime" person, because I love to have fun and entertain with family and friends.
- Lisa D’Camillo

Eyes Getting Older? Let Us Give You a Younger, More in Focus Outlook

SCHUERER HOSPITAL

Pigeon, MI 48765

You’re reading The Progress-Advance and we appreciate it.
Pigeon's future land use would be different from present!

Pigeon's future could look entirely different from its past, if the future land use plan prepared under contract by the Village's Planning and Zoning Commission is adopted - and followed.

The future land use plan map is reproduced here with striking changes from existing uses observed. Under this plan, the Village of Pigeon believes that the Village's future will be greatly enhanced.

In the Upper Right Portion, school street would be lengthened north towards the village. North Street would be lengthened north towards the present Wilson/Sheppard street.

In the Lower Right Portion, map rooms for a new industrial plant and new residential subdivision would be included.

In the Lower Left Portion, more residential space would be made available, more schools and new streets would be developed to accommodate the new residential subdivisions.

In the Center Portion, industrial and commercial space would be made available, more schools and new streets would be included.

This plan is only a plan at this time and planning and zoning commission, Mr. Leo and other members are working on the plan to include the houses and rooms for the future.

The plan is for the future and will be adopted by the Village Council at a regular meeting.

For the purpose of voting on the following proposition: TAX RATE LIMITATION INCREASE PROPOSITION

Shall the limitation on the total amount of taxes which may be assessed against all property in the County of Huron, State of Michigan, be increased, as provided by Section 6, Article 9 of the Constitution of Michigan, by 1.30 mills ($1.30 on each $1,000.00) of the assessed valuation, as equalized, of all property in the County for each of the years, 1987 through 1990 (3 years) for the purpose of providing additional funds for improvement of primary roads, primary and local bridges, and major and local streets within the County?

SPECIAL COUNTYWIDE ELECTION TO THE QUALIFIED ELECTORS:

NOTICE IS HEREBY GIVEN THAT A SPECIAL COUNTYWIDE ELECTION WILL BE HELD IN ALL PRECINCTS IN HURON COUNTY, MICHIGAN ON TUESDAY, SEPTEMBER 29, 1987

WHAT GOOD IS YOUR OUTDOOR SECURITY LIGHTING IF YOU FORGET TO USE IT?

Install automatic lighting controls and forget it. Detroit Edison

A good part of the light...
ATTEND THE CHURCH OF YOUR CHOICE THIS SUNDAY AND EVERY SUNDAY

The very freedom provided by the laws that govern our lives also gives us the right to support faiths and beliefs other than our own. It is a freedom that many other nations do not enjoy.

This does not mean we should abandon our faith, beliefs, and churches. It means we should respect and support other faiths as well.

As a Christian, I believe in the importance of attending church. It is a place where we can learn about God and His teachings. It is a place where we can connect with others who share our faith and beliefs. It is a place where we can seek solace and support during difficult times.

However, I also believe in the importance of supporting other faiths. It is a way of showing respect and understanding for others. It is a way of promoting peace and harmony in our society.

So, I encourage everyone to attend the church of their choice this Sunday and every Sunday. Whether it is a Christian church, a Jewish synagogue, a Muslim mosque, or a Buddhist temple, it is a place where we can learn and grow.

Let us remember that the freedom to choose our own faith is a precious one. Let us use it to support and respect others, just as we expect others to support and respect us.

Happy Sunday!
